“Great experience,
I would love to volunteer
again in the nearest future.”

“The leader was excellent. She connected with every person on the work group, and then led us on a really interesting nature walk. **We got a lot of work done and had fun doing it!**”

“Your work and dedication to birding are **true assets to our community.** Thank you!”

“I really liked how informative the event was. I feel like I actually learned a lot, which made the experience meaningful!”

“The task was really well defined and the leaders were very friendly and knowledgeable. I feel like I made a difference! I hope to volunteer again soon.”

“Excellent volunteer activities.”

“We had such a fun time doing the survey this spring! We're definitely a whole lot smarter about amphibians now and hear them all the time it seems. Our 2 favorite spots on the Traver run are by the AA library and Black Pond. The walk out there in the dark with the fireflies and sounds is a very special thing.”

I thought it was a great event! I appreciated that there were plenty of materials and **I really enjoyed hearing more about the work we were doing and why it was so important for habitat restoration** – the leader talked to us about the Woodcock and how it comes and lives in a previously restored area. Very cool and meaningful. Well organized and fun. Thank you for all you do!”

“It was a fun experience and I appreciated the additional information that was shared from the staff.”
