Earhart Road Safety Improvements and Lane Conversion Public Survey Results

FEEDBACK FORM

Earhart Road Open House

April 11, 2019

Thank you for attending the open house to discuss the potential changes to Earhart Road. The feedback you provide on this form will be given to City Council to assist with their decision about this project.

1. I am a (check all that apply)

- City Resident
- Student
- Commuter
- Pedestrian with mobility challenges
- Non-Driver (under 16)
- Non-Driver (by choice or otherwise)

2. How do you use the Earhart corridor? Check all that apply.

- Walking
- Bicycling
- Riding the bus ('The Ride')
- Riding the bus (school bus)
- Driving
- Other child rides the AATA

3. How important is it to make street changes on Earhart that improve driver and passenger safety?

Very important Important No opinion Low importance Not at all important

Comments: I avoid the Glacier / Earhart intersection and drive through the neighborhood. In teaching my teen to drive I have avoided that intersection for left

4. How important is it to make street changes on Earhart that improve pedestrian and bicyclist ^{hand turns} safety?

Very important Important No opinion Low importance Not at all important

Comments: I hate thinking about my children crossing Earhart to take the bus at Glacier Hills. Cars are driving 50 mph on Earhart going southbound. I cringe seeing kids cross near Waldenwood on their way to / from school.

5. Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Highly support Support No opinion Low support Do not support

Comments: Slow down ASAR

6. Do you support testing the roundabout at Glazier Way?

Highly support Support No opinion Low support Do not support

Comments: Will improve turning & visibility. I hate left turns here.

7. Do you support testing the roundabout at Greenhills Drive / Waldenwood Drive?

Highly support Support No opinion Low support Do not support

Comments: will improve pedestrian crossings.

8. Do you have any other thoughts for us to consider?

Additional signage for speed limits / to slow down before / after exiting bridge on south bound Earhart. This is where traffic is speeding the most.

Consider flashers for some crosswalks if cars going fast and area will not have roundabouts.

FEEDBACK FORM

Earhart Road Open House

April 11, 2019

Thank you for attending the open house to discuss the potential changes to Earhart Road. The feedback you provide on this form will be given to City Council to assist with their decision about this project.

1. I am a (check all that apply)

- City Resident
- Student
- Commuter
- Pedestrian with mobility challenges
- Non-Driver (under 16)
- Non-Driver (by choice or otherwise)

2. How do you use the Earhart corridor? Check all that apply.

- Walking
- Bicycling
- Riding the bus ('The Ride')
- Riding the bus (school bus)
- Driving
- Other _____

3. How important is it to make street changes on Earhart that improve driver and passenger safety?

Very important Important No opinion Low importance Not at all important

Comments: _____

4. How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Very important Important No opinion Low importance Not at all important

Comments: We have the sidewalk which gets
minimal use.

Unless there are data that it is
dangerous for cyclists or peds on sidewalk.

5. Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Highly support Support No opinion Low support Do not support

Comments: Plenty of side walk space. I use
that for walking/biking.

6. Do you support testing the roundabout at Glazier Way?

Highly support Support No opinion Low support Do not support

Comments: Still have concerns in #7.

7. Do you support testing the roundabout at Greenhills Drive / Waldenwood Drive?

Highly support Support No opinion Low support Do not support

Comments: Too small area, people ^{on Earhart} will zoom through.
Cross traffic will be less cautious, putting them more at
risk. Need bigger ~~round~~ roundabout.

8. Do you have any other thoughts for us to consider?

I didn't see any data to support actions.
The roundabouts will be too small →
dangerous like Huron + Nixon. People don't
know how to use properly.
→ would like to know # crashes compared to
other areas.
- Plan doesn't address high speeds coming from bridge
Over 23 to Kipling.

FEEDBACK FORM

Earhart Road Open House

April 11, 2019

Thank you for attending the open house to discuss the potential changes to Earhart Road. The feedback you provide on this form will be given to City Council to assist with their decision about this project.

1. I am a (check all that apply)

- City Resident
- Student
- Commuter
- Pedestrian with mobility challenges
- Non-Driver (under 16)
- Non-Driver (by choice or otherwise)

2. How do you use the Earhart corridor? Check all that apply.

- Walking
- Bicycling
- Riding the bus ('The Ride')
- Riding the bus (school bus)
- Driving
- Other _____

3. How important is it to make street changes on Earhart that improve driver and passenger safety?

Very important Important No opinion Low importance Not at all important

Comments:

This intersection needs redesign.

4. How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Very important Important No opinion Low importance Not at all important

Comments:

Earhart is not bike friendly

5. Do you support testing the lane conversion and providing bike lanes on Earhart Road?

- Highly support Support No opinion Low support Do not support

Comments: _____

6. Do you support testing the roundabout at Glazier Way?

- Highly support Support No opinion Low support Do not support *not all*

Comments: _____

7. Do you support testing the roundabout at Greenhills Drive / Waldenwood Drive?

- Highly support Support No opinion Low support Do not support

Comments: _____

8. Do you have any other thoughts for us to consider?

check with council left

park friendly
Earhart is not

FEEDBACK FORM

Earhart Road Open House

April 11, 2019

Thank you for attending the open house to discuss the potential changes to Earhart Road. The feedback you provide on this form will be given to City Council to assist with their decision about this project.

1. I am a (check all that apply)

- City Resident
- Student
- Commuter
- Pedestrian with mobility challenges
- Non-Driver (under 16)
- Non-Driver (by choice or otherwise)

2. How do you use the Earhart corridor? Check all that apply.

- Walking
- Bicycling
- Riding the bus ('The Ride')
- Riding the bus (school bus)
- Driving
- Other _____

3. How important is it to make street changes on Earhart that improve driver and passenger safety?

Very important Important No opinion Low importance Not at all important

Comments: _____

4. How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Very important Important No opinion Low importance Not at all important

Comments: It is very difficult to cross Earhart as a pedestrian. It's a huge challenge when it's dark outside

5. Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Highly support

Support

No opinion

Low support

Do not support

Comments: _____

6. Do you support testing the roundabout at Glazier Way?

Highly support

Support

No opinion

Low support

Do not support

Comments: _____

7. Do you support testing the roundabout at Greenhills Drive / Waldenwood Drive?

Highly support

Support

No opinion

Low support

Do not support

Comments: _____

8. Do you have any other thoughts for us to consider?

Please consider better lighting along
Earhart. It is very dark at night
and early in the morning for those
of us who walk during those times.
Even with flashlights, etc., it's
hard to cross in the crosswalks at those
times.

FEEDBACK FORM

Earhart Road Open House

April 11, 2019

Thank you for attending the open house to discuss the potential changes to Earhart Road. The feedback you provide on this form will be given to City Council to assist with their decision about this project.

1. I am a (check all that apply)

- City Resident
- Student
- Commuter
- Pedestrian with mobility challenges
- Non-Driver (under 16)
- Non-Driver (by choice or otherwise)
- Pedestrian
- Biker

2. How do you use the Earhart corridor? Check all that apply.

- Walking
- Bicycling
- Riding the bus ('The Ride')
- Riding the bus (school bus)
- Driving
- Other _____

3. How important is it to make street changes on Earhart that improve driver and passenger safety?

Very important Important No opinion Low importance Not at all important

Comments: I think the main ~~was~~ issue is ^{pedestrian safety} ~~that~~ vehicles speed between the 2 ^{US-23} exits. I've been here 15 years, and the main issue is crossing on foot or biking

4. How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Very important Important No opinion Low importance Not at all important

Comments: At times close to the o'clock hours, it gets dangerous to cross. There are students from King and Greenhills that deserve safer crossing conditions.

5. Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Highly support Support No opinion Low support Do not support

Comments: ^{Plus,} I think that the only way to make pedestrian crossing safer is ~~sure the light~~ to install the very visible, pedestrian-operated lights.

6. Do you support testing the roundabout at Glazier Way?

Highly support Support No opinion Low support Do not support ^{Waldenwood.}

Comments: As I said, I think the main issue is misbehaving, running-late, drivers. I don't see that the round-about w/ Geddes is helpful to pedestrians.

7. Do you support testing the roundabout at Greenhills Drive / Waldenwood Drive?

Highly support Support No opinion Low support Do not support ^{Glazier}

Comments: Here it makes more sense, because sometimes it is a little insane to try to take lefts from and to Earhart. But the stop needs to stay. That makes

8. Do you have any other thoughts for us to consider?

In summary: I think the most in danger now are pedestrians crossing @ Waldenwood. Winter mornings are scary. Drivers at 15 min to the hour (To 7am, to 8am..) are out of control. In my experience roundabouts are NOT particularly pedestrian friendly. Stop signs and/or lights (pedestrian-operated) work to stop drivers.

pedestrian crossing there better.

FEEDBACK FORM

Earhart Road Open House
April 11, 2019

Thank you for attending the open house to discuss the potential changes to Earhart Road. The feedback you provide on this form will be given to City Council to assist with their decision about this project.

1. I am a (check all that apply)

- City Resident
- Student
- Commuter
- Pedestrian with mobility challenges
- Non-Driver (under 16)
- Non-Driver (by choice or otherwise)

2. How do you use the Earhart corridor? Check all that apply.

- Walking
- Bicycling
- Riding the bus ('The Ride')
- Riding the bus (school bus)
- Driving
- Other

3. How important is it to make street changes on Earhart that improve driver and passenger safety?

Very important Important No opinion Low importance Not at all important

Comments: Accidents are rare.
Have never seen one in 40 years

4. How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Very important Important No opinion Low importance Not at all important

Comments: Walkers have sidewalks.
There are few bicyclists since they
can't ride on Earhart or Plymouth
or Geddes

5. Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Highly support

Support

No opinion

Low support

Do not support

Comments: _____

6. Do you support testing the roundabout at Glazier Way?

Highly support

Support

No opinion

Low support

Do not support

Comments: _____

7. Do you support testing the roundabout at Greenhills Drive / Waldenwood Drive?

Highly support

Support

No opinion

Low support

Do not support

Comments: _____

8. Do you have any other thoughts for us to consider?

Potholes, poor roads are the
main problem. No need
to change the entire
road for bikes. Walkers
can use it just fine.

FEEDBACK FORM

Earhart Road Open House

April 11, 2019

Thank you for attending the open house to discuss the potential changes to Earhart Road. The feedback you provide on this form will be given to City Council to assist with their decision about this project.

1. I am a (check all that apply)

- City Resident
- Student
- Commuter
- Pedestrian with mobility challenges
- Non-Driver (under 16)
- Non-Driver (by choice or otherwise)

2. How do you use the Earhart corridor? Check all that apply.

- Walking
- Bicycling
- Riding the bus ('The Ride')
- Riding the bus (school bus)
- Driving
- Other _____

3. How important is it to make street changes on Earhart that improve driver and passenger safety?

Very important Important No opinion Low importance Not at all important

Comments: Have never seen an accident on Earhart

4. How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Very important Important No opinion Low importance Not at all important

Comments: Bike paths are not necessary on Earhart. You can not bike on the adjoining streets such as beddes of Plymouth road.

5. Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Highly support Support No opinion Low support Do not support

Comments: Useless ideas
Rarely see bikes on Earhart Road.
Bike paths are used more closer to the city central

6. Do you support testing the roundabout at Glazier Way?

Highly support Support No opinion Low support Do not support

Comments: Maybe one roundabout
would be helpful

7. Do you support testing the roundabout at Greenhills Drive / Waldenwood Drive?

Highly support Support No opinion Low support Do not support

Comments: _____

8. Do you have any other thoughts for us to consider?

Earhart Road's main issue is a
poorly layed pavement. Seams and
shoulders are the worst condition
Many potholes

6. Do you support testing the roundabout at Glazier Way?

Highly support Support No opinion Low support Do not support

Comments: _____

7. Do you support testing the roundabout at Greenhills Drive / Waldenwood Drive?

Highly support Support No opinion Low support Do not support

Comments: _____

8. Do you have any other thoughts for us to consider?

Biggest issue in the damn pathalee
I feel making it a 2 lane from 4
lanes will make it worst for
walkers and cyclists

FEEDBACK FORM

Comments: _____

7. Do you support testing the roundabout at Greenhills Drive / Waldenwood Drive?

Highly support

Support

No opinion

Low support

Do not support

Comments: _____

8. Do you have any other thoughts for us to consider?

*A try to avoid flashing lights for pedestrians - this is not the answer too much lighting / signs can create more problems
Need speed monitoring / patrols along earhart - important
→ Biking on Earhart important so idea of decreasing ^{1st} lane to ² lane may be helpful, but not sure about traffic buildup during rush hours.*

FEEDBACK FORM

Earhart Road Open House

April 11, 2019

Earhart Road Open House

April 11, 2019

Thank you for attending the open house to discuss the potential changes to Earhart Road. The feedback you provide on this form will be given to City Council to assist with their decision about this project.

1. I am a (check all that apply)

- City Resident
- Student
- Commuter
- Pedestrian with mobility challenges
- Non-Driver (under 16)
- Non-Driver (by choice or otherwise)

2. How do you use the Earhart corridor? Check all that apply.

- Walking
- Bicycling
- Riding the bus ('The Ride')
- Riding the bus (school bus)
- Driving
- Other _____

3. How important is it to make street changes on Earhart that improve driver and passenger safety?

Very important Important No opinion Low importance Not at all important

Comments: The two corners identified for roundabouts are dangerous,
so the idea of searching for solutions is a good one.

4. How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Very important Important No opinion Low importance Not at all important

Comments: _____

5. Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Highly support Support No opinion Low support Do not support

Comments: _____

6. Do you support testing the roundabout at Glazier Way?

Highly support Support No opinion Low support Do not support

Comments: _____

7. Do you support testing the roundabout at Greenhills Drive / Waldenwood Drive?

Highly support Support No opinion Low support Do not support

Comments: _____

8. Do you have any other thoughts for us to consider?

- Consider an additional roundabout at other Greenhills Dr./Earhart intersection.
- I'm concerned about snow removal with the "temporary" roundabouts. It is a harder problem than dealing with a built roundabout.
- The plan seems to prioritize turning traffic over traffic ^{carrying on along Earhart.}

FEEDBACK FORM

Earhart Road Open House

April 11, 2019

Thank you for attending the open house to discuss the potential changes to Earhart Road. The feedback you provide on this form will be given to City Council to assist with their decision about this project.

FEEDBACK FORM

Earhart Road Open House

April 11, 2019

Thank you for attending the open house to discuss the potential changes to Earhart Road. The feedback you provide on this form will be given to City Council to assist with their decision about this project.

1. I am a (check all that apply)

- City Resident
- Student
- Commuter
- Pedestrian with mobility challenges
- Non-Driver (under 16)
- Non-Driver (by choice or otherwise)

2. How do you use the Earhart corridor? Check all that apply.

- Walking
- Bicycling
- Riding the bus ('The Ride')
- Riding the bus (school bus)
- Driving
- Other _____

3. How important is it to make street changes on Earhart that improve driver and passenger safety?

Very important Important No opinion Low importance Not at all important

Comments: it is currently very dangerous for
drivers + pedestrians - speed limit too high

4. How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Very important Important No opinion Low importance Not at all important

Comments: pedestrians + pets are at risk

5. Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Highly support

Support

No opinion

Low support

Do not support

Comments: needs to be like Glazier Way

6. Do you support testing the roundabout at Glazier Way?

Highly support

Support

No opinion

Low support

Do not support

Comments: definitely need Roundabout

7. Do you support testing the roundabout at Greenhills Drive / Waldenwood Drive?

Highly support

Support

No opinion

Low support

Do not support

Comments: pedestrians from Earhart Village cannot currently safely cross - traffic does not stop

8. Do you have any other thoughts for us to consider?

Need nighttime lighting from Glazier to Geckles
Pod Xing needs flashing lights - not just signs!

FEEDBACK FORM

Earhart Road Open House

April 11, 2019

Thank you for attending the open house to discuss the potential changes to Earhart Road. The feedback you provide on this form will be given to City Council to assist with their decision about this project.

1. I am a (check all that apply)

- City Resident
- Student
- Commuter
- Pedestrian with mobility challenges
- Non-Driver (under 16)
- Non-Driver (by choice or otherwise)

2. How do you use the Earhart corridor? Check all that apply.

- Walking
- Bicycling
- Riding the bus ('The Ride')
- Riding the bus (school bus)
- Driving
- Other Passenger

3. How important is it to make street changes on Earhart that improve driver and passenger safety?

Very important Important No opinion Low importance Not at all important

Comments: Speed is way to fast 50 mi instead of 35 mi an hour

4. How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Very important Important No opinion Low importance Not at all important

Comments: Cars go way to fast crosswalks are often ignored.

5. Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Highly support

Support

No opinion

Low support

Do not support

Comments: If bike lanes are put on Earhart
it would be dangerous for bikers

6. Do you support testing the roundabout at Glazier Way?

FEEDBACK FORM

Earhart Road Open House

April 11, 2019

Thank you for attending the open house to discuss the potential changes to Earhart Road. The feedback you provide on this form will be given to City Council to assist with their decision about this project.

1. I am a (check all that apply)

- City Resident
- Student
- Commuter
- Pedestrian with mobility challenges
- Non-Driver (under 16)
- Non-Driver (by choice or otherwise) - *parent*

2. How do you use the Earhart corridor? Check all that apply.

- Walking
- Bicycling
- Riding the bus ('The Ride')
- Riding the bus (school bus)
- Driving
- Other _____

3. How important is it to make street changes on Earhart that improve driver and passenger safety?

Very important Important No opinion Low importance Not at all important

Comments: Overbuilt street encourages speeding + lots of aggressive passing at the merge points!

4. How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Very important Important No opinion Low importance Not at all important

Comments: My bike commute is 8 miles long - Earhart is the most / only dangerous part of that distance

5. Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Highly support Support No opinion Low support Do not support

Comments: Would prefer to go ahead and do it, but testing in meantime is good too.

6. Do you support testing the roundabout at Glazier Way?

Highly support Support No opinion Low support Do not support

Comments: Intersection already an unmarked, poorly-functioning roundabout in effect - formalizing will improve!

7. Do you support testing the roundabout at Greenhills Drive / Waldenwood Drive?

Highly support Support No opinion Low support Do not support

Comments: I don't make turns at this location so have no opinion

8. Do you have any other thoughts for us to consider?

- Curb lane pavement in very bad condition - need patching before can expect heavy bike use.

- Two-lane section from Pine Bluff to Geddes needs bike facility to connect this segment to B2B.

- Why maintain full pavement width? Could Earhart be regular 2-lane throughout, other half of Blvd converted to bike/walk path + extra green space.

FEEDBACK FORM

Earhart Road Open House

April 11, 2019

Thank you for attending the open house to discuss the potential changes to Earhart Road. The feedback you provide on this form will be given to City Council to assist with their decision about this project.

Comments: _____

6. Do you support testing the roundabout at Glazier Way?

Highly support Support No opinion Low support Do not support

Comments: _____

7. Do you support testing the roundabout at Greenhills Drive / Waldenwood Drive?

Highly support Support No opinion Low support Do not support

Comments: _____

8. Do you have any other thoughts for us to consider?

*Thank you for the foresight to create
a safer road.*

FEEDBACK FORM

Earhart Road Open House

April 11, 2019

Thank you for attending the open house to discuss the potential changes to Earhart Road. The feedback you provide on this form will be given to City Council to assist with their decision about this project.

1. I am a (check all that apply)

- City Resident
- Student
- Commuter
- Pedestrian with mobility challenges
- Non-Driver (under 16)
- Non-Driver (by choice or otherwise)

2. How do you use the Earhart corridor? Check all that apply.

- Walking - sidewalks
- Bicycling
- Riding the bus ('The Ride')
- Riding the bus (school bus)
- Driving
- Other _____

3. How important is it to make street changes on Earhart that improve driver and passenger safety?

Very important Important No opinion Low importance Not at all important

Comments: Road repair is the major

need. Better road repair - not

what is done now. Poor seams, patch

4. How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Very important Important No opinion Low importance Not at all important

Comments: Earhart bike paths would

not be useful - once you get to

Geddes or Plymouth road you can
not bike there.

5. Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Highly support

Support

No opinion

Low support

Do not support

Comments:

Bike lanes on Earhart
are useless. Once you get to Geddes
or Plymouth road you can not bike
there.

6. Do you support testing the roundabout at Glazier Way?

Highly support

Support

No opinion

Low support

Do not support

Comments:

one roundabout only

7. Do you support testing the roundabout at Greenhills Drive / Waldenwood Drive?

Highly support

Support

No opinion

Low support

Do not support

Comments:

one roundabout only

8. Do you have any other thoughts for us to consider?

① Bridge on Earhart is already
hazardous. Bicycles would not
be able to use it. (unless there's
another addition)

② Roads all over AZ are in bad
repair. Perhaps a consultation with
other cities on the west side of the
state would be helpful. Their roads
are all in good condition. (See what
products/road engineering they use)

③ AZ Roads are in very poor condition -
especially the road seams.

FEEDBACK FORM

Earhart Road Open House

April 11, 2019

Thank you for attending the open house to discuss the potential changes to Earhart Road. The feedback you provide on this form will be given to City Council to assist with their decision about this project.

1. I am a (check all that apply)

- City Resident
- Student
- Commuter
- Pedestrian with mobility challenges
- Non-Driver (under 16)
- Non-Driver (by choice or otherwise)

2. How do you use the Earhart corridor? Check all that apply.

- Walking
- Bicycling
- Riding the bus ('The Ride')
- Riding the bus (school bus)
- Driving
- Other _____

3. How important is it to make street changes on Earhart that improve driver and passenger safety?

Very important Important No opinion Low importance Not at all important

Comments: _____

4. How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Very important Important No opinion Low importance Not at all important

Comments: _____

5. Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Highly support

Support

No opinion

Low support

Do not support

Comments: Very few bikes use Earhart Rd - reducing the space for drivers for the convenience of a few bicyclists is a waste of resources and an insult to voters. It's almost as bad as the bike bridge across U.S. 23

6. Do you support testing the roundabout at Glazier Way?

Highly support

Support

No opinion

Low support

Do not support

Comments: Having a roundabout should be a low priority - please consider other methods of slowing traffic and reducing crashes - signage, flashing lights, encouraging safe driving habits, for example.

7. Do you support testing the roundabout at Greenhills Drive / Waldenwood Drive?

Highly support

Support

No opinion

Low support

Do not support

Comments: A truly stupid idea to have 2 roundabouts within a block of each other - see comments for 6.

8. Do you have any other thoughts for us to consider?

Is crash frequency on Earhart a major traffic issue? Having lived at the corner of Earhart & Waldenwood for 36 years, it's not been my observation that there are more crashes on Earhart than there are at other places. Earhart Rd is in sore need of repaving - that should be the priority.

FEEDBACK FORM

Earhart Road Open House

April 11, 2019

Thank you for attending the open house to discuss the potential changes to Earhart Road. The feedback you provide on this form will be given to City Council to assist with their decision about this project.

1. I am a (check all that apply)

- City Resident
- Student
- Commuter *to Downtown*
- Pedestrian with mobility challenges
- Non-Driver (under 16)
- Non-Driver (by choice or otherwise)

2. How do you use the Earhart corridor? Check all that apply.

- Walking
- Bicycling
- Riding the bus ('The Ride')
- Riding the bus (school bus)
- Driving
- Other _____

3. How important is it to make street changes on Earhart that improve driver and passenger safety?

Very important Important No opinion Low importance Not at all important

Comments: *Absolutely no reason to change. A few yrs ago we spent \$thousands putting in a sidewalk that very few people use. Fix the road!*

4. How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Very important Important No opinion Low importance Not at all important

Comments: _____

5. Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Highly support

Support

No opinion

Low support

Do not support

Comments: _____

6. Do you support testing the roundabout at Glazier Way?

Highly support

Support

No opinion

Low support

Do not support

Comments: An expense not necessary - Use
the money to, all together now, "fix
the damn road!"

7. Do you support testing the roundabout at Greenhills Drive / Waldenwood Drive?

Highly support

Support

No opinion

Low support

Do not support

Comments: _____

8. Do you have any other thoughts for us to consider?

Why waste the money. Commuter traffic
is huge. Why slow it down?
Commuter work ultimately leads to
increased city taxes. That money should be used
to enhance auto drivability, not for
a relatively few bike riders - who
generally don't obey traffic laws.

FEEDBACK FORM

Comments: _____

7. Do you support testing the roundabout at Greenhills Drive / Waldenwood Drive?

Highly support

Support

No opinion

Low support

Do not support

Comments: _____

8. Do you have any other thoughts for us to consider?

This plan could work if vehicle traffic does not increase, if vehicle traffic increases & bike traffic does not increase - you have lost a traffic lane & provided bike lanes to no where - there is no bike lanes on roads east of Earhart or on Plymouth east of Earhart - It isn't like you can bike to the grocery store from Pine Bluff

Highly support Support No opinion Low support Do not support

Comments: _____

7. Do you support testing the roundabout at Greenhills Drive / Waldenwood Drive?

Highly support Support No opinion Low support Do not support

Comments: _____

8. Do you have any other thoughts for us to consider?

Very important to include King School in your planning — what you do on Earhart will have a permanent effect on King's traffic patterns.

With Glacier Hills expanding, why close a lane in front / near the facility?

Are we sure we won't need 2 lanes each way in 15, 20, 30 years? where will we then get the space?

FEEDBACK FORM

Earhart Road Open House

April 11, 2019

Thank you for attending the open house to discuss the potential changes to Earhart Road. The feedback you provide on this form will be given to City Council to assist with their decision about this project.

1. I am a (check all that apply)

- City Resident
- Student
- Commuter
- Pedestrian with mobility challenges
- Non-Driver (under 16)
- Non-Driver (by choice or otherwise)

2. How do you use the Earhart corridor? Check all that apply.

- Walking
- Bicycling
- Riding the bus ('The Ride')
- Riding the bus (school bus)
- Driving
- Other _____

3. How important is it to make street changes on Earhart that improve driver and passenger safety?

Very important Important No opinion Low importance Not at all important

Comments: I wasn't aware it was an issue.
I support safety improvement.

4. How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Very important Important No opinion Low importance Not at all important

8. Do you have any other thoughts for us to consider?

I walk my dog 2x/day from Gravelly
over to Waldenwood & Noone steps
to let us cross Earhart. We've almost
been hit many times. I LOVE the idea
of roundabouts at Glazier & Earhart!!
Please PUT Roundabouts IN!

Also a crossing light or Blinker
would help Flag car to tell them to
stop to let Pedestrians ~~cross~~ cross.

8. Do you have any other thoughts for us to consider?

• Earhart Condos should install side walks

• Sign for Greenhills School on Earhart would help avoid confusion for visitors

FEEDBACK FORM

Earhart Road Open House

April 11, 2019

Thank you for attending the open house to discuss the potential changes to Earhart Road. The feedback you provide on this form will be given to City Council to assist with their decision about this project.

1. I am a (check all that apply)

- City Resident
- Student
- Commuter
- Pedestrian with mobility challenges
- Non-Driver (under 16)
- Non-Driver (by choice or otherwise)

2. How do you use the Earhart corridor? Check all that apply.

- Walking *Running - sidewalks*
- Bicycling
- Riding the bus ('The Ride')
- Riding the bus (school bus)
- Driving
- Other _____

3. How important is it to make street changes on Earhart that improve driver and passenger safety?

Very important Important No opinion Low importance Not at all important

Comments: Speed reduction for safety - good to see,

4. How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Very important Important No opinion Low importance Not at all important

Comments: I would like to see ~~pat~~ painted crosswalks - more visible to drivers, but not flashing lights. Pedestrians, including children, need to be aware of traffic and make eye contact with drivers - never assuming a vehicle will stop.

5. Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Highly support

Support

No opinion

Low support

Do not support

Comments: _____

6. Do you support testing the roundabout at Glazier Way?

Highly support

Support

No opinion

Low support

Do not support

Comments: Needed to slow vehicles & enable turns.

7. Do you support testing the roundabout at Greenhills Drive / Waldenwood Drive?

Highly support

Support

No opinion

Low support

Do not support

Comments: _____

8. Do you have any other thoughts for us to consider?

Enforcement of speeds on round-a-bout
entry would solve many of the backups,
near Concordia.

Low support

Do not support

Comments: _____

8. Do you have any other thoughts for us to consider?

FEEDBACK FORM

Earhart Road Open House

April 11, 2019

Thank you for attending the open house to discuss the potential changes to Earhart Road. The feedback you provide on this form will be given to City Council to assist with their decision about this project.

1. I am a (check all that apply)

- City Resident
- Student
- Commuter
- Pedestrian with mobility challenges
- Non-Driver (under 16)
- Non-Driver (by choice or otherwise)

2. How do you use the Earhart corridor? Check all that apply.

- Walking
- Bicycling
- Riding the bus ('The Ride')
- Riding the bus (school bus)
- Driving
- Other _____

3. How important is it to make street changes on Earhart that improve driver and passenger safety?

Very important Important No opinion Low importance Not at all important

Auto
-Comments: Speeds on southbound Earhart
at 5:30-7:00 P.M., on weekdays are
excessive. I walk on the Earhart sidewalk

4. How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Very important Important No opinion Low importance Not at all important

Comments: Improve pedestrian safety
Make no changes for
bicyclists.

very seldom as a result.

5. Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Highly support

Support

No opinion

Low support

Do not support

Comments: _____

6. Do you support testing the roundabout at Glazier Way?

Do not support

Comments: _____

7. Do you support testing the roundabout at Greenhills Drive / Waldenwood Drive?

Highly support

Support

No opinion

Low support

Do not support

Comments: _____

8. Do you have any other thoughts for us to consider?

Reducing the number of
vehicle lanes for cars, trucks,
etc., is a bad idea
unless you are comfortable
with reducing total
vehicle traffic on Earhart
and in effect "pushing" it
to Green Road -

FEEDBACK FORM

Earhart Road Open House
April 11, 2019

Thank you for attending the open house to discuss the potential changes to Earhart Road. The feedback you provide on this form will be given to City Council to assist with their decision about this project.

1. I am a (check all that apply)

- City Resident
- Student
- Commuter
- Pedestrian with mobility challenges
- Non-Driver (under 16)
- Non-Driver (by choice or otherwise)

2. How do you use the Earhart corridor? Check all that apply.

- Walking
- Bicycling
- Riding the bus ('The Ride')
- Riding the bus (school bus)
- Driving
- Other _____

3. How important is it to make street changes on Earhart that improve driver and passenger safety?

- Very important Important No opinion Low importance Not at all important
-

Comments: _____

NEED TO REPAVE ASAP!!

4. How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

- Very important Important No opinion Low importance Not at all important
-

Comments: _____

5. Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Highly support Support No opinion Low support Do not support

Comments: _____

6. Do you support testing the roundabout at Glazier Way?

Highly support Support No opinion Low support Do not support

Comments: _____

7. Do you support testing the roundabout at Greenhills Drive / Waldenwood Drive?

Highly support Support No opinion Low support Do not support

Comments: _____

8. Do you have any other thoughts for us to consider?

!! NEED TO REEVALUATE EARHART !!

FEEDBACK FORM

- Non-Driver (under 16)
- Non-Driver (by choice or otherwise)

2. How do you use the Earhart corridor? Check all that apply.

- Walking
- Bicycling
- Riding the bus ('The Ride')
- Riding the bus (school bus)
- Driving
- Other _____

3. How important is it to make street changes on Earhart that improve driver and passenger safety?

Very important Important No opinion Low importance Not at all important

Comments: have small children that go to
King and have to cross Earhart RA

4. How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Very important Important No opinion Low importance Not at all important

Comments: ↑ see above

5. Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Highly support

Support

No opinion

Low support

Do not support

Comments: _____

6. Do you support testing the roundabout at Glazier Way?

Highly support

Support

No opinion

Low support

Do not support

Comments: Yes they are Great!

7. Do you support testing the roundabout at Greenhills Drive / Waldenwood Drive?

Highly support

Support

No opinion

Low support

Do not support

Comments: not sure of the need

there, not a lot of traffic from Waldenwood IMO

8. Do you have any other thoughts for us to consider?

Need a light for Pedestrian at Pine Brae
E Earhart, limited visibility going North
on Earhart over the hill for cars going
fast.

FEEDBACK FORM

Earhart Road Open House

April 11, 2019

Thank you for attending the open house to discuss the potential changes to Earhart Road. The feedback you provide on this form will be given to City Council to assist with their decision about this project.

Comments: _____

6. Do you support testing the roundabout at Glazier Way?

Highly support Support No opinion Low support Do not support

Comments: TRY A STOP SIGN ON EARHART AT GLAZIER WAY
TO SLOW TRAFFIC

7. Do you support testing the roundabout at Greenhills Drive / Waldenwood Drive?

Highly support Support No opinion Low support Do not support

Comments: _____

8. Do you have any other thoughts for us to consider?

OAKLAND COUNTY HAS A VERY GOOD YOUTUBE PRESENTATION
TO TEACH HOW TO NEGOTIATE ROUNDABOUTS - PLEASE ADD
A LINK TO THIS TO WASHINGTON COUNTY INFORMATION -
THE ROUNDABOUT AT THE WEST END OF US 23 AT BRADDES IS
DIFFICULT TO NEGOTIATE AS TWO DIFFERENT LANES FROM US 23
AND THE ROUNDABOUT MERGE THERE WHILE CARS WANTING TO
GO NORTH ON EARHART MUST CROSS THESE LANES. THIS IS DANGEROUS

FEEDBACK FORM

Earhart Road Meeting at Glacier Hills

April 23, 2019

Thank you for attending the open house to discuss the potential changes to Earhart Road. The feedback you provide on this form will be given to City Council to assist with their decision about this project.

1. I am a (check all that apply)

- City Resident
- Student
- Commuter
- Pedestrian with mobility challenges
- Non-Driver (under 16)
- Non-Driver (by choice or otherwise)

2. How do you use the Earhart corridor? Check all that apply.

- Walking
- Bicycling
- Riding the bus ('The Ride')
- Riding the bus (school bus)
- Driving
- Other _____

3. How important is it to make street changes on Earhart that improve driver and passenger safety?

Very important Important No opinion Low importance Not at all important

Comments: I am afraid Earhart rd going south will be more backed up. It is already backed up after 4pm due to people not

4. How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Very important Important No opinion Low importance Not at all important

Comments: There is already a bike ~~and~~ path / walking path along Earhart.

Knowing how to drive Address roundabouts, Need more education on how to drive roundabouts.

5. Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Highly support Support No opinion Low support Do not support

Comments: Driving space is more important for business & traffic control.

6. Do you support testing the roundabout at Glazier Way?

Highly support Support No opinion Low support Do not support

Comments: People don't know how to drive them - look at Geddes, always backed up !! at high traffic hours.

7. Do you support testing the roundabout at Greenhills Drive / Waldenwood Drive?

Highly support Support No opinion Low support Do not support

Comments: See above

8. Do you have any other thoughts for us to consider?

Put a light at Earhart & Glazier way & call it good.

Support

No opinion

Low support

Do not support

Comments: _____

8. Do you have any other thoughts for us to consider?

It's premature to consider a plan of this kind when so many of Ann Arbor streets are in terrible condition. Road repair should have much higher priority.

FEEDBACK FORM

Earhart Road Meeting at Glacier Hills

April 23, 2019

Thank you for attending the open house to discuss the potential changes to Earhart Road. The feedback you provide on this form will be given to City Council to assist with their decision about this project.

1. I am a (check all that apply)

- City Resident
- Student
- Commuter
- Pedestrian with mobility challenges
- Non-Driver (under 16)
- Non-Driver (by choice or otherwise)

2. How do you use the Earhart corridor? Check all that apply.

- Walking
- Bicycling
- Riding the bus ('The Ride')
- Riding the bus (school bus)
- Driving
- Other _____

3. How important is it to make street changes on Earhart that improve driver and passenger safety?

Very important Important No opinion Low importance Not at all important

Comments: Glacier Way / Earhart is very busy
at many times of the day - I've seen a few
accidents there.

4. How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Very important Important No opinion Low importance Not at all important

Comments: _____

5. Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Highly support Support No opinion Low support Do not support

Comments: Earhart isn't wide enough
for bike lanes. I've lived at Glacier
Hills - 3rd fl apartment - and don't see
that much bike traffic.

6. Do you support testing the roundabout at Glazier Way?

Highly support Support No opinion Low support Do not support

Comments: _____

7. Do you support testing the roundabout at Greenhills Drive / Waldenwood Drive?

Highly support Support No opinion Low support Do not support

Comments: _____

8. Do you have any other thoughts for us to consider?

If you don't fix the road just on
Earhart at Glacier Hills dr, the
cyclists could have accidents
by hitting the rough road
& pot holes!
This should be a safety concern!

what happen to our comments? any changes
once you've heard us?

FEEDBACK FORM

Earhart Road Meeting at Glacier Hills

April 23, 2019

Thank you for attending the open house to discuss the potential changes to Earhart Road. The feedback you provide on this form will be given to City Council to assist with their decision about this project.

1. I am a (check all that apply)

- City Resident
- Student
- Commuter
- Pedestrian with mobility challenges
- Non-Driver (under 16)
- Non-Driver (by choice or otherwise)

2. How do you use the Earhart corridor? Check all that apply.

- Walking
- Bicycling
- Riding the bus ('The Ride')
- Riding the bus (school bus)
- Driving
- Other _____

3. How important is it to make street changes on Earhart that improve driver and passenger safety?

Very important Important No opinion Low importance Not at all important

Comments: had near accident
when walking with one leg
car stopped other lane 50 mph no stop

4. How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Very important Important No opinion Low importance Not at all important

Comments: _____

*2 lane
call*

5. Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Highly support

FEEDBACK FORM

Earhart Road Meeting at Glacier Hills

April 23, 2019

Thank you for attending the open house to discuss the potential changes to Earhart Road. The feedback you provide on this form will be given to City Council to assist with their decision about this project.

1. I am a (check all that apply)

- City Resident
- Student
- Commuter
- Pedestrian with mobility challenges
- Non-Driver (under 16)
- Non-Driver (by choice or otherwise)

2. How do you use the Earhart corridor? Check all that apply.

- Walking
- Bicycling *(I would if there were a "bike path")*
- Riding the bus ('The Ride')
- Riding the bus (school bus)
- Driving
- Other _____

3. How important is it to make street changes on Earhart that improve driver and passenger safety?

Very important Important No opinion Low importance Not at all important

Comments: Cars not stopping for pedestrians crossing on crosswalk!

4. How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Very important Important No opinion Low importance Not at all important

Comments: What we had bike paths!

5. Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Highly support Support No opinion Low support Do not support

Comments: See # 4

6. Do you support testing the roundabout at Glazier Way?

Highly support Support No opinion Low support Do not support

Comments: possible 

7. Do you support testing the roundabout at Greenhills Drive / Waldenwood Drive?

Highly support Support No opinion Low support Do not support

Comments: overkill; unnecessarily complicated

8. Do you have any other thoughts for us to consider?

The potholes are bad for our cars. ~~are~~ are they being left (unfixed) so that we'll slow down??

The potholes need fixing now, not in 2 years!!

Q1 I am a (check all that apply)

City Resident

Q2 How do you use the Earhart corridor? (check all that apply)

Walking,
Bicycling,
Riding the bus (The Ride),
Driving

Q3 How important is it to make street changes on Earhart that improve driver and passenger safety?

Very important

Comments::
Changes to reduce speed and provide for pedestrians and bicyclists safety.

Q4 How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Very important,

Comments::
From 7 to 9 am and from 4 to 6 pm it is unsafe.

Q5 Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Highly support,

Comments::
Yes, please!

Q6 Do you support testing the roundabout at Glazier Way?

Highly Support

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive?

Highly Support

Earhart Road Safety Improvements

Q8 Do you have any other thoughts for us to consider?

Adding more speed limit signs might be helpful between the Glacier Hill Facility and St. Paul's School. Perhaps digital signs that record the drivers' speed would be helpful.

Q1 I am a (check all that apply)

City Resident

Q2 How do you use the Earhart corridor? (check all that apply)

**Bicycling,
Driving**

Q3 How important is it to make street changes on Earhart that improve driver and passenger safety?

Very important

Comments::

Problems include turning left from Glazier onto Earhart and from north Waldenwood/Greenhills onto Earhart.

Q4 How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Very important,

Comments::

Problem is lack of bike lane on Earhart. The lack of bike lane is especially dangerous on Earhart between Glazier and Geddes and on the US23 overpass.

Q5 Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Highly support

Q6 Do you support testing the roundabout at Glazier Way?

Highly Support,

Comments::

I'd say this is a perfect spot for either a roundabout OR a complete median with left turn areas similar to Huron Parkway. The problem with taking left turns is solves by forcing cars at those intersections to take a right turn and then making a left turn through the designated spot shortly up the road.

Earhart Road Safety Improvements

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive?

Highly Support,

Comments::

Same comments as above.

Q8 Do you have any other thoughts for us to consider?

The presence of 2 lanes on Earhart between Kipling and South Greenhills is nice for the ability to pass slower traffic, but it is such a short area that it's not really needed. I'd give that up if it allowed bike lanes and/or roundabouts or similar.

Q6 Do you support testing the roundabout at Glazier Way? **Highly Support**

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive? **Low support**

Q8 Do you have any other thoughts for us to consider?

Location of the high school, middle school bus stop is unsafe. Walking to the bus stop in winter is in the dark, no sidewalks. There is no space for kids to stand other than in the street or in the snow bank. Greenhills would benefit by having a traffic study with recommendations for directions parents should approach and depart to make high traffic times safer for kids walking to bus stop and residents of Earhart Village as well as Greenhills high school drivers

Q6 Do you support testing the roundabout at Glazier Way? **Highly Support**

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive? **Highly Support,**
Comments::
No discussion has included the maniac drivers on Waldenwood who drive their kids to King School. The speed limit is 25 mph but cars go considerably faster. Some of that segment has no sidewalks so it's extremely important to address this. How about one of those signs that tells people their speed?

Q1 I am a (check all that apply)

City Resident

Q2 How do you use the Earhart corridor? (check all that apply)

**Walking,
Driving**

Q3 How important is it to make street changes on Earhart that improve driver and passenger safety?

Important,

Comments::

Left turn from Glazier Way on to Earhart can be worrisome.

Q4 How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Important,

Comments::

These isn't really room for bikes when crossing the bridge over US23

Q5 Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Low support,

Comments::

I don't think one of the 2 lanes should be converted into a bike lane. I also feel that its mostly a waste of time to do anything if the ultimate plane does not include widening the bridge to allow for a bike lane.

Q6 Do you support testing the roundabout at Glazier Way?

Low support,

Comments::

If it was actually sized and designed correctly, something that I feel Ann Arbor has failed to do at various roundabouts. It would also be nice to see the traffic slowed down in the area.

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive?

Do not support

Earhart Road Safety Improvements

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive? **Support**

Q8 Do you have any other thoughts for us to consider?

This road doesn't have a ton of traffic so it probably doesn't need 2 lanes in each direction. The surface of the road is unbelievably horrific. Would like to be able to safely walk/bike from glacier hills to Concordia. It would also be nice to be able to cross 23 safely on bike

Q2 How do you use the Earhart corridor? (check all that apply) **Driving**

Q3 How important is it to make street changes on Earhart that improve driver and passenger safety? **Very important**,
Comments::
It is scary to see kids trying to cross, and I was a witness to a car crash in broad daylight from a car turning left that blocked the entire entrance to the neighborhood during morning Rush hour. This needs to be fixed before somebody dies here.

Q4 How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety? **Very important,**
Comments::
Kids are trying to cross a street where people (including myself, admittedly) drive over 60 mph, where even cars can't turn onto Earhart safely. They might as well try to ride across the highway.

Q5 Do you support testing the lane conversion and providing bike lanes on Earhart Road? **Highly support,**
Comments::
It is infuriating how regressive Ann Arbor is when cities like Detroit are putting in better systems for bike and pedestrian safety. What is wrong with you people? Get this done!

Earhart Road Safety Improvements

Q6 Do you support testing the roundabout at Glazier Way?

Highly Support,

Comments::

What is there to test? It has been a HUGE improvement at Geddes and 23, and made an entire set of neighborhoods at Dhu Varren actually accessible. Does anybody with half a brain even question roundabouts anymore???

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive?

Highly Support,

Comments::

Do you want dead kids on your hands? We need a roundabout ASAP!

Q8 Do you have any other thoughts for us to consider?

It is so depressing that these kinds of decisions aren't just a matter of smart civil and traffic engineering. Why is this a survey? DO YOUR DAMN JOBS

This stretch of road needs updating. I have nearly been hit when one car stopped at the crosswalk, and another sped past while I was crossing. With children (including my own) crossing here there needs to be improvement. Secondly, a roundabout at the Glazier Way/Earhart intersection would do much to improve traffic flow. I look forward to the changes that will positively help all who use the space, whether they are drivers or vulnerable road users.

I've never seen this stretch congested but speeding vehicles are very common when traffic is light given the over-wide road design.

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive? **Highly Support**

Q8 Do you have any other thoughts for us to consider?

Improving safety, slowing traffic, providing safer crosswalks, and providing a lane for bikes on earhart would greatly reduce the risk and allow for the safe use of earhart for pedestrians and bikers of all ages and abilities

Q6 Do you support testing the roundabout at Glazier Way? **Highly Support**

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive? **Support**

Q8 Do you have any other thoughts for us to consider?

I know it's a MDOT bridge, but providing better pedestrian/bicycle across US-23 would be a big step in linking areas north and east of A2 proper to work and school and recreational activities. This is the Earhart bridge just north of the construction area.

Q1 I am a (check all that apply)

City Resident,
Commuter

Q2 How do you use the Earhart corridor? (check all that apply)

Walking,
Bicycling,
Driving

Q3 How important is it to make street changes on Earhart that improve driver and passenger safety?

Very important

Comments::

The traffic density does not justify two lanes, it encourages people to overtake and speed. Riding a bike down Earhart is no fun, especially in the current unsafe state of the roadway, anything less than a mountain bike is not appropriate. The crossings at Greenhills Drive are used by young children and often ignored by motorists.

Q4 How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Very important

Q5 Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Highly support,

Comments::

You will have to resurface Earhart to make this effective as the inside lanes of Earhart, especially southbound resemble a ploughed field and are unridable.

Q6 Do you support testing the roundabout at Glazier Way?

Highly Support

Earhart Road Safety Improvements

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive?

Highly Support,

Comments::

Will slow traffic

Q8 Do you have any other thoughts for us to consider?

Do it all asap, Earhart is in a dismal and dangerous state for cyclists. The stretch over the hill crest between Waldenwood and Concordia fields should be included in the plan as it is also dangerous for cyclists. Don't stop this project at Waldenwood!

Q2 How do you use the Earhart corridor? (check all that apply) **Walking,**
Bicycling,
Driving

Q3 How important is it to make street changes on Earhart that improve driver and passenger safety? **Low important**

Comments::
 The only place I typically feel threatened is in that narrow bridge where Earhart goes over 23. There isn't a safe way for a pedestrian or bike to cross. I feel like the proposed changes will make minimal impact (I typically am on this corridor 6 times per day) and you are missing the true safety threat while fussing with details.

Q4 How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety? **No opinion**

Q5 Do you support testing the lane conversion and providing bike lanes on Earhart Road? **Support**

Q6 Do you support testing the roundabout at Glazier Way? **Do not support,**

Comments::
 It will slow down north/south traffic and encourage traffic from the hospital to drive down glazier from the west. Not to mention you have high schoolers (new drivers) driving there and they struggle with roundabouts

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive? **Do not support**

Earhart Road Safety Improvements

Q8 Do you have any other thoughts for us to consider?

Please widen or make a pedestrian/ bike next to the Earhart bridge over 23

Q3 How important is it to make street changes on Earhart that improve driver and passenger safety? **Very important** ,
Comments::
Especially Glazier Way - Earhart intersection Also St Paul Lutheran School driveway is dangerous

Q4 How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety? **Important**

Q5 Do you support testing the lane conversion and providing bike lanes on Earhart Road? **Highly support**

Q6 Do you support testing the roundabout at Glazier Way? **Highly Support**

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive? **Support**

Q8 Do you have any other thoughts for us to consider?

Please consider the St Paul School intersection. It is appalling to have a school right on a busy road without a school zone sign and a lower speed limit. It would be very inexpensive to make that change, compared to the high cost of serious accidents.

Q6 Do you support testing the roundabout at Glazier Way? **Highly Support**

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive? **Low support**

Q8 Do you have any other thoughts for us to consider?

It is essential to widen the bridge over US-23 for peds and cyclicists as it is very narrow and hazardous. Also, the speeding on Earhart is terrible. Many cars are going 50, perhaps some speed tickets would help with slowing down people rushing through. It's difficult to turn left from the side streets onto the two lane boulevard, which is made worse by lack of distance on sight lines combined with speeding.

Q5 Do you support testing the lane conversion and providing bike lanes on Earhart Road? **Highly support,**
Comments::
Easy to do

Q6 Do you support testing the roundabout at Glazier Way? **Highly Support,**
Comments::
Most dangerous intersection for cars

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive? **Low support,**
Comments::
Need better pedestrian safety here, but two roundabouts in a row might be too annoying for drivers.

Q8 Do you have any other thoughts for us to consider?

Electronic speed indicators/speed limit sign when get off bridge--to show drivers how much they are speeding. First crosswalk is between Kipling and Glazier Way and cars are going REALLY fast.

Q1 I am a (check all that apply)

City Resident

Q2 How do you use the Earhart corridor? (check all that apply)

Walking,
Driving

Q3 How important is it to make street changes on Earhart that improve driver and passenger safety?

Important,

Comments::

Current issues are minimal. Bike paths would be good but not as meaningful as providing good sidewalks for walkers. Walkers far exceed numbers of bikers

Q4 How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Important,

Comments::

Walkers are more significant than bikers based on numbers and frequency

Q5 Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Low support,

Comments::

See above. Most importantly the road surface needs to be significantly improved and consideration of limiting larger trucks when US 23 has traffic issues should be considered

Q6 Do you support testing the roundabout at Glazier Way?

Support,

Comments::

It would be fine but I expect it will have minimal impact

Earhart Road Safety Improvements

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive?

Support,

Comments::

See above. I'm not aware of issues relative to Greenhills beginning and end of day

Q8 Do you have any other thoughts for us to consider?

Trimming trees and underbrush that is close to road and limits some vision must part of any project. Sides and trees in median. Also consider turn lanes may provide an alternative which would reduce the costs required with the construction of traffic circles. I don't know the timing of traffic issues but suspect it would be part of US-23 alternative route use

City Resident

Q2 How do you use the Earhart corridor? (check all that apply)

Walking,
Driving

Q3 How important is it to make street changes on Earhart that improve driver and passenger safety?

Very important

Comments::

The bridge is dangerous, especially when people walk or bike that area at rush hour times.

Q4 How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Very important

Q5 Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Support

Q6 Do you support testing the roundabout at Glazier Way?

Do not support,

Comments::

I would be interested in knowing whether the roundabout will slow traffic from Glazier to Earhart. I have observed people not even stopping or pausing when they make a right turn onto Earhart from Glazier. This poses a risk to pedestrians and oncoming cars. I think roundabouts are not good for pedestrians, as traffic often does not stop for them.

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive?

Do not support,

Comments::

Drivers often do not yield to pedestrians in roundabouts, so having one in the middle of a neighborhood may not improve pedestrian safety.

Earhart Road Safety Improvements

Q5 Do you support testing the lane conversion and providing bike lanes on Earhart Road? **No** ,
opinion
Comments::
I don't feel the bike lanes will have significant usage

Q6 Do you support testing the roundabout at Glazier Way? **Highly Support**

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive? **Highly Support**

Q8 Do you have any other thoughts for us to consider?

I have concerns about the volume of traffic in peak times, reduced to one lane. I was on maple rd yesterday at 4:00 p.m. it was solid from miller to m-14 in part due to lane reduction. I am not sure that is a good thing.

Q1 I am a (check all that apply) **City Resident**

Q2 How do you use the Earhart corridor? (check all that apply) **Walking,**
Bicycling,
Driving

Q3 How important is it to make street changes on Earhart that improve driver and passenger safety? **Very important** ,
Comments::
I regularly see unsafe lane changes as drivers try to avoid potholes. I consider Earhart R.D. to be the most dangerous part of my commute.

Q4 How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety? **Very important,**
Comments::
I cycle Earhart everyday.

Q5 Do you support testing the lane conversion and providing bike lanes on Earhart Road? **Highly support**

Q6 Do you support testing the roundabout at Glazier Way? **Highly Support**

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive? **Highly Support**

Q8 Do you have any other thoughts for us to consider?

A lot of temporary road repairs would help while you are studying the best way to make permanent changes (thank you for doing this!).

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive? **Support**

Q8 Do you have any other thoughts for us to consider?

I support the roundabouts merely for lowering speed. Not sure how this will work during high level traffic but Glazier to Earhart has become a path of choice for many, especially with UofM Hospital development to the north on Earhart.

Geddes with its two roundabout has not improved traffic flow. the circle is too small so more dangerous than a large circle. What is wrong with waiting a light? Why rush around a small dangerous roundabout? Use lights and lanes to move traffic safely and allow for pedestrians to cross.

Q2 How do you use the Earhart corridor? (check all that apply)

Walking,
Driving

Q3 How important is it to make street changes on Earhart that improve driver and passenger safety?

Very ,
important

Comments::

Traffic is too fast on this road. After living in this neighborhood for 14 years, I am still nervous turning left or right into Earhart RD from Glazier Way. Crazy!

Q4 How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Very important,

Comments::

Road diet please. Sidewalks are too close to the road in certain places and cars zip by you at 50mph. Not good if you have kids or a dog. Scary at times.

Q5 Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Highly support,

Comments::

Yes, yes, yes!!!

Q6 Do you support testing the roundabout at Glazier Way?

Highly Support,

Comments::

See previous comment. Absolutely yes!

Earhart Road Safety Improvements

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive?

Low support,

Comments::

There is a large island there and Earhart has left turn lanes. This is not a concern for me as it rarely causes problems.

Q8 Do you have any other thoughts for us to consider?

Please consider bumping this project up to next year and not 2021. If you must stay with 2021, please repair this road ASAP for it is deteriorating fast and will be in very poor shape next spring. It is horrible right now, two more years of this is unacceptable.

Q3 How important is it to make street changes on Earhart that improve driver and passenger safety? **Important**

Q4 How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety? **Comments::**
 Ped. and bicyclist safety would be improved with proper street lighting wch is inadequate/non-existent. Also, the section of Earhart which is especially narrow and lacks sidewalks and bicycle lanes/paths is the southern portion between Geddes Rd. and the northern entrance to Pine Brae.

Q5 Do you support testing the lane conversion and providing bike lanes on Earhart Road? **Low support**

Q6 Do you support testing the roundabout at Glazier Way? **Comments::**
 Either a roundabout/traffic light

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive? **No opinion**

Q8 Do you have any other thoughts for us to consider?

Focus on improved lighting for all users and lighting that is appropriate for and sensitive to neighborhood concerns. The portion of Earhart most in need of improvements for pedestrians and bicyclists is the section between Geddes Road and the northern entrance to Pine Brae

Comments::
I strongly believe that testing should commence based on the expertise and observations provided by City staff, more so than public input and Council Members' votes. Requiring final Council vote on road improvements is an unnecessary level of micromanagement.

Earhart Road Safety Improvements

Q6 Do you support testing the roundabout at Glazier Way?

Highly Support,

Comments::

This intersection has been a concern for our entire neighborhood especially as a number of residents have family and former neighbors living at Glacier Hills, so drivers and pedestrians often have to negotiate coming out of the neighborhood with commuters and emergency vehicles racing down Earhart. We also have 3 elementary schools within a mile of each other, all of which attract commuters from throughout the County and beyond given the Schools of Choice program as well the strong reputations of both private schools. Finally, we have a number of commuters in our neighborhood who work at the Toyota Tech Center, St. Joe's Hospital, Wayne State University, Ford Motor Company, and other metro-Detroit companies. They rely on this intersection and stretch to US23 to commute to outside of Ann Arbor on a daily basis. Being on the edge of Washtenaw County with easy access to US23 is one of the primary reasons for neighborhood residents to have bought homes here. Improvements similar to what we've already experienced and appreciate along Geddes would be most welcomed.

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive?

Highly Support,

Comments::

Yes, especially as Greenhills Schools attracts more commuters from throughout and outside of the County. A number of parents in the area also note that high school students also drive and that they ask their teen drivers to avoid this intersection altogether and to drive past and loop back in order to turn into or out of this intersection. It is a dangerous intersection for drivers and pedestrians alike.

Q8 Do you have any other thoughts for us to consider?

I am extremely disappointed that City Council is requiring City staff to host and engage public feedback for the entire road improvement process, beyond what we are accustomed to with past projects when we've been notified with postcards and occasional meetings after projects have been tested and approved. Our neighborhood includes mostly 2 working parents with busy schedules as indicated by the low turnout for the public input session at Greenhills School. Are we to commit to attending public input sessions for testing, budgeting, and design for every single road improvement project in the area? As non-traffic engineers and non-planners? How will City Council weigh public input against what traffic engineers are recommending? Will what was in the past, a fact-driven, science-based, results oriented process be undermined by the whims of City Council? What if public input ends up negatively impacting the safety of pedestrians, bikers, and drivers along this stretch because they've more effectively organized feedback? Given that this survey does not require contact information, how is one to weigh the considerations of near neighbors versus commuters? I find this survey and process to be unfortunate as I have yet to meet a single neighbor who wanted this additional "oversight." This is a waste of the City's resources. Staff expertise on routine projects should not be politicized.

Earhart Road Safety Improvements

Q8 Do you have any other thoughts for us to consider?

Thanks for studying this.

I am the president of the Earhart Knolls Homeowners Association (NW corner of Earhart and Glazier). From what I have heard of our neighbors, I think they're in favor of improved traffic and pedestrian safety in this area. Also, we collectively own that detention pond property at the NW corner of Earhart and Glazier. I don't think our association would object if the city needed some of that land for the space to make the roundabout. Feel free to contact me/our association if you have any questions:

David Hutton

earhartknolls@gmail.com.

no more roundabouts, please, I beg of you. all they do is make things worse. please, please, no more roundabouts

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive?

Do not support,

Comments::

I live on Greenhills, and the idea of having a roundabout just to come and go out of my subdivision gives me nightmares. Please, I beg of you, DO NOT DO THIS.

Q8 Do you have any other thoughts for us to consider?

NO ROUNDABOUTS.

| Q8 Do you have any other thoughts for us to consider? | |

I am an Earhart Village resident and property owner whose home directly faces Earhart. I regularly walk and drive in this area. My biggest concern is the lack of sidewalks along the east side Earhart. Most of Earhart seems too narrow to warrant a bicycle lane. Traffic doesn't seem too bad outside of rush hour. I am also concerned about adding too many obstacles that will further impede vehicle traffic flow during heavy rush hour.

City Resident

Q2 How do you use the Earhart corridor? (check all that apply)

Walking,
Driving

Q3 How important is it to make street changes on Earhart that improve driver and passenger safety?

Low ,
important

Comments::

I understand you are proposing changes for safety, will this also include repaving Earhart Rd? The road needs repairs and has many potholes which causes people to drive around an swerve causing issues. Not the design of the street but the quality of the road itself.

Q4 How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Low importance,

Comments::

Again, the road needs to be repaved.

Q5 Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Do not support,

Comments::

No. Bike lanes create more issues and back up traffic during peak hours.

Q6 Do you support testing the roundabout at Glazier Way?

Low support,

Comments::

I currently do not have a problem with its current state.

Earhart Road Safety Improvements

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive?

Do not support,

Comments::

Not needed

Q8 Do you have any other thoughts for us to consider?

Yes, please indicate how soon you plan to repave the road as that is problem number one causing both safety and maintenance concerns. Can we repave this year (2019) No one would oppose this.

Q1 I am a (check all that apply)

City Resident

Q2 How do you use the Earhart corridor? (check all that apply)

Walking,
Driving

Q3 How important is it to make street changes on Earhart that improve driver and passenger safety?

Not at all important ,

Comments::

As a frequent driver (resident on Earhart Rd) and pedestrian, there are no improvements needed.

Q4 How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Not at all important ,

Comments::

The Earhart corridor is perfectly fine for pedestrians / bicyclists ... if you want to make changes for pedestrians / bicyclists, focus on Geddes Rd to Gallup Park instead. That is extremely dangerous. I live 1 mile from Gallup Park but would never ride my bike or walk to Gallup Park since I wouldn't feel safe on Geddes. But I walk all of the time up and down Earhart with ZERO difficulty.

Q5 Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Do not support,

Comments::

Huge unnecessary expense. I use the Earhart Rd / Glazier Way intersection every single day with ZERO difficulty. This would be a waste of resources that could be better used elsewhere.

Earhart Road Safety Improvements

Q6 Do you support testing the roundabout at Glazier Way?

Do not support,

Comments::

Absolutely no reason for it. Such a waste and disruption.

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive?

Do not support,

Comments::

Totally unnecessary .. plus during rush hour traffic is backed up considerably by vehicles trying to get to US-23. This would make it worse.

Q8 Do you have any other thoughts for us to consider?

Focus on Geddes Rd instead. Earhart is perfectly fine as it is. I live on Earhart Rd and have never seen any need for the proposed changes. Total waste of resources that could be better directed elsewhere. Not in favor of this in the slightest.

Q8 Do you have any other thoughts for us to consider?

Earhart Road gets a lot of traffic when US-23 is backed-up. Hopefully a new design would not create congestion. Also there is a serious line of sight issue as a pedestrian at the south Greenhills Drive at Earhart (cars are going so fast both north and south) - if redesign improves that would be a plus.

Pedestrian with mobility challenges

Q2 How do you use the Earhart corridor? (check all that apply)

Walking,
Driving,
Other (please specify):
Running

Q3 How important is it to make street changes on Earhart that improve driver and passenger safety?

Low ,
important

Comments::
It depends on the changes. For example, I believe you undercounted cars and overcounted bicycles. Do you realize that for at least an hour in the evening the street is a solid wall of cars? And that it is slightly less congested for about an hour in the morning? And yet you feel two lanes aren't warranted? As a long time resident I can tell you that Earhart has become extremely congested over the years and would benefit from two lanes all the way down to Geddes Rd. In comparison, there is only a scattering of bicycles - certainly not enough to warrant yet another unused Ann Arbor bike path. Sidewalks all the way up and down Earhart would, however, be extremely beneficial, as the volume of walkers continues to increase year by year.

Q4 How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Important,

Comments::
Again, it depends on the changes. Sidewalks we need, (empty) bicycle paths we do not.

Earhart Road Safety Improvements

Q5 Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Do not support,

Comments::

We need two lanes all the way up and down the street due to the high volume of rush hour traffic. There are virtually no bicyclists, thus there is no need for bike lanes.

Q6 Do you support testing the roundabout at Glazier Way?

Do not support,

Comments::

Can you imagine the traffic jams during rush hour? OMG. Please come down and view the street between about 3:00 pm and 7:00 pm for a week or two.

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive?

Do not support,

Comments::

Same as above.

Q8 Do you have any other thoughts for us to consider?

I can only repeat what I said earlier: I believe you undercounted cars and overcounted bicycles. Do you realize that for at least an hour in the evening the street is a solid wall of cars? And that it is slightly less congested for about an hour in the morning? And yet you feel two lanes aren't warranted? As a long time resident I can tell you that Earhart has become extremely congested over the years and would benefit from two lanes all the way down to Geddes Rd. In comparison, there is only a scattering of bicycles - certainly not enough to warrant yet another unused Ann Arbor bike path. Sidewalks all the way up and down Earhart would, however, be extremely beneficial, as the volume of walkers continues to increase year by year.

Q8 Do you have any other thoughts for us to consider?

Please do not install bike lanes. There are hundreds of other places in A2 for bikers to ride their bikes. It is a one lane road (along Concordia & the cemetery) & bikers pose a safety concern for those of us living in Earhart Village & driving frequently down Earhart Rd.

Q2 How do you use the Earhart corridor? (check all that apply)

Walking,
Driving

Q3 How important is it to make street changes on Earhart that improve driver and passenger safety?

Very ,
important

Comments::

I'm not sure if the proposed plans address where the south end of Greenhills Drive intersects with Earhart Rd. Cars come speeding over the hill from Geddes, making it unsafe to turn left and/or cross the street. Pedestrian crossing signs are ignored by many drivers. Thank you.

Q4 How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Very important,

Comments::

Currently, many drivers exceed the speed limit, ignore pedestrian crossing signs and do not stop, making it difficult to cross Earhart Rd. at either end of Greenhills Drive.

Q5 Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Support,

Comments::

Even with bike lanes provided, the speed of many cars can still be an issue.

Q6 Do you support testing the roundabout at Glazier Way?

Q8 Do you have any other thoughts for us to consider?

One important factor is the amount of CARS turning in and out of GREENHILLS Dr. at least 2x a day!!

Also, big lines of traffic coming from north to south on Earhart at afternoon (3 to 6). It always has mostly single lanes so. of Pine Brae anyway.

I think that the dog walkers are one of the main complaints, especially heavy car traffic. I have not been paying attention to how many bicycles are using Earhart,

Q2 How do you use the Earhart corridor? (check all that apply)

Driving

Q3 How important is it to make street changes on Earhart that improve driver and passenger safety?

Low important

Comments::

I have people passed me on Earhart by crossing double yellow lines, paint cross white stripes won't slow down speeder nor prevent them use the striped zone to pass.

Q4 How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Very important,

Comments::

Painting stripes won't help much. The broken pavement makes a lot of impatient drivers today, fix the d—m road(governor's words)!

Q5 Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Do not support,

Comments::

For the reason I stated above, the broken pavement make the bike lane dangerous.

Q6 Do you support testing the roundabout at Glazier Way?

Do not support,

Comments::

Traffic coming out Wardenwood and Green Hill high school will be in danger,; please observe the traffic volumes during rush hours. I can't tell you how many times I did panic stops at Earhart and Glazier and the Glazier US-23 traffic circles because of people were speeding and didn't observe righ-of-ways.

Earhart Road Safety Improvements

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive?

Do not support,

Comments::

Stated above

Q8 Do you have any other thoughts for us to consider?

Fix the pavement around St. Paul school first! It is broken and narrow with limited sight at peak. Lots of speeders at rush hours. I have reported the police a couple times and saw a biker got hit. Driver's don't even slow down for Concordia's athlete fields foot traffic, those are the thing your can improve and should improve right away.

Q1 I am a (check all that apply)

City Resident

Q2 How do you use the Earhart corridor? (check all that apply)

Walking,
Driving

Q3 How important is it to make street changes on Earhart that improve driver and passenger safety?

Very important ,

Comments::

When Earhart narrows near Waldenwood, too many drivers speed up to cut in ahead of those who drive the speed limit. It's down right dangerous. I e almost. E hit 4 times in the last month this way.

Q4 How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Very important,

Comments::

It's hard to cross Earhart,traffic is going way too fast. The apron between the road and the sidewalk in some places is so narrow that speeding cars drafts have knowcked over my dog.

Q5 Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Highly support,

Comments::

If you don't test it, you have no data to make an informed decision. Those who don't want one lane traffic and roundabouts might find they actually work.

Earhart Road Safety Improvements

Q6 Do you support testing the roundabout at Glazier Way?

Highly Support,

Comments::

Worldwide traffic data clearly shows roundabouts work. That intersection really need one. Nearly every time I walk there, someone is close to hitting another car as they pull out. Drivers also don't look for people crossing over Glazier.

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive?

Highly Support,

Comments::

I live on Waldenwood and cross over it regularly. It's dangerous. It's also often difficult to turn left onto Waldenwood from Earhart with people driving 40+ mph o not knowing how to turn onto the Greenhills side of the road. A roundabout would help in all those cases.

Q8 Do you have any other thoughts for us to consider?

People who don't want the suggested changes are worried about traffic flow for about 45 minutes during the entire day at best. The rest of us use those streets 24 hours a day and know the dangers. The poor commuters might have spend another minute getting out of town, but I'd feel a lot safer with the changes.

Q2 How do you use the Earhart corridor? (check all that apply)

Driving

Q3 How important is it to make street changes on Earhart that improve driver and passenger safety?

Low important

Comments::
Except to repave.

Q4 How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Low importance,

Comments::
In all my 40+ years of living in the area, I've seen runners but never bicyclists.

Q5 Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Do not support,

Comments::
Not needed and it's too dangerous during rush hour.

Q6 Do you support testing the roundabout at Glazier Way?

Low support,

Comments::
It's just that more drivers need education in using roundabouts.

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive?

Do not support

Q8 Do you have any other thoughts for us to consider?

Consideration of bicycle lanes in traffic areas is unnecessary and an accident waiting to happen!

City Resident

Q2 How do you use the Earhart corridor? (check all that apply)

Walking,
Driving

Q3 How important is it to make street changes on Earhart that improve driver and passenger safety?

Low ,
important

Comments::

The condition of the road with street repairs is what needs improving.

Q4 How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Low importance,

Comments::

The walkway along Earhart is sufficient and can be used safely.

Q5 Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Do not support,

Comments::

Traffic cannot accomodate space for bike lanes.

Q6 Do you support testing the roundabout at Glazier Way?

Do not support

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive?

Do not support

Q8 Do you have any other thoughts for us to consider?

Please just fix the road and do not reconfigure.

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive? **Do not support**

Q8 Do you have any other thoughts for us to consider?

Very important to improve the road surface along Earhart road between Glazier and Geddes, and to have at least a blinking caution light at the Lutheran school entrance to Earhart.

The "roundabout" at Glacier and Earhart would do very little, if anything, to improve the traffic at that point along Earhart. The intersection is already a "virtual roundabout" without a real island in the roundabout. This would be a waste of valuable resources.

Q3 How important is it to make street changes on Earhart that improve driver and passenger safety?

No ,
opinion

Comments::

I don't see any problem with it the way it is except for the bad shape the pavement is in.

Q4 How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Low importance

Q5 Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Do not support

Q6 Do you support testing the roundabout at Glazier Way?

Do not support

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive?

Do not support

Q8 Do you have any other thoughts for us to consider?

Stop with the road diet stuff. It's getting difficult enough to get around this town with the growing population and crowded roads. Huron Parkway is terrible in the mornings and 4:30-6pm. Eliminating lanes will make traffic even worse.

Riding the bus (The Ride) ,
Driving

Q3 How important is it to make street changes on Earhart that improve driver and passenger safety?

Low important ,

Comments::

This question is worded to provide an affirmative answer for change. Not a fair survey!

Q4 How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Respondent skipped this question

Q5 Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Do not support,

Comments::

The prep-survey report given is not an accurate reflection as to quantitative numbers on bike usage. As such, a casual observation does not warrant changes. It is my experience that bikes that use the road now are quite capable of managing due to the open visibility the road offers now.

Q6 Do you support testing the roundabout at Glazier Way?

Do not support,

Comments::

I think the roundabout would be dominated by continuous one way traffic during peak use hours (ie. morning and afternoon). Once a flow begins, there is no yield or interruption for other access.

Earhart Road Safety Improvements

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive?

Do not support

Q8 Do you have any other thoughts for us to consider?

Q6 Do you support testing the roundabout at Glazier Way? **Highly Support**

Q7 Do you support testing the roundabout at Greenhills Drive/ Waldenwood Drive? **Highly Support**

Q8 Do you have any other thoughts for us to consider?

Lower the speed limit - slower speeds reduce risk, allow quicker reaction times, and improve traffic throughput.

FEEDBACK FORM

Earhart Road Open House
April 11, 2019

Thank you for attending the open house to discuss the potential changes to Earhart Road. The feedback you provide on this form will be given to City Council to assist with their decision about this project.

3. How important is it to make street changes on Earhart that improve driver and passenger safety?

Very important Important No opinion Low importance Not at all important

Comments: _____

4. How important is it to make street changes on Earhart that improve pedestrian and bicyclist safety?

Very important Important No opinion Low importance Not at all important

Comments: Top priority. Earhart is not currently a safe road to cycle on. I also worry about children's safety at the crosswalk by St. Paul's school.

5. Do you support testing the lane conversion and providing bike lanes on Earhart Road?

Highly support Support No opinion Low support Do not support

Comments: I strongly support this. As someone who rides on Earhart, I do not think it is a safe road to bike on.

6. Do you support testing the roundabout at Glazier Way?

Highly support Support No opinion Low support Do not support

Comments: _____

7. Do you support testing the roundabout at Greenhills Drive / Waldenwood Drive?

Highly support Support No opinion Low support Do not support

Comments: _____

8. Do you have any other thoughts for us to consider?

My top concern is adding a bicycle lane to Earhart and improving safety for both cyclists and pedestrians.

For long-term planning, I would also consider bicycle safety on the ~~W.~~ Earhart ~~bridge~~ bridge over 23. There is currently no shoulder, so cyclists must go into traffic.

8. Do you have any other thoughts for us to consider?

The grassy median makes it very
difficult to make a left onto
Earhart from Glazier Way or Waldenwood.
I once saw a woman going
the wrong way on Earhart.
Very dangerous

I am writing in strong support for bike lanes on all major roadways in Ann Arbor. Neighbors have mentioned that there is discussion about not including them when resurfacing Earhart. Is this correct?

I live in Ward 2 and use my bike to commute and run errands. I know many of my neighbors do the same. The Geddes/23 pedestrian bridge allows good access to the east but getting to it down Earhart is challenging at best.

Additionally I would like to know if there is any plan to build a pedestrian bridge on Earhart as it crosses 23. I believe a pedestrian bridge at this bottle neck (the shoulders are very narrow) would encourage bike commuting through this corridor. It would also be used by runners and walkers. I think this area is A2 township (I'm not sure) but would like to see A2 city take charge and make changes that would allow safer bike and pedestrian access.

Please let me know your thoughts.

I recently responded to the community survey regarding the Earhart Road Reconfiguration Project. I want to share additional comments – some of which I recognize may be out of the direct scope of this project, but are related.

I reside in a condo that I own at 812 Earhart Road, in the Earhart Village community. My home directly faces Earhart, so this project certainly affects my family and I. In addition to daily driving, I regularly walk in the neighborhood (on Earhart, Waldenwood, Penberton, and other nearby streets) and am accustomed to the general flow of people and vehicles. Also, I often work from home most of the time, so my perspective is based on what I see and experience at all hours of the day.

From what I see, traffic is heaviest on Earhart in the morning and evening rush hours, and around the end of the school day. Outside of those times, traffic seems considerably lighter.

I support the reduction of lanes from 4 to 2 in the sections between Waldenwood and Glazier.

I would also support the addition of street lights on Earhart. At night, the street is very dark, making it difficult to see when driving on the hills and inclines around Pine Brae and the cemetery.

I do not support the addition of roundabouts on Earhart. I support solutions that expedite vehicular traffic flow in a safe, reasonable manner. Roundabouts confuse drivers. I have to deal with the roundabouts on Geddes almost everyday. In doing so, I regularly encounter drivers who don't seem to understand how they work. Has the city considered a traffic light at Earhart and Glazier? Given the proximity to Greenhills School, King Elementary, and Glacier Hills, I sense that a traditional traffic light would be a safer alternative than roundabouts (or the pedestrian activated yellow lights, which I dislike)

so that it doesn't create more confusion for drivers and gives pedestrians an assured point to cross Earhart. What about a light on Earhart adjacent to St. Paul's? That driveway is a blind spot, and it's challenging when cars are turning in and out of the facility on school days.

Roundabouts won't increase the walkability of our neighborhood, and I'm concerned that they will only add traffic bottlenecks at the busiest times of the day.

I would welcome sidewalks on the east side of Earhart along the perimeter of my condo community (which I have voiced to my condo board). Currently, there are too many stretches of Earhart without sidewalks. I would welcome more sidewalks around the neighborhood in general, such as on the sections of Waldenwood that don't currently have them, as well as along Penberton and Greenhills. I'm a parent with a 4-year old. We take frequent walks. The lack of sidewalks is a major concern of mine.

As an aside, if the city really wanted to try a novel solution for minimizing traffic (or at least its impact on city residents), I would recommend considering a solution piloted in New Jersey, which limited certain streets to residents only during rush hour: <https://www.nytimes.com/2018/01/22/nyregion/leonia-gps-navigation-apps.html>.

Thanks for taking the time to consider my feedback.

I am a voter in Ward 2 and support the plan in progress for Earhart Rd.

I travel the Earhart Rd Section being discussed at Greenhills School on April 11, 2019, 3-7 pm.

I pass through this section to reach Washtenaw Community College for OLLI events, to watch soccer games at Concordia University and pick up soccer players from practice, to attend soccer games and practices at EMU Dome, to attend concerts and plays at Concordia University, to reach St. Joe's Hospital, to reach Depot Town, Farmer's Market and other points of interest in Ypsilanti.

The road is very narrow between the Botsford Cemetery and the Lutheran Elementary School on the top of the hill. It is very dark from Pine Brae to Glazier Way and I have a hard time seeing walkers and bike riders near sunset. The potholes make it necessary for me to swerve and weave my way through. I see the plan stretches from 2019 to 2021.

Actually, I believe the project needs to be sped up and needs to include sidewalks on both sides of Earhart Rd. all the way from the roundabout at Geddes Rd north to US 23, street lights, bike lanes, right turn lanes at Lutheran Elementary School, Waldenwoods (heading South), Glacier Hills (heading North), Greenhills School (heading North) Glazier Way (heading South), and Riping Dr.(heading South) and the extra lane(s) are removed.

Let's go forward sooner rather than later.

Thank you for your interest in improving the safety of Earhart road. Unfortunately, I am not able to make the meeting this evening. However, as a resident of a nearby neighborhood and as a parent of a preschooler who attends St. Paul Lutheran School, I have two opinions to share that will hopefully be helpful to consider.

First, the road as it passes St. Paul Lutheran School is narrow and cars routinely speed down that stretch. It can be harrowing to turn left out of St. Paul with the oncoming traffic. It is my opinion that a slower speed limit is appropriate there, with additional signage indicating a school zone. Also, police could consider monitoring for speeders through that area. It is a safety issue for the attendees of St. Paul's, many of which are preschool age.

Second, the condition of Earhart road is terrible, as I'm sure you're aware. Particularly, the southbound section near Kipling Drive is not drivable at anywhere close to the posted speed limit due to multiple contiguous potholes and their associated patchwork of patches. I am concerned when I read these plans that real improvement to the road is not planned for several years. Something more than just individual pothole filling needs to be done to replace the crumbling portions of the road before that time.

Thank you for your efforts to make improvements in our neck of the woods :)

Regarding the discussion of Earhart Road Safety Improvements, repaving is a must and the idea of roundabouts to reduce speeding is reasonable. However, the reduction of 4 lanes to 2 and inclusion of bike lanes is ridiculous. You have traffic data for Earhart - 7246 vehicles per day and 1046 in the peak hour. What is the traffic data for bikes? Does it justify removing 2 lanes of traffic? I doubt you have any data, and it is inconceivable that it justifies the proposed change. I have lived off of Earhart for almost 30 years and I look out onto the road several hours a day as the window I work at faces the street. I can attest that bicycle traffic - even in the best of weather - is maybe a few per day. 6 months of the year there is none. And if there are bikers on Earhart, how are they supposed to get there or leave? The bridge over US-23 narrows to 2 lanes that doesn't allow for either bikes or pedestrians. And there are no bike lanes on Geddes. As presented, this is a poorly thought-out plan and a waste of taxpayer money and I strongly object to it.

It is well known among Ann Arbor residents that this bike lane policy has caused major problems on roads where it was implemented, such as Maple Rd. Further, I'm sure the city has historical data on traffic on major roads in Ann Arbor that shows that the volumes are increasing, not decreasing, similar to US-23 and I-94. So how can such a policy be justified. I would like to know what is the justification for conversion of streets in Ann Arbor from 4 lanes of traffic to 2 with the others occupied by bike lanes that are rarely used. Who is pushing this bad idea and why?

In 15 years of living in Earhart Village I have only once seen a biker heading toward Concordia.

I believe that any time or money spent on planning a bike path is wasteful since it would rarely be used.

The hill is too steep to climb on a bike and too steep to ride down safely and under control.

Please study this observation before planning a bike trail.

I recently responded to the community survey regarding the Earhart Road Reconfiguration Project. I want to share additional comments – some of which I recognize may be out of the direct scope of this project, but are related.

I reside in a condo that I own at 812 Earhart Road, in the Earhart Village community. My home directly faces Earhart, so this project certainly affects my family and I. In addition to daily driving, I regularly walk in the neighborhood (on Earhart, Waldenwood, Penberton, and other nearby streets) and am accustomed to the general flow of people and vehicles. Also, I often work from home most of the time, so my perspective is based on what I see and experience at all hours of the day.

From what I see, traffic is heaviest on Earhart in the morning and evening rush hours, and around the end of the school day. Outside of those times, traffic seems considerably lighter.

I support the reduction of lanes from 4 to 2 in the sections between Waldenwood and Glazier.

I would also support the addition of street lights on Earhart. At night, the street is very dark, making it difficult to see when driving on the hills and inclines around Pine Brae and the cemetery.

I do not support the addition of roundabouts on Earhart. I support solutions that expedite vehicular traffic flow in a safe, reasonable manner. Roundabouts confuse drivers. I have to deal with the roundabouts on Geddes almost everyday. In doing so, I regularly encounter drivers who don't seem to understand how they work. Has the city considered a traffic light at Earhart and Glazier? Given the proximity to Greenhills School, King Elementary, and Glacier Hills, I sense that a traditional traffic light would be a safer alternative than roundabouts (or the pedestrian activated yellow lights, which I dislike) so that it doesn't create more confusion for drivers and gives pedestrians an assured point to cross Earhart. What about a light on Earhart adjacent to St. Paul's? That driveway is a blind spot, and it's challenging when cars are turning in and out of the facility on school days.

Roundabouts won't increase the walkability of our neighborhood, and I'm concerned that they will only add traffic bottlenecks at the busiest times of the day.

I would welcome sidewalks on the east side of Earhart along the perimeter of my condo community (which I have voiced to my condo board). Currently, there are too many stretches of Earhart without sidewalks. I would welcome more sidewalks around the neighborhood in general, such as on the

sections of Waldenwood that don't currently have them, as well as along Penberton and Greenhills. I'm a parent with a 4-year old. We take frequent walks. The lack of sidewalks is a major concern of mine.

As an aside, if the city really wanted to try a novel solution for minimizing traffic (or at least its impact on city residents), I would recommend considering a solution piloted in New Jersey, which limited certain streets to residents only during rush hour: <https://www.nytimes.com/2018/01/22/nyregion/leonia-gps-navigation-apps.html>.

Thanks for taking the time to consider my feedback.

I attended public meeting on the Earhart Road project held a few weeks ago at Greenhills School and finally have time to provide my thoughts. I have two sets of concerns:

1. I find it difficult to believe that there is enough roadway width between St. Paul School and the cemetery to actually add a bike lane in each direction. At the public meeting, none (!) of the City staff knew how wide the road was at that location. Having travelled along that section of Earhart since 1972, just looking at the area, it does not appear there is space to add the bike lanes without cutting down trees in front of the school or cemetery.
2. More importantly, I was strongly opposed to the concept of establishing an "island" with paint and delineators on Waldenwood just west of the intersection with Earhart. Please see the Intersection Blowup image on the City website named "Earhart/Waldenwood blown up image." The area of concern is shown in the yellow highlight. I have lived in the third cul de sac to the west of this intersection since 2005, so have used this intersection over 11 thousand times (at a very rough minimal estimate)!
 - There is no reason to create an "island" on Waldenwood! While the road may seem wide, no one uses it as three lanes. If there is a concern, a simple painted strip should minimize an confusion for the cars once the "circle" in the middle of the Earhart-Waldenwood-Greenhills intersection is created.
 - Just west of the tree shown on the south side of Waldenwood is a taxi stand. If the road is narrowed from the island, there will be interference with the taxis who do park there.
 - In that same area on the north side, just before the first cul de sac, City school buses park and wait for the end of classes at King School. Once again, if the road is narrowed from the island, there will be interference with those parked buses.
 - When there are events at King School, cars park along the south side of Waldenwood, often all the way to Earhart. Once again, if the road is narrowed from the island, there will be interference with those parked cars.
 - I am concerned about snow plowing if the City installs delineators! The City has enough difficulty in plowing the streets in my neighborhood right now and if those are installed, then the plows will have more difficulty in keeping that area clear.
 - Installing delineators will make it more difficult for not only the City school buses to make the turns onto Waldenwood but all of the delivery trucks that use the road.
 - Installing delineators will require drilling into the asphalt and will simply create more damage to the roadway from the winter freeze-thaw cycle. I am VERY strongly opposed to the installation on Waldenwood. This is simply overkill, will create a variety of problems, is not necessary, and simply painting the roadway would be a simpler and effective solution.
 - The creation of the circles in the intersection will create the proper use of the road. There are other circles in the city where delineators have not been installed on the approaching intersections and this has not created a problem.
 - I am also opposed to installation of delineators in the circles " in the middle of the Earhart-Waldenwood-Greenhills and the Glazier Way-Earhart intersections due to he damage that will be created overtime to the roadway. But I suspect this is something that cannot be changed.

In summary, please consider modifying the plan to eliminate the use to delineators on Waldenwood. This is simply overkill, will create a variety of problems, is not necessary, and simply painting the roadway would be a simpler and effective solution.
