**Notice of Temporary Traffic Control Plan
S. Main, S. Ashley, & Londonderry Water Main Project
Construction June 8 to July 13, 2009**

Location and Limits of Affected Area:

South Main Street from Packard Street to Adams Street.

Description of Construction:

In order to address water quality concerns, improve fire hydrant protection, and prevent continuity of service issues, we will be replacing the existing 6" water main under the railroad tracks with new 8" & 12" diameter pipe on South Main & South Ashley Streets at the railroad tracks crossing.

Temporary Construction Traffic Control Plan:

Travel will be reduced to two lanes (one northbound and one southbound) during the construction. Two-way traffic and driveway access will be maintained at all times.

Pedestrian traffic will be maintained at all times.

During this construction the traffic may experience brief delays within the areas influenced by this work. Detour signs will be posted for this construction; however the motorists are advised to seek alternate routes. To maintain the safety of all, please reduce speeds and drive cautiously through work zones. We thank you in advance for your patience as these necessary public infrastructure improvements are completed.
