University Village brownfield community forum to be held March 6

Ann Arbor, Mich– A public meeting will be held on Thursday, March 6 from 7 to 8 p.m. in the Burns Park Elementary School auditorium (1414 Wells Street, Ann Arbor). The purpose of the meeting is to explain and discuss the brownfield component of the University Village site plan. University Village is a proposed 421-unit residential and retail development on 1.61 acres at the corner of South University and South Forest Avenues. Public input is desired on the brownfield component before an application is submitted to the Washtenaw County Brownfield Redevelopment Authority. For more information, please call Jill Thacher, City Planner, at 734.994.2797.

At the community forum, the project developers will explain environmental challenges posed by the site, remediation, proposed tax capture, and other topics specific to Brownfield activities on this site, and answer questions about the preliminary brownfield proposal.

University Village Town Hall Meeting

In addition, the University Village-Ann Arbor LLC development team, led by Ronald Hughes and Daniel Ketelaar, will be hosting a Town Hall Meeting to present and discuss all other aspects of the project on Wednesday, March 5 from 6:30 to 8:30 p.m. The meeting will be held at the MITC Conference Center, 1000 Oakbrook Drive, Ann Arbor (behind Howard Cooper off State Street, just north of Eisenhower). Reservations are not necessary. Refreshments will be served. Please direct inquiries to spokeswoman Tracy Koe Wick at tracy.wick@kirkwoodgroup.com
