FOR IMMEDIATE RELEASE

ANN ARBOR PROVIDES CODERED EMERGENCY PHONE ALERT Register Today For Emergency Notifications

Ann Arbor residents, businesses and students are encouraged to register online to be personally alerted in the event of an imminent threat to health and safety—such as a chemical spill, evacuation notice, bomb threat, boil water notification, or missing child alert—through the CodeRED program provided by the City of Ann Arbor.

The CodeRED system is capable of dialing 60,000 phone numbers per hour, making three attempts to connect to any registered number and delivering a recorded message to a live person or answering machine within a specific geographic area or for the entire city. The CodeRED program is provided via a contract with Emergency Communications Network.

To register your phone number, click on the CodeRED logo on the City of Ann Arbor's website at www.a2gov.org. Provide your name, address, primary phone number and alternate phone number to receive emergency notifications from the city.

Individuals without Internet access can pick up a free CodeRED registration form from the Customer Service Center at 220 E. Huron or from the 24-hour Police Desk in City Hall's lobby at 100 N. Fifth Ave. Place completed forms in deposit boxes at either location.

CodeRED notification is also recommended for individuals interested in receiving emergency information related to a specific Ann Arbor address, such as for nearby relatives of an elderly or disabled Ann Arbor resident, or managers of rental properties within the city limits. Information will be managed on behalf of the City of Ann Arbor for authorized local emergency phone communications only and not used or sold for any other application.
