

**Addendum #2**  
**Gallup Park Improvements, ITB 4272**  
**City of Ann Arbor, Parks and Recreation Services**  
**Due: Thursday, February 21, 2013 at 2:30 p.m.**

**Please note the following changes/clarifications to this project:**

1. The bid opening time is being changed to 2:30 p.m., Thursday, February 21, 2013
2. Clarification to item #13 - The question pertained to using an alternative for the grass pavers in the driveway area.

The response should have stated:

Page C.9, Commercial Drivable Grass Detail, states that the Driveable Grass Mats are to be similar to "Driveable Grass" .... This definition would mean that any type of paver, mechanically placed or not, could be used as long as the bedding follows the detail (30% organic material and it is seeded). The intent was to have grass between the pavers, similar to the existing turn-around area. Paver Type A and B are not changed then from the original specifications.

**Please include this addendum #2 when you submit your bid on Thursday, February 21, 2013 at 2:30 p.m.**
