

ADDENDUM No. 1

RFP No. 19-28

MRF Operations and Recyclables Processing

Due: September 17, 2019 at 2:00 P.M. (local time)

The following changes, additions, and/or deletions shall be made to the Request for Proposal for MRF Operations and Recyclables Processing, RFP No. 19-28, on which proposals will be received on/or before the date and time listed above.

The information contained herein shall take precedence over the original documents and all previous addenda (if any), and is appended thereto. **This Addendum includes two-hundred forty-seven (247) pages.**

The Proposer is to acknowledge receipt of this Addendum No. 1, including all attachments in its Proposal by so indicating in the proposal that the addendum has been received. Proposals submitted without acknowledgement of receipt of this addendum may be considered non-conforming.

The following forms provided within the RFP Document must be included in submitted proposal:

- **Attachment A – Cost Proposal Forms**
- **Attachment B – Legal Status of Offeror**
- **Attachment C - Non-Discrimination Declaration of Compliance**
- **Attachment D - Living Wage Declaration of Compliance**
- **Attachment E - Vendor Conflict of Interest Disclosure Form**
- **Attachment H – Contractor Information and Safety Record Form (added by this Addendum)**

Proposals that fail to provide these completed forms listed above upon proposal opening will be rejected as non-responsive and will not be considered for award.

I. CORRECTIONS/ADDITIONS/DELETIONS

Changes to the RFP documents which are outlined below are referenced to a page or Section in which they appear conspicuously. Offerors are to take note in its review of the documents and include these changes as they may affect work or details in other areas not specifically referenced here.

Section/Page(s)

Change

Section/Page 4

As provided in RFP No. 19-28 Document:
Subsection **C. PRE-PROPOSAL MEETING** is updated with the following being added: "The MRF will be available for interested vendors to tour the facility on Wednesday, September 11, 2019 from 9:00am – 3:00pm. Visitors will be required to have personal protective equipment (PPE) when touring the facility, including close-toed shoes, hard hat, high visibility vest and safety glasses. The City has a limited number of hard hats, high visibility vests and safety glasses available for use at the site, so proposers

are encouraged to provide their own required PPE.”

Section I/Page 9

As provided in RFP No. 19-28 Document:

Subsection **S. SAFETY COMMITMENT** is replaced with: “The City of Ann Arbor seeks to ensure that contractors that provide services to the City comply with all applicable federal, state and municipal rules and regulations and conduct themselves in a manner that protects the safety of their employees as well as City of Ann Arbor employees, visitors and the general public. Contractors shall provide a safe work environment, free from recognized hazards and exercise due care to prevent damage to property, materials, and equipment.

For a proposal to be considered, offerers must provide the Contractor Information and Safety Record Form contained in Attachment H.”

Attachments

As updated herein:

ATTACHMENT H – *Contractor Information and Safety Record Form* is added to the RFP (pages 10 - 14 of this addendum). This form is to be completed and included in all submitted proposals.

II. QUESTIONS AND ANSWERS

The following Questions have been received by the City. Responses are being provided in accordance with the terms of the RFP. Respondents are directed to take note in its review of the documents of the following questions and City responses as they affect work or details in other areas not specifically referenced here.

Question 1: Regarding Section II – Scope of Services, sub-section 2. Objective – The RFP states, “These services, and the resulting contract, may be transferred to the Washtenaw Regional Resource Management Authority (WRRMA) if desired by both the City of Ann Arbor and WRRMA. As WRRMA is a newly forming authority, the City does not have any data of the materials that may be provided by its member communities in the future.” What exactly does this mean? Can the Contract be transferred from the successful proponent to the WRRMA in the future?

Answer 1: The contracting entity may be transferred from the City of Ann Arbor to WRRMA if both the City and WRRMA agree to this transfer. The contract operator would then provide the contracted services to WRRMA rather than the City of Ann Arbor.

Question 2: Regarding the Material Audit Results chart at the top of page 14 – Can the City confirm whether this chart represents outbound or inbound materials?

Answer 2: The chart titled *Material Audit Results – City of Ann Arbor Recyclables* represents outbound material.

Question 3: Regarding the Material Audit Results chart at the top of page 14 – How many tons were sampled for this audit?

Answer 3:

October 2016	103.33 tons
August 2017	54.62 tons
November 2017	41.49 tons
February 2018	38.60 tons
October 2018	42.16 tons
April 2019	43.31 tons

Question 4: Regarding the Monthly Recycling Tonnages chart at the top of page 13 – Why was there such a drop in Commercial OCC between FY18 and FY19?

Answer 4: The current vendor was previously removing cardboard by hand from the single stream material, using periodic labor from the Washtenaw County Sheriff's Department for individuals in need of Community Service hours. Due to changes in the Sheriff's program, this method of operation was unable to be continued after February 2018. The commercial OCC is currently sourced from large compactor box units at certain commercial customers in the City.

Question 5: Regarding the Historical Recycling Tonnages chart at the bottom of page 12, as well as the Monthly Recycling Tonnages chart at the top of page 13 – How do the tonnages reflected on these two charts correlate with each other? These numbers seem very different from each other.

Answer 5: The table of Historical Recycling Tonnages at the bottom of page 12 reflects inbound tonnages delivered to the MRF from residential and commercial recycling collection routes in the City. Annual totals in this table are presented on a calendar year basis (January - December). The table of Monthly Recycling Tonnages at the top of page 13 reflects the outbound tonnages sent to offsite processors on a monthly basis. "Single-Stream" tonnage includes tonnage from both residential and commercial collection, which is sent to a MRF in Cincinnati for processing. "Commercial OCC" tonnage includes only the portion of collected commercial tonnage, which is segregated from other inbound tonnage due to its high cardboard content and sent to a local recycler for processing and marketing. Annual totals in this table are calculated on a fiscal year basis (July - June).

Question 6: Regarding the Monthly Recycling Tonnages chart at the top of page 13 – Did the City add a new program or new territories to the service area between FY18 and FY19? What caused the increase in single-stream materials?

Answer 6: There have been several new residential developments and mixed-use high-rise developments in the downtown, which all have contributed to the increase in single-stream recycling.

Question 7: Can the City provide shipment data and an outbound shipment breakdown for the past 24 months?

Answer 7: The City can provide inbound and outbound single stream and outbound OCC data on a daily basis. This data for calendar year 2017, 2018 and 2019 year-to-date is included in this addendum (pages 15 - 191).

Question 8: Who is responsible for site restoration, if the bidder chooses to use the City's MRF as a Transfer Station? Will this be the City's responsibility, or the responsibility of the winning proponent?

Answer 8: The selected Offeror.

- Question 9: Can the City provide updated inspection/maintenance reports on the baler and its feed conveyor?
- Answer 9: Inspection reports from July 2018 through August 2019 are included in this addendum (pages 192 - 247).
- Question 10: If bidders are complying with a living wage ordinance in a locality where the processing/service takes place or originates from, is the bidder exempt from the City of Ann Arbor's wage amounts?
- Answer 10: The City's Living Wage Ordinance applies to any employee of a company contracted with the City to provide services to the City no matter where they may be located geographically. However, if a company and the employees doing the work for the City comply with a Living Wage Ordinance in that location, the City will accept that as satisfying the City's Living Wage Ordinance.
- Question 11: Attachment G – City of Ann Arbor Living Wage Ordinance states, "Health Care benefits include those paid for by the employer or making an employer contribution toward the purchase of health care. The employee contribution must not exceed \$.50 an hour for an average work week; and the employer cost or contribution must equal no less than \$1/hr for the average work week." Is this for single health coverage, or single plus dependent(s)?
- Answer 11: Employees and their dependents.
- Question 12: How will the City determine if it will award the contract for a longer (ten-year) period?
- Answer 12: The longer (10-year) term was included in the RFP primarily to allow a longer amortization period for any new equipment a vendor would propose under Option 2. Vendors should clearly state their preferred contract duration for Option 1 and/or Option 2. The City will determine what term length is in the best interest of the City, taking into consideration cost effectiveness, stability and other factors.
- Question 13: Do the Cost proposal and other forms (Attachments A through E) count toward the total page count of the proposal?
- Answer 13: No.
- Question 14: As repairs to the facility are the responsibility of the contractor, does the City have a recent building evaluation so that the Contractor has an idea as to the state of repair?
- Answer 14: No. Offerors that desire to perform their own building evaluation should include that within their proposed scope of services. Upon contract award, the selected offeror will be granted 60 days to complete their own building evaluation. Completion of any repairs or upgrades to the roof, exterior walls, or pavement will be addressed through a negotiated change order. All other building elements will be the responsibility of the vendor.
- Question 15: Page 13 of the RFP notes that the City has a long-term zero waste goal and is in the process of finalizing a Solid Waste Resources Management Plan (SWRMP) and that the City expects some increase in the City's recycling tonnages should be expected over the term of this contract. In this regard, does the City intend to add new materials to the program?
- Answer 15: We don't expect to in the near-term; any changes to incoming materials would be negotiated with the selected operator as markets/programs evolve.
- Question 16: If the Contractor operates the facility as a transfer station, and wishes to utilize the baler and infeed conveyor for bailing of some materials, will ownership of the baler transfer to the Contractor as per **Requirements 3. C.** on page 15 of the City's RFP? Further, does the ownership of the baler and infeed transfer back to the City at the end of the initial term (similar to the contractor installed processing

equipment)? Finally, does the City have an assessment of the baler that they could share?

Answer 16: Ownership of the baler would not transfer to the Contractor. The baler was installed in mid-2016. The baler has not been run at full capacity since installation. Inspection and preventative maintenance reports from July 2018 through August 2019 for the baler are included in this addendum (pages 192 - 247).

Question 17: Does the City have a current sorting guide, which is used to determine material classification during the City's single-stream recyclable material audits?

Answer 17: The current sorting guide used for the latest single-stream materials audit is below:

RUMPKE RECYCLING				
Cincinnati, OH FORMULA - Recycle Ann Arbor				
July-19	"P&PW" = Pulp & Paper Week Monthly Recovered Paper Price Watch			
	"SMP.COM" = SecondaryMaterialsPricing.com			
SINGLE STREAM CATEGORIES	Allocation	Index Price Formula	Index Price	Market Value per ton
Cardboard # 11	20.38%	P&PW - OCC - Midwest, High Side	\$30.00	\$6.11
Mixed Paper	35.36%	P&PW - Mixed Paper Midwest, High Side	\$0.00	\$0.00
Sorted Residential (News)	13.76%	P&PW - SRP - Midwest, High Side	\$25.00	\$3.44
Steel Cans	1.61%	SMP.com - Chicago Average	\$147.50	\$2.37
Aluminum Cans	0.26%	SMP.com - Chicago Average	\$1,136.00	\$2.95
HDPE (Combo)	1.04%	SMP.com - Chicago Average (Natural)	\$415.00	
		SMP.com - Chicago Average (Color)	\$245.00	
		HDPE combo Average	\$330.00	\$3.43
PET	2.47%	SMP.com - Chicago Average	\$290.00	\$7.16
#1 - #7 Plastic Mixed	1.17%	SMP.com - Chicago Average	\$50.00	\$0.59
Metals White Goods (Misc. Scrap Metal)	0.67%	SMP.com - Chicago Average	\$42.50	\$0.28
Aseptic Cartons	0.03%	P&PW- SOP - MW High Side, less 50%	\$57.50	\$0.02
Mixed Glass (3-Mix)	13.34%	Actual	(\$12.50)	(\$1.67)
Residuals	9.91%	Actual	(\$39.50)	(\$3.91)

Question 18: Would the City consider an extension of 8 weeks for the submittal of the bids due date? If not 8 weeks, would the City consider 4-week extension?

Answer 18: The proposal due date and process schedule is remaining as published.

Question 19: Given that the city's depreciated costs related to the MRF factor into the RFP responses, how will those costs be applied in the case of Transfer vs. Redevelopment proposals?

Answer 19: Refer to the instructions for Items 4.b and 5.c in the Cost Proposal Forms. The City believes that its MRF may provide value in the marketplace to Offerors interested in sourcing 3rd Party tonnage. Offerors should propose a 3rd Party credit based on their experience in operating MRFs and knowledge of regional market conditions.

For Option 1 (transload), the 3rd Party Transload Credit (Item 4.b) is intended to compensate the City for the vendor's use of the MRF building to handle 3rd Party tonnage. For Option 2 (processing at the City's MRF), the 3rd Party Processing Credit (Item 5.c) is intended to compensate the City for the vendor's use of the building and proportionate share of incremental capital costs (for any new equipment).

The City believes that both the successful Offeror and the City can benefit from

allowing 3rd Party tonnage to be received at the MRF. However, the City would not be interested in a proposal under Option 2, for instance, in which all incremental capital costs for new equipment are paid for through the processing fee on City-delivered tons, and no credit for the proportionate use of the equipment is credited to the City on 3rd party tonnage.

Question 20: How do proposers determine the necessary compensation to the City for the purchase of the baler?

Answer 20: Contractors purchasing the baler from the City under Option 2 will do so based on an appraised value for the baler. This appraisal will be performed by the City before completion of the contract scope negotiations, so Proposers should not include a value in their proposal.

Question 21: In order to comply with the living wage requirement, what process will be used by the city to determine whether living wages are being paid by offsite processors?

Answer 21: Chapter 23 of the Ann Arbor City Code includes provisions for monitoring and enforcement of the living wage requirements, including procedures for complaints of non-compliance to be made and investigated, and for the City to monitor compliance, e.g., by requesting payroll records. Among other consequences, non-compliance would be a material breach of the contract.

Question 22: How will the City ensure that non-living wage temporary labor is not used at an offsite MRF?

Answer 22: Chapter 23 of the Ann Arbor City Code includes provisions for monitoring and enforcement of the living wage requirements, including procedures for complaints of non-compliance to be made and investigated, and for the City to monitor compliance, e.g., by requesting payroll records. Among other consequences, non-compliance would be a material breach of the contract.

Question 23: How will the city rank proposals with regard to the recycling of glass. Given that the City's Sustainability plan includes downstream impacts, how will the city rank proposals that engage end users that bring the material to its highest and best use?

Answer 23: This would be considered as part of the scoring of the proposed work plan.

Question 24: How will the City give preference in its ranking for the use of Union labor?

Answer 24: The City cannot and does not give preference to a company that is or is not a union shop. The City requires that the contractor and their subcontractors pay a living wage per chapter 23 of the Ann Arbor City Code. The Living Wage Compliance Form (Attachment D of the RFP) is to be completed to ensure compliance.

If construction trades are utilized in any aspect of a proposal, e.g., installation of new equipment, building modifications, etc., Section 1:320 of the Ann Arbor City Code require that "all craftsmen, mechanics and laborers employed directly on the site in connection with said improvements, including said employees of subcontractors, shall receive the prevailing wage for the corresponding classes of craftsmen, mechanics and laborers, as determined by statistics for the Ann Arbor area compiled by the United States Department of Labor." Compliance with this requirement will be verified through submittal of certified payrolls to the City.

If a proposal includes this type of work, the Proposer must print and include the United States Department of Labor wage determination for the Building category of construction in effect on the date the proposal is submitted. The prevailing wages in that wage determination will apply to the work.

- Question 25: Given that we know that the City values Environmental Justice, how will the City give preference in its ranking to proposals that factor environmental justice?
- Answer 25: The City's evaluation criteria are contained in the RFP. The City will award the contract to the Offeror whose proposal best meets the needs of the City.
- Question 26: Given that the City understands the cause of the current recycling market conditions i.e. maximizing profits and minimizing quality standards that have de stabilized world recycling markets, how will the city rank projects that maximize profit, community and environmental benefits
- Answer 26: The City's evaluation criteria are contained in the RFP. The City will award the contract to the Offeror whose proposal best meets the needs of the City. Offerors should structure their proposals according to the instructions contained in the RFP. Offerors should not assume or impute any "understanding" on the City's part that is not expressly provided in the RFP.
- Question 27: How does the city's ranking system encourage "emerging/progressive" technology and systems Section R?
- Answer 27: Offerors may propose emerging/progressive technology either through advanced equipment at an offsite MRF (Option 1) or through equipment upgrades at the City's MRF (Option 2).
- Question 28: As stated in Section 3A. Requirements that "ownership is transferred to the City at the end of the initial contract term", does the City assume that this is at no cost to the City? If the City assumes the transfer is at no cost to the City how will the City compare the fee proposals for using the City's MRF building (and possibly some of the equipment) to proposals where the material is transferred to an offsite processing facility that has an unspecified capital amortization period?
- Answer 28: The City anticipates the capital cost to be charged to the City over the term of the contract, and this cost is to be indicated on section 5.b. of the Cost Proposal Form. The City is not assuming the transfer is at no cost to the City, but rather has provided the format for submitting that cost in the Cost Proposal Forms. The City is not expecting use of any of the equipment except the baler and feed conveyor as indicated in the RFP. In terms of comparing proposals, the City will compare the amounts submitted on the Cost Proposal Forms from the different proposers.
- Question 29: Will the City require that proposers use the same capital amortization period so that a fair comparison of proposals can be made between using the City's MRF and using an offsite processing facility?
- Answer 29: The amortization period is to be determined by the proposer. The City's proposal forms allow a fair comparison of pricing under Option 1 and Option 2.
- Question 30: How does the City rank the educational value of the MRF?
- Answer 30: The City will be examining the potential use of the second floor education area in the MRF at a future date.
- Question 31: The proposal mentions the submission of IRS Form W-9 (I-P). Does that need to be submitted with the proposal?
- Answer 31: No. The RFP states that the selected offeror, i.e., the party that is awarded the contract for these services, will need to provide this to the City.
- Question 32: Section 1-R says, "The City encourages potential vendors to bring forward emerging and progressive products and services that are best suited to the City's environmental principles." How will this consideration impact the ranking of submitted proposals, if at all?
- Answer 32: Offerors may propose emerging/progressive technology either through advanced equipment at an offsite MRF (Option 1) or through equipment upgrades at the

City's MRF (Option 2).

Question 33: Loss of a scale at the MRF site will provide a barrier to effective shipping services, How do you propose to minimize costs for facility operators with the new scale almost a mile away?

Answer 33: The City does not concur with this statement. Nonetheless, the relocation of the scale to the entrance of the Wheeler Center Facility where all vehicles will enter and leave the complex, and the removal of all non-MRF related traffic from the current scale location at the MRF should be factored into the cost proposals by the offerors.

Question 34: Is the current MRF transfer operation permitted through the State of Michigan? If so, can you provide us with a copy of the current license? Does the State require an operating license if materials are only being transferred? When does the current license expire? Can that existing license be used until its expiration?

Answer 34: MRFs are not currently permitted by the State of Michigan.

Question 35: If the facility is proposed to be used as a transfer-only operation, will the existing (dormant) MRF equipment (and liability for same) remain in place for the next 5-10 years?

Answer 35: The City has not made a determination regarding this at this time.

Question 36: If a contractor desires additional floor space for transfer operations, can some or all of the existing equipment be removed for this purpose? If so, at whose cost?

Answer 36: An offeror may include this in their proposal with complete details and the rationale fully described. The cost should be factored in/included in the cost proposal. If this is an "alternate proposal" it should be noted as a separate cost proposal. The salvage value of the equipment would need to be provided to the City.

Question 37: The tonnage chart on page 12 shows 14,910 tons of recyclables at the facility in FY 18. The chart on page 13 shows 13,885 tons. Which is correct?

Answer 37: The chart on page 12 is for calendar year and the chart on page 13 is for fiscal year (July 1 – June 30).

Question 38: The "Preparation of Proposals" talks about no more than 30 pages for the base proposal and then says an additional 20 pages can be used for an optional proposal "for equipping and modifying the MRF". Does this therefore presume that a proposer's base proposal will be for transloading?

Answer 38: Yes.

Question 39: Would it be possible to arrange a second tour of the facility? For example, if we had engineers from out of town come in to access the facility, we would need access to walk them around.

Answer 39: The MRF will be available for interested vendors to tour the facility on Wednesday, September 11, 2019 from 9:00am – 3:00pm.

Question 40: Due to the size and scope of this RFP, we request that a one (1) month extension be granted on both the questions and submission deadlines, as this will allow all bidders the opportunity to develop more fulsome proposals that deliver value and creativity to the City of Ann Arbor and its taxpayers

Answer 40: The proposal due date and process schedule is remaining as published.

Question 41: Is operational experience with single stream processing and marketing required to provide a response?

Answer 41: Offerors' experience with single-stream processing and marketing will be considered under the Professional Qualifications and Past Involvement with

Similar Projects aspects of the proposal scoring.

Question 42: The City's existing contract has a measurement of loose loading single stream recycling. Is this part of the evaluation process? Can you provide the analysis/data that shows how a 1% reduction in residue offsets the transportation carbon emissions?

Answer 42: The City's evaluation criteria are contained in the RFP. The City will award the contract to the Offeror whose proposal best meets the needs of the City. The staff member who performed the analysis for the existing contract is no longer with the City, and the information could not be located within the timeframe to include in this addendum.

Question 43: How or when will the awarded contractor be provided scale activity from the City of Ann Arbor?

Answer 43: The City currently provides scale activity data via e-mail on a weekly and monthly basis to the City's contract operators. If the selected contractor desires to have this data provided more on a daily basis, that could be arranged.

Question 44: Can the City please provide copies of all site permits that the vendor will be expected to provide?

Answer 44: MRFs are not currently permitted by the State of Michigan.

Question 45: Is there any yellow equipment that must be provided as part of this RFP?

Answer 45: The selected contractor is to provide all necessary equipment to perform the services for this RFP.

Question 46: The frequency of audit (semi-annually) needs to be increased, so as to have a reliable data/result that is fair to both parties. We request that the City amend the frequency of the audit.

Answer 46: Offerors can offer, suggest, and include a more frequent materials audit process, explaining their rationale and any cost implications in their proposal, and the City will consider it during the review of their proposal.

Question 47: Would carbon dioxide emissions or greenhouse gas emissions be a major factor in the technical evaluation of this RFP?

Answer 47: As noted in Section I, subsection R. Environmental Commitment:

The City of Ann Arbor recognizes its responsibility to minimize negative impacts on human health and the environment while supporting a vibrant community and economy. The City further recognizes that the products and services the City buys have inherent environmental and economic impacts and that the City should make procurement decisions that embody, promote, and encourage the City's commitment to the environment.

The City encourages potential vendors to bring forward emerging and progressive products and services that are best suited to the City's environmental principles.

Means and methods proposed by Offerors that increase or reduce dioxide emissions or greenhouse gas emissions would be reviewed in the Work Plan aspect of the proposal with this Environmental Commitment in mind.

Offerors are responsible for any conclusions that they may draw from the information contained in the Addendum.

_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____

C. Claims and Suits

- 1. Has your organization ever defaulted on a contract? Yes No
- 2. Are there any judgments, claims, arbitration proceedings or suits pending or outstanding against your organization or its officers? Yes No
- 3. Has your organization filed any lawsuits or claims within the last five years? Yes No

If the answer is “Yes” to any of the above questions, please provide details as an attachment.

D. Safety Record Information

- 1. In the last three years has your company received any alleged violations as a results of inspections conducted by the Michigan Occupational Safety & Health Administration (MIOSHA), U.S. Department of Labor – Occupation Safety and Health Administration (OSHA), U.S. Environmental Protections Agency (EPA), Michigan Department of Environment, Great Lakes & Energy (formerly Department of Environmental Quality (DEQ)) or other environmental, health and safety agencies? Yes No

If response is “Yes” attached copies of violations and corrective action documentation.

2. List your organizations Experience Modification Rate (EMR) for the past three consecutive years. This should include the current calendar year and the previous two years. Both interstate and intrastate EMRs must be included. If an interstate EMR does not apply to your organization, write "NA" in those fields.

Year	<u>20</u>	<u>20</u>	<u>20</u>
Interstate EMR:	_____	_____	_____
Intrastate EMR:	_____	_____	_____

Provide a copy of an EMR verification on your insurance carrier's letterhead for the current calendar year and two previous years. Failure to provide verification may disqualify bidder from competing in the bidding process. Contractors who are self insured must attached a letter signed by an officer of their company stating that they are self-insured and do not have an EMR.

3. Use your current year and last two consecutive years of OSHA 300 logs to fill in the following information.

	Year	<u>20</u>	<u>20</u>	<u>20</u>
a. Total number of OSHA recordable cases		_____	_____	_____
b. Number of transfer and restricted cases		_____	_____	_____
c. Number of lost workday cases		_____	_____	_____
d. Number of lost workdays		_____	_____	_____
e. Number of fatalities		_____	_____	_____
f. Employee hours worked each year		_____	_____	_____

4. Use the following information to calculate information from your organizations OSHA 300 logs.

Recordable Incident Rate = (Total of Sections H, I and J multiplied by 200,000) divided by total hours worked

DART Incident Rate = (Totals of Sections H and I multiplied by 200,000) divided by total hours worked

Complete the following rate information based upon current year-to-date numbers and the previous two years.

Year	<u>20</u>	<u>20</u>	<u>20</u>
Recordable Incident Rate:	_____	_____	_____
DART Incident Rate:	_____	_____	_____

5. Does your organization have a written company safety policy signed by a company officer? Yes No

6. Does your firm have a written Hazard Communication Program? Yes No

7. Identify the name and title of the person within your organization directly responsible for the organizations safety management program.

Name _____ Title _____ Phone Number _____

8. How often does your organization hold site or toolbox safety meetings for field teams? Daily Weekly Monthly Only on an "as needed basis"

Please explain _____

9. Do you have a safety orientation program for new hires? YES NO

If yes, does it include instruction on the following topics?

- | | | |
|---|--------------------------|--------------------------|
| a. Your organizations safety policy, rules and procedures | <input type="checkbox"/> | <input type="checkbox"/> |

Work Order 26707 Subtotal: \$410.80

Chris Maresco had Brian from City of Ann Arbor contact him. Baler is not working, making noises, error codes etc. Please service.

Units on this Work Order		Technician Notes	
Unit ID	Fleet	KTRAPP01	8/10/2018
56228	Harris 2 RAM Baler	8/10/18 - Arrived and inspected the Baler. The tier was jammed and in fault. The history said there was a jam. I manually cycled the unit to clear the chambers and I reset the tier. Unit began to operate. Have a service ticket in with Harris balers to make some modifications to the timing of the tier. Will change a few settings on the next PM. Baler operating properly at this time. Job Complete	
		KTRAPP01	8/13/2018
		Spoke to Harris Balers, have a plan to adjust the strap sequence next pm.

Work Order 28558 Subtotal: \$287.50

Kevin was contacted by Brian at Ann Arbor Recycle. Harris baler was jammed, they cleared but error code still there. Please service.

Units on this Work Order		Technician Notes	
Unit ID	Fleet	KTRAPP01	9/14/2018
56228	Harris 2 RAM Baler	9/14/18 - Arrived and inspected unit. The gatherer was jammed and the photoeye settings were tweaked not letting the machine trigger a cycle. Reset unit, adjusted tie cycles. Tested operation. Job Complete.
