

Images of locations referenced in
communications with the public

This document is an index of images of locations that were mentioned by members of the public to the Task Force. These locations were taken from records collected from the Decadome and during the first open house, as well as conversations from those events and other meetings. It therefore may not be complete, and if that is the case I will gladly add additional images.

Images were chosen for this document irrespective of ownership or publication/reproduction rights. The owners of these images may not permit their use in activities related to our work or in communication with members of the public.

These images were chosen for their quality, size, and content. They may not represent the entirety of a site. In the case of images chosen for “public squares” in specific towns, the selected images do not represent all public squares, or even highly relevant or successful ones, as not all references by members of the public included specific locations.

No image link is available for image 31, “Seattle Downtown” as it originates from a document that was collected at the Decadome and is included in the Decadome Feedback PDF

Index of Locations

1. “The Cube” // University of Michigan Campus
2. “The Square on Second” // Manteno, Ill.
3. Baker Commons // 106 Packard
