1	I support and encourage WAY MORE than seven fruit trees!!	11/7/2021 5:15 PM
2	Fruit trees can be messy. Kids will use the fallen fruit as weapons. Fallen fruit brings bees. Who will clean up the mess? The park isn't kept clean now.	11/6/2021 7:59 PM

1	These trees all fruit in the late summer, so picking fruit could not happen regularly. What sort of information will be shared with neighbors so that the fruit is allowed to fully mature? Will an Integrated Pest Management plan be developed? Will there be a commitment to organic or no/low spray techniques? Will there be a plan for composting in the area? Thanks for this great idea - very hopeful for it's success.	11/21/2021 5:40 PM
2	I'm so happy this is being considered. I've submitted this idea many times! There is a huge, completely unused green area at this park that could be out to better use by evergreens mixed with fruit trees/bushes and mulch walking paths. The playground are could also use more shade trees for sure, especially noon/evening shade.	11/7/2021 5:15 PM
3	Young trees will need care. Who will water and trim them? Will they be sprayed for optimum growth?Who will ensure that they are protected from vandalism? Not sure that this is the best idea for the much needed work.	11/6/2021 7:59 PM
4	I would support even more fruit trees in the park beyond this proposal. I have also thought the large open field could make a good spot for community garden allotments.	11/5/2021 9:46 AM
5	The area identified for planting frequently has standing water. Want to ensure that is suitable for the fruit trees.	11/4/2021 4:01 PM
6	Seems like a great idea.	11/4/2021 7:41 AM
