**CITY OF ANN ARBOR, MICHIGAN**  
100 North Fifth Avenue, P.O. Box 8647, Ann Arbor, Michigan 48107

December 10, 2008

**To the Honorable Mayor, Members of the City Council  
And Citizens of the City of Ann Arbor**

The Comprehensive Annual Financial Report (CAFR) of the City of Ann Arbor for the year-end June 30, 2008, is submitted. Staff in the Accounting Services Unit prepared the report, with assistance from the Pension System, Downtown Development Authority, Housing Commission and other City staff. The City has the responsibility for all disclosure and accuracy of material contained in this report.

State law requires that all local governments, subject to certain size criteria, publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the City of Ann Arbor for the fiscal year ended June 30, 2008.

This report consists of management's representations concerning the finances of the City of Ann Arbor. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, City management has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatements. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to compliment the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors.

**Profile of the Government**

The City of Ann Arbor was founded in 1824 and incorporated as a city in 1851. The City is located in the approximate center of Washtenaw County in the southeastern section of Michigan's lower peninsula. The City is approximately 28 square miles in area and serves as the County Seat. The City has an excellent public transportation system for its citizens and visitors to enjoy. The City is nationally known for its outstanding educational and medical facilities, serving as the home of the University of Michigan.

The City operates under a Mayor/Council-Administrator type of government. The Council is comprised of the Mayor and ten Council Members. The City is divided into five wards, two Council Members are elected from each ward. The Council appoints a City Administrator to serve as the Chief Administrative Officer of the City responsible for daily operations. The organizational chart of the City is shown following the transmittal letter.

The component units discussed below are included in the City's financial reporting entity because of the significance of their operational or financial relationships with the City. In accordance with generally accepted accounting principles and Governmental Accounting Standards Board (GASB) Statement No. 14, "*The Financial Reporting Entity*," these financial statements present the City (the primary government) and its component units. The criteria established by the GASB for determining the reporting entity includes financial accountability and whether the financial statements would be misleading if data were not included.

**Blended Component Unit.** The Ann Arbor Building Authority is presented as a blended component unit. Commissioners of the Authority are appointed by the Mayor and confirmed by City Council. Although it is legally separate from the City, the Authority is reported as if it were part of the primary government because its sole purpose is to issue revenue bonds to finance major capital construction by the City.

**Discretely Presented Component Units.** The Component Unit columns in the government-wide financial statements include the financial data of the City's other Component Units. They are reported in separate columns to emphasize that they are legally separate from the City. The following Component Units are included in the reporting entity because the primary government is financially accountable and is able to impose its will on the organization.

Downtown Development Authority (DDA). The DDA was created to finance rehabilitation and redevelopment in the downtown area. Commissioners of the DDA are appointed by the Mayor and approved by City Council. Development plans are approved by Council and Council must approve all modifications to the plan. The City maintains some accounting and payroll records for the DDA, whose primary source of funding is from Tax Increment Financing revenues. Bonds secured by those revenues are issued by the City on behalf of the DDA, which does not have the ability to issue debt.

Ann Arbor Housing Commission. The Housing Commission was created to provide low-income housing for City residents. Commissioners of the Housing Commission are appointed by the Mayor and approved by City Council. City Council is notified of all grant applications and any changes to contracts with the Department of Housing and Urban Development, the Commission's primary funding source. The Commission maintains its own accounting records and bank accounts. The City provides limited, special purpose financial support to the Commission, subject to request and Council approval, and is contingently liable for its debt.

SmartZone Local Development Finance Authority (SmartZone LDFA). The SmartZone LDFA was established in accordance with the authority granted under Public Act 248 of 2000 respectively by the cities of Ann Arbor and Ypsilanti in June 2002. It was established to encourage high tech business investment within the boundaries of the SmartZone, comprising portions of City of Ann Arbor and the City of Ypsilanti, and the funding of the SmartZone through a Local Development Financing Authority. The boundaries for this LDFA are defined as the combined DDA's of the two cities. The governing body consists of a nine-member board of directors of which six members are appointed by the Ann Arbor City Council and three members are appointed by the Ypsilanti City Council. The LDFA operates under bylaws initially approved by Ann Arbor and Ypsilanti City Councils. The LDFA's primary source of funding is from Tax Increment Financing revenues. Presently, TIF revenue is generated only within the geographic boundaries of the Ann Arbor DDA. The City approves the budget and maintains the accounting records for the SmartZone LDFA.

The City is responsible for managing and financing many of the services for its citizens. The service areas include: Community Services, Financial Services, Safety Services, and Public Services.

## FACTORS AFFECTING FINANCIAL CONDITIONS

The information presented in the financial statements should be considered on a broad perspective within the specific environment of the City.

### **Local Economy**

The City remains in good financial condition, as is demonstrated by the financial statements and schedules included in this report. As an indication of economic strength, the assessed value of the taxable property (2007) increased by 5.7% over the 2006 valuation. The City receives a portion of the tax revenue generated to assist in funding its operations.

The City provides a full range of services including: police, fire, refuse collection and disposal, recycling collection and processing, recreation, social services by contract, public improvements, planning and zoning, and general administrative services. The citizens and transients of the City enjoy these services. The City is surrounded by three higher educational centers 1) The University of Michigan, 2) Concordia College, and 3) Cleary College. Additionally, located within a 10-mile radius are two other higher educational centers. Over 69% of the residents have completed four or more years of college.

The City of Ann Arbor has the largest population base in Washtenaw County and serves as the County Seat. The U.S. Census Bureau identified 115,092 residents in Ann Arbor, representing 35% of the population base in Washtenaw County. The median household income of our citizens is \$41,233. Personal income in the City has risen in recent years, which is an indication of a healthy economy.

The City is endowed with several major corporations located within its boundaries such as Borders and Google. In addition, Ann Arbor is home to one of the largest employers in the County, the University of Michigan that employs 23,016 people. Ann Arbor is also known for its excellent technology infrastructure that has attracted several large technology firms to the area.

Ann Arbor is accessible by three major Interstate highways connecting Detroit to the east, Chicago to the west, the Upper Peninsula to the north, and Ohio to the south.

### **Budget Process**

The City Administrator is required by City Charter to prepare and submit an annual budget to City Council. This budget is prepared on the modified accrual basis and is adopted by City Council as required by the State of Michigan. Budgetary control is maintained at the service area level for the General Fund. The City Administrator is authorized to transfer budgeted amounts within the General Fund service areas. Budgetary control for all other funds is maintained at the fund level. Revisions to a service area total of the General Fund or to the fund total must be approved by City Council.

### **Long-term Financial Planning**

The City Council and City Administrator are committed to strategies designed to ensure the long-term financial health of the City. Facing legal and political limits on the amount of property taxes that can be levied in Ann Arbor, in 2002, the City Council provided the newly hired administrator with instructions to improve upon the cost reduction steps that began with the 2001-2002 budget cycle. From a high of 1,024 full-time equivalent (FTE) positions approved in the 1999-2000 budget, the current year fiscal plan includes only 803 FTE positions. Timely execution of current plans will have a new Justice Annex to City Hall in place by 2012.

### Cash Management Policies and Practices

Cash balances are invested according to the City's investment policy and State law. Certain cash balances are pooled in an investment fund. The cash resources of the Pension Trust Fund and certain other funds are invested separately. Short-term investments are generally restricted to: 1) certificates of deposit; 2) commercial paper of corporations rated A-1 and P-1; 3) U.S. Treasury bills; and 4) savings accounts. U.S. Treasury notes are usually purchased with cash available for longer periods of time. Maturities are intended to correspond with cash flow needs.

For fiscal year 2008, the accounting return on investments (realized and accrued income and gains plus accretion and amortization of premiums and discounts) on the pooled investment portfolio was 4.17%. The market rate of return (which reflects market adjustments) was 2.25%.

### Risk Management

As permitted by State law, the City is self-insured (up to certain limits) for employee medical expenses, unemployment claims, general liability, and property damage. Funding for claims and insurance is provided through an Internal Service Insurance Fund. This fund receives revenues from the operating accounts. The City contracts with one provider to administer the medical program for its employees and retirees. In addition, the City contracts with one provider to administer the workers' compensation program.

### Pension and Other Post-employment Benefits

The City provides a defined benefit pension plan and post-employment healthcare benefit plan for all permanent employees. The pension system is administered by a nine member Trustee Board and an Executive Director. The net assets of the defined benefit pension plan on June 30, 2008 were \$410,416,696, and the post-employment healthcare plan was \$63,792,443. The actuarial valuation, applicable to the defined benefit pension plan, continues to reflect the plan is adequately funded at 99.6%, as of the June 30, 2008 valuation.

## AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Ann Arbor for its comprehensive annual financial report for the fiscal year ended June 30, 2007. This was the twenty-second consecutive year that the City has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Sincerely,

Roger W. Fraser,  
City Administrator

# Certificate of Achievement for Excellence in Financial Reporting

Presented to

City of Ann Arbor  
Michigan

For its Comprehensive Annual  
Financial Report  
for the Fiscal Year Ended  
June 30, 2007

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and  
Members of the City Council  
City of Ann Arbor  
Ann Arbor, Michigan

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, the aggregate discretely presented component units, and the aggregate remaining fund information of City of Ann Arbor, Michigan, as of and for the year ended June 30, 2008, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Ann Arbor Housing Commission, which represents 41% and 44%, respectively, of the total assets and revenues of the component units. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Ann Arbor Housing Commission, is based on the report of the other auditors.

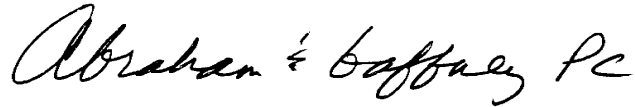

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, the aggregate discretely presented component units, and the aggregate remaining fund information of City of Ann Arbor, Michigan, as of June 30, 2008, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 10, 2008, on our consideration of the City of Ann Arbor's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and important for assessing the results of our audit.

The management's discussion and analysis, budgetary comparison information, and employee benefit disclosures, as identified in the table of contents, are not required parts of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Ann Arbor's basic financial statements. The introductory section and accompanying other supplementary information, as identified in the table of contents, is presented for the purpose of additional analysis and is not a required part of the basic financial statements. Except for the statistical section, other supplementary information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory and statistical sections are unaudited and we express no opinion on them.

A handwritten signature in black ink that reads "Abraham & Gaffney PC". The signature is written in a cursive, flowing style.

ABRAHAM & GAFFNEY, P.C.  
Certified Public Accountants

December 10, 2008

As management of the City of Ann Arbor, Michigan, we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal years ended June 30, 2008 and June 30, 2007. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 1-4 of this report.

## FINANCIAL HIGHLIGHTS

- The City's financial statements are prepared using two different accounting standards resulting in fund financial statements and government-wide statements.
- Government-wide financial statements are comprised of governmental activities and business-type activities. Governmental activities include General Fund activities such as Public Safety and Parks and Recreation. Business-type activities include proprietary funds such as Water, Sewer, and Solid Waste.
  - In total, the assets of the City exceed its liabilities by \$929,703,578 at the close of the most recent fiscal year.
    - \$703,125,814 is invested in Capital Assets, net of related debt;
    - \$94,535,845 is restricted for specific purposes, such as capital projects;
    - \$132,041,919 is unrestricted and may be used to meet the government's ongoing obligations to citizens and creditors, subject to the purpose of the fund in which they are located. This balance is comprised of \$30,524,341 in governmental activities and \$101,517,578 in business-type activities.
  - The City's total net assets increased by \$30,037,678 during the year, primarily due to increases in capital assets, favorable budget variances, and preservation of assets to reserve for future infrastructure needs.
  - The City's total bonded debt increased by \$34,706,282, (new issues less retirements), during the current fiscal year.
- Fund financial statements are comprised of 44 governmental funds and 8 proprietary funds. Governmental funds include the General Fund, Street Repair Millage Fund, Open Space and Parkland Preservation Fund and other special revenue and debt service funds.
  - At the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$103,972,400. The increase of \$2,328,506 in fund balance is primarily due to favorable budget variances.
  - Of the fund balance amount, \$87,463,497 is unreserved and may be used to meet the government's ongoing obligations to citizens and creditors, subject to the purpose of the fund in which they are located.
  - The City's major funds, the General Fund (\$19,561,545), the Street Repair Millage Fund (\$17,042,310) and the Open Space and Parkland Preservation Fund (\$17,633,154) account for 62% of this unreserved balance. The remaining amount is represented across the other 41 non-major funds.
  - The General fund recognized an addition to fund balance of \$3,384,308. At the end of the current fiscal year, unreserved general fund balance was 25.9% of the total general fund expenditures.

## OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of a series of financial statements: 1) management discussion and analysis (this section), 2) government-wide financial statements, 3) fund financial statements, and 4) notes to the financial statements.

## GOVERNMENT-WIDE STATEMENTS

The government-wide statements are designed to provide readers with an overview of the City's financial health as a whole, similar to those used in the private-sector companies. The two components of the government-wide statements include:

- The Statement of Net Assets is the difference between assets and liabilities, which can be used as an indicator of the City's financial health, or position. This statement includes all of the City assets and liabilities.
- The Statement of Activities provides information about the City activities as a whole, as it relates to the City's revenues and expenses. The statement of activities accounts for revenues and expenses when they occur, regardless of when cash is received or paid. This statement indicates whether the City's revenues exceed its expenses, which is another way to monitor the overall health of the City.

The Statement of Net Assets and the Statement of Activities, contain information in the following three categories:

- Governmental activities - All of the City's basic services such as police, fire, public works, and general administration are included in governmental activities. Property taxes, fees and charges, state shared revenues, and state and federal grants finance most of these activities.
- Business-type activities - Business-type activity areas include water, sewer and stormwater systems, parking facilities, market, golf courses, solid waste and an airport. The City assesses fees, taxes and charges to cover the cost of services provided in these business-type activities.
- Component units - Included in the component units for the City are the Downtown Development Authority, the Smart Zone Local Development Finance Authority and the Ann Arbor Housing Commission. Although the component units are separate legal entities, the City is financially responsible for them. The Housing Commission provides low-income housing to City residents. The City provides limited, special purpose financial support to the Commission and is contingently liable for its debt.

The government-wide statements can be located on pages 21-23 of this report.

## FUND FINANCIAL STATEMENTS

The fund financial statements provide detailed information about the City's most significant funds, not the City as a whole. The City uses the fund financial statements to account for specific funding sources and its spending patterns. Some funds are required to be established by State law and by bond covenants. The City Council establishes other funds to control and manage funds for particular purposes or to show it complies with legal requirements. The fund financial statements are divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

## Governmental funds

Most of the City's basic services are reported in the governmental funds, which focus on how cash flows in and out of those funds and its balances at year-end that are available for spending/reserve purposes. The governmental funds provide a detailed short-term view of the City's general operations and the basic services it provides. In addition, it assists management in the assessment of whether there are more or fewer resources, which can be spent on future City programs.

Because the focus of governmental funds is narrower than that of governmental-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains forty-four individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General, Street Repair Millage and Open Space and Parkland Preservation funds. Data from the other forty-one governmental funds are combined in a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The basic governmental fund financial statements can be located on pages 24-29 of this report.

#### Proprietary funds

The City maintains fifteen different proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its water, storm and sanitary sewer operations. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for its central stores, fleet services, park services headquarters, information technology, project management, insurance funds and Wheeler Center. Because internal funds benefit predominantly governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water, sanitary sewer operations, parking system, market, golf courses, airport, stormwater system, and solid waste, each of which are considered major funds of the City. The basic proprietary fund financial statements can be located on pages 30-34 of this report.

#### Fiduciary funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. The City is the trustee, or fiduciary, for certain assets held on behalf of others. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. Fiduciary funds combining statement information is contained in the combining section of the CAFR. The basic fiduciary fund financial statements can be located on pages 35-36 of this report.

### ADDITIONAL INFORMATION

#### Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 37-82 of this report.

#### Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information. This is limited to the major fund budgetary comparisons and a schedule concerning the City's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found on pages 83-92 of this report.

The combining statements referred to earlier in connection with non-major governmental funds and internal service funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be located on pages 93-123 of this report.

## FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

The government-wide financial analysis focuses on the net assets and changes in net assets of the City's governmental and business-type activities. As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. As the following table demonstrates, the City's assets exceeded its liabilities by \$929,703,578 at June 30, 2008 compared to \$899,665,900 at June 30, 2007.

<b>City of Ann Arbor</b>						
<b>Net Assets</b>						
<b>Comparative Schedule - June 30, 2008 and 2007</b>						
	<b>Governmental</b>		<b>Business-type</b>		<b>Total</b>	
	<b>Activities</b>		<b>Activities</b>			
	<b>June 30, 2008</b>	<b>June 30, 2007</b>	<b>June 30, 2008</b>	<b>June 30, 2007</b>	<b>June 30, 2008</b>	<b>June 30, 2007</b>

By far the largest portion of the City's net assets reflects its investment in capital assets (i.e., land, buildings, vehicles, equipment and infrastructure), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net assets at June 30, 2008 (\$94,535,845) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net assets of \$132,041,919 may be used to meet the government's ongoing obligations to citizens and creditors. The increase in Restricted Net Assets from \$93,061,658 in 2007 to \$94,535,845 in 2008 is due to a decrease in Restricted for Capital Projects due to the completion of the construction of the new maintenance facility during fiscal year 2008. This is offset by an increase in Restricted for Debt Service in the business type activities.

Long-term liabilities have increased from 2007 to 2008 due to two new bond sales. The first one for the Water Supply System (\$23,375,000) and one for the Sewage Disposal System (\$24,550,000). In addition, other liabilities have increased from 2007 to 2008 due to increases in Accounts Payable for a construction project at the Wastewater Treatment Plant and a reclassification of Estimated claims payable to non-current liabilities.

At the end of the current fiscal year, the City is able to report positive balances in all three categories of net assets, both for the government as a whole, as well as for its separate governmental and business-type activities.

The City's net assets increased by \$30,037,679 during the current fiscal year and \$35,080,009 in the prior fiscal year.

Governmental activities for the City's net assets increased by \$15,764,097, accounting for 52% of the total growth in the net assets of the City. During fiscal year 2007, governmental activities increased by \$21,810,490 which is 62% of the total growth for fiscal year 2007. Key elements are as follows:

- Property taxes increased by approximately 7.0% in fiscal year 2008 in governmental activities and increased 5.6% in fiscal year 2007. The increase is attributable to increased taxable values and residential growth.
- Investment income increased approximately 13% in fiscal year 2008 due to a more favorable interest rate environment for Federal securities and a larger invested balance. In fiscal year 2007 investment income increased 88% due to a more favorable interest rate environment for Federal securities.
- The increase in Transfers comprised 13% of the increase. Transfers to the Street Repair Millage fund increased due to the nature of funding for the current year projects.

Expenses for governmental activities increased \$14,106,543 from 2007 to 2008. Key elements are as follows:

- Expenses for Public Safety increased by approximately \$5.6 million due to increased wages and benefits, and accrued compensated absences.
- Expenses for Public Works increased by approximately \$6.6 million primarily due to an increase in depreciation expense due to increased infrastructure.
- Expenses for Culture and Recreation increased by approximately \$2 million due to increased expenditures due to the new parks millage.

- Other - Public Transportation
- Debt service

Business-type activities. Business-type activities increased the City's net assets by \$14,273,582 for fiscal year 2008 and by \$13,269,519 for fiscal year 2007, accounting for 48% and 38% of the total growth in the government's net assets for the current year and prior year, respectively. Key elements of this increase are as follows:

- Charges for services for business-type activities have increased by \$3,948,291, or 8.5%, in the current year, primarily due to increased water, sewer and storm billing rates and an increase in solid waste revenues. In fiscal year 2007, charges for services decreased by \$207,908, or .4% compared to the prior year.
- Property tax revenue for the solid waste fund increased by \$552,523 or 5%, in the current fiscal year.
- Investment income increased \$631,735 or 1.6% due to a more favorable interest rate environment and a larger invested balance. In fiscal year 2007, investment income increased \$1,683,989 compared to the prior fiscal year due to a more favorable interest rate environment.
- Expenses only increased \$462,076, or .92%, in fiscal year 2008 primarily due to preservation of resources in anticipation of future projects. In fiscal year 2007, expenses increased \$2,469,873, or 5.2%, primarily due to increased payroll, healthcare and utility costs.

Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$103,972,400 at June 30, 2008 versus \$101,643,894 at June 30, 2007, an increase of \$2,328,506 in fiscal year 2008 compared to an increase of \$17,026,157 in fiscal year 2007. Of that amount, \$87,463,497 at June 30, 2008 and \$86,590,042 at June 30, 2007 constitutes unreserved fund balance, which is available for spending at the government's discretion.

The General fund is the chief operating fund of the City. At the end of the current fiscal year, unreserved fund balance of the general fund was \$19,561,545 at June 30, 2008 versus \$16,126,413 at June 30, 2007, while total fund balance was \$19,780,769 and \$16,396,461 at June 30, 2008 and 2007, respectively. As a measure of the general fund's liquidity, it may be useful to compare unreserved fund balance to total fund expenditures. Unreserved fund balance represents 26 percent at June 30, 2008 and 22 percent at June 30, 2007 of total general fund expenditures. The fund balance of the City's general fund increased by \$3,384,308 during the current fiscal year in comparison to an increase of \$3,947,756 during the prior fiscal year. For fiscal year 2008, this is attributable to both cost savings and higher than expected revenues for investment income. For fiscal year 2007, this is attributable to both cost savings and higher than expected revenues for state-shared revenue and investment income.

With respect to other governmental funds, the City added four new special revenue funds at the start of the fiscal year and closed one fund. The new funds are Art in Public Places Fund, 350 S. Fifth Ave. Project Fund, Senior Center Endowment Fund and the Park Maintenance and Capital Improvement Fund. The Art in Public Places Fund is used to account for funds provided by capital improvements projects for public art equal to one percent of the construction costs, with a maximum of \$250,000 per project. The 350 S. Fifth Ave. Project Fund is used to account for the funding set aside for the specified project. The Senior Center Endowment Fund is used to account for funds donated to the Senior Center. The Park Maintenance and Capital Improvement Fund is used to account for funds derived from property tax millage earmarked for maintenance and capital improvements of the parks system. This new fund resulted in the closure of the Park Maintenance and Repair Millage Fund.

Proprietary funds. The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the water, sanitary, storm sewer, parking system, market, golf courses, solid waste and airport, at the end of the year amounted to \$101,517,578. The water, sewer, market, golf courses, airport, stormwater system and solid waste funds had an increase in net assets for the year of \$14,319,137, whereas, the parking system fund had a decrease of \$45,555. Other factors concerning the finances of these funds have been addressed in the discussion of the City's business-type activities.

#### General Fund Budgetary Highlights

Differences between the original and final budgets for expenditures resulted in a 1.7% increase in fiscal year 2008 compared to a 1.1% increase in fiscal year 2007. The General Fund revenues exceeded its expenditures by \$3,384,308.

#### Capital Asset and Debt Administration

Capital assets. The City's investment in capital assets for its governmental/business-type activities as of June 30, 2008 was \$900,610,663 compared to \$881,700,139 at June 30, 2007 (net of accumulated depreciation). This investment in capital assets includes land, buildings, infrastructure, improvements, machinery and equipment and construction in progress. The total increase in the City's investment in capital assets for the current fiscal year was 2.14% compared to 5.56% in fiscal year 2007. Major capital asset events during the fiscal year 2008 included an increase in land purchases (\$10,039,472) and an increase in infrastructure (\$8,860,094). There was a significant decrease in the construction work in process and increase in Buildings due to the Maintenance Facility now being put into service and removed from work in process. Additional information on the City's capital assets can be located in note 5 on pages 53-54 of this report.

Long-term debt. At the end of the current fiscal year, the City had total bonded debt outstanding of \$187,143,474. Of that amount, \$92,324,850 comprises debt backed by the full faith and credit of the City. The remainder of the City's debt represents bonds secured solely by specified revenue sources (i.e., revenue bonds). Additional information on the City's long-term debt can be found on pages 59-75.

The City's total debt increased by \$34,706,282 or 21.32 percent during the fiscal year. The City issued new debt during the year as follows:

#### New Bonds

- Water Supply System Series 2008-A \$23,375,000
- Sewage Disposal System Series 2008-A \$24,550,000

The Water Supply System bonds have a Standard & Poor's rating of AA- and a Moody's rating of Aa3. The Sewage Disposal System bonds have a Standard & Poor's rating of AA+ and a Moody's rating of Aa3. These issuances were insured.

State statutes limit the amount of the general obligation debt a governmental entity may issue to 10 percent of its total assessed valuation. The current debt limitation for the City is \$473,620,768, which is significantly in excess of the City's outstanding general obligation debt.

Additional information on the City's long-term debt can be located in note 9 of this report.

#### Economic Factors and Next Year's Budgets and Rates

The following factors were considered in preparing the City's budget for fiscal year 2009:

- Property tax revenues are budgeted to increase 2.01 percent in fiscal year 2009.
- Average salary costs were projected to moderately increase, up to 2.5 percent, in fiscal year 2009.
- Healthcare costs were projected to increase 7.2 percent in fiscal year 2009, due to changes in premium costs and claims history.
- Pfizer closed their Global Research and Development site located in the City of Ann Arbor during fiscal year 2007. At this time, the potential financial impact for fiscal year 2009 has been projected to be close to \$1 million.

#### Contacting the City's Financial Management

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report, requests for additional financial information or complete financial statements of the individual Component Units should be addressed to the City of Ann Arbor Financial and Administrative Services-Accounting Services, 100 North Fifth Avenue, P.O. Box 8647, Ann Arbor, Michigan 48107-8647.

CITY OF ANN ARBOR  
 RECONCILIATION OF GOVERNMENTAL FUNDS BALANCE SHEET  
 TO THE STATEMENT OF NET ASSETS  
 June 30, 2008

Fund balances of governmental funds	\$ 103,972,400
Amounts reported for governmental activities in the statement of net assets are different because:	
Capital assets have not been included as financial resources in governmental fund activity.	809,800,498
Depreciation of capital assets.	(129,442,515)
Long-term debt and compensated absences are not due and payable in the current period and therefore have not been included in the governmental funds.	
Bonds payable	(57,973,417)
Compensated absences	(14,597,394)
Accrued interest payable for the current portion of interest due on bonds has not been reported in the governmental funds.	(748,007)
Deferred revenue in governmental funds is susceptible to full accrual on the entity-wide statements.	894,931
Internal service funds are used by management to charge the costs of certain activities, such as equipment management and self-insurance, to individual funds. The assets and liabilities of the internal service funds must be added to the statement of net assets.	<u>20,358,457</u>
Net assets of governmental activities	<u>\$ 732,264,953</u>

CITY OF ANN ARBOR  
 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,  
 AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS  
 TO THE STATEMENT OF ACTIVITIES  
 FOR THE YEAR ENDED JUNE 30, 2008

Net change in fund balances - total governmental funds	\$	2,328,506
<p>Amounts reported for governmental activities in the statement of activities differs from the amounts reported in the statement of revenue, expenditures, and changes in fund balances because:</p>		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the costs of those assets is allocated over their estimated useful lives as depreciation expense.		24,197,824
Depreciation in the current period.		(9,495,549)
Governmental funds report revenue from sale of assets. However, an adjustment is needed to reflect loss on sale of capital assets		(3,226,652)
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.		3,175,000
Accrued Interest for Debt. This is the net change in accrued interest for the current period.		59,678
Amortization of bond discount is an expense on statement of activities		(9,028)
The changes in accrual for compensated absences expenses reported in the statement of activities require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		(1,863,581)
Deferred revenue in governmental funds is susceptible to full accrual on the entity-wide statements.		(483,410)
Internal service funds are used by management to charge the costs of certain activities, such as equipment management and self-insurance, to individual funds. The net revenues (expenses) of the internal service funds is reported with governmental activities.		1,081,308
Change in net assets of governmental activities	\$	15,764,096

## CITY OF ANN ARBOR

NOTES TO FINANCIAL STATEMENTS  
For the Year Ended June 30, 2008

## 1. SIGNIFICANT ACCOUNTING POLICIES

**A. FINANCIAL REPORTING ENTITY**

The City of Ann Arbor, Michigan (the City) was incorporated in 1851. On April 9, 1956, a City Charter (home rule) was ratified by electors in accordance with Michigan law. The City operates under a Council-Administrator form of government and provides the following services as authorized by its charter: public safety (police, fire, and building inspection), traffic control and street maintenance, refuse collection, water and wastewater, parks and recreation, public improvements, planning and zoning, airport, urban redevelopment and housing, golf courses, and general administrative services. The City's population is approximately 115,092 people within an area of 28.6 square miles. The component units discussed below are included in the City's financial reporting entity because of the significance of their operational or financial relationships with the City. In accordance with generally accepted accounting principles and Governmental Accounting Standards Board (GASB) Statement No. 14, "*The Financial Reporting Entity*," (as amended by GASB Statement No. 39), these financial statements present the City (the primary government) and its component units. The criteria established by the GASB for determining the reporting entity includes financial accountability and whether the financial statements would be misleading if data were not included.

**Blended Component Unit.** The Ann Arbor Building Authority is presented as a blended component unit. Commissioners of the Authority are appointed by the Mayor and confirmed by City Council. Although it is legally separate from the City, the Authority is reported as if it were part of the primary government because its sole purpose is to issue revenue bonds to finance major capital construction by the City.

**Discretely Presented Component Units.** The Component Unit columns in the government-wide financial statements include the financial data of the City's other Component Units. They are reported in separate columns to emphasize that they are legally separate from the City. The following Component Units are included in the reporting entity because the primary government is financially accountable and is able to impose its will on the organization.

Downtown Development Authority (DDA). The DDA was created to finance rehabilitation and redevelopment in the downtown area. Commissioners of the DDA are appointed by the Mayor and approved by City Council. Development plans are approved by Council and Council must approve all modifications to the plan. The DDA's primary source of funding is Tax Increment Financing revenues. Bonds secured by those revenues are issued by the City on behalf of the DDA, which does not have the ability to issue debt. During the fiscal year, the DDA paid \$2 million to the City as part of an agreement between the City and DDA. Also, during the fiscal year the DDA transferred \$4.3 million for debt service payments and other transfers for maintenance. The DDA issues separate audited financial statements.

Ann Arbor Housing Commission. The Housing Commission was created to provide low-income housing for City residents. Commissioners of the Housing Commission are appointed by the Mayor and approved by City Council. City Council is notified of all grant applications and any changes to contracts with the Department of Housing and Urban Development, the Commission's primary funding source. The Commission maintains its own accounting records and bank accounts. The City provides limited, special purpose financial support to the Commission, subject to request and Council approval, and is contingently liable for its debt. The Housing Commission issues separate audited financial statements.

## NOTES TO FINANCIAL STATEMENTS (Continued)

## 1. SIGNIFICANT ACCOUNTING POLICIES (continued)

**A. FINANCIAL REPORTING ENTITY (continued)**

SmartZone Local Development Finance Authority (SmartZone LDFA). The SmartZone LDFA was established in accordance with the authority granted under Public Act 248 of 2000 respectively by the cities of Ann Arbor and Ypsilanti in June 2002 to encourage high tech business investment within the boundaries of the SmartZone, comprising portions of City of Ann Arbor and the City of Ypsilanti, and the funding of the SmartZone through a Local Development Financing Authority. The LDFA provides financing through a tax capture mechanism within a specific district. Presently, TIF revenue is generated only within the geographic boundaries of the Ann Arbor DDA. The governing body consists of a nine-member board of directors of which six members are appointed by the Ann Arbor City Council and three members are appointed by the Ypsilanti City Council. The LDFA operates under bylaws initially approved by Ann Arbor and Ypsilanti City Councils. The City approves the budget and maintains the accounting records for the SmartZone LDFA.

Separate combining statements for the discretely presented Component Units are not presented as each Component Unit is shown as a separate column on the government wide financial statements. Complete financial statements of the individual Component Units can be requested from the City of Ann Arbor Finance Department. With respect to SmartZone LDFA, no separate financial statements are necessary as the financial activities are contained in one fund.

**Related Organizations.** The Ann Arbor Transportation Authority (AATA) and the Ann Arbor Economic Development Corporation (EDC), are not included in the financial reporting entity. The members of the governing board of each are appointed by the Mayor and confirmed by the City Council, but the City's accountability for these organizations does not extend beyond making the appointments. The EDC, whose purpose is to foster business development within the City, and which has issued bonds bearing the City's tax-exempt status (for which the City is not contingently liable), had, as of June 30, 2008, assets and a fund balance of \$4,502.

**B. DESCRIPTION OF CITY OPERATIONS AND FUND TYPES**

The accounts of the City are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. Governmental Accounting Standards Board Statement #34, (hereafter known as GASB #34) sets forth minimum criteria (percentage of the assets, liabilities, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. The non-major funds are combined in a column in the fund financial statements and detailed in the combining section. The City reports the following major funds:

**Governmental Funds.**

General Fund. This fund is the general operating fund of the City; it is used to account for all financial resources not required to be accounted for in another fund.  
Street Repair Millage. This fund is used to account for the proceeds of a special millage to repair streets.  
Open Space and Parkland Preservation Millage Fund. This fund is used to account for funds derived from property tax millage and bond proceeds earmarked for parks acquisition and development rights for open space.

## NOTES TO FINANCIAL STATEMENTS (Continued)

## 1. SIGNIFICANT ACCOUNTING POLICIES (continued)

**B. DESCRIPTION OF CITY OPERATIONS AND FUND TYPES (continued)****Proprietary Funds.**

Water Supply System - To account for the provision of treated water of the City and some township residents.

Sewage Disposal System - To account for the collection and treatment of the sewage of the City and some township residents.

Parking System - To account for the operations of the City's parking structures, lots and meters.

Market - To account for the costs of operating the City's Farmers' Market.

Golf Courses - To account for the operation of the City's two 18-hole golf courses.

Airport - To account for the operation of the City's airport including the rental of hangars and tie-down space.

Stormwater Sewer System - To account for the collection and disposal of the City's stormwater.

Solid Waste - To account for the collection and disposal of the City's solid waste and recycling.

**Other Fund Types.**

**Internal Service Funds.** These funds are used to account for goods or services provided by the Central Stores, Fleet Services, Information Technology, Project Management, Insurance, Park Headquarters or Wheeler Center to service areas of the City on a cost-reimbursement basis.

**Employee Retirement/Benefits Funds.** To account for the accumulation of resources to be used for retirement pension and annuity payments. Resources are contributed by employees at rates fixed by law and by the City at amounts determined by an annual actuarial study.

**Permanent Fund.** To account for monies provided by a private bequest to finance tree planting and maintenance for the Elizabeth Dean Fund. The principal amount of the bequest is to remain intact and invested. Investment earnings are used for the above stated purposes.

**Agency Funds.** These funds are used to account for assets held by the City as an agent for individuals, private organizations, or other governments. Agency funds are, by nature, custodial; therefore, operation results are not measured. Such funds include: Current Tax, Delinquent Tax, Contractor's Retainage, Fifteenth District Court and Payroll.

## NOTES TO FINANCIAL STATEMENTS (Continued)

## 1. SIGNIFICANT ACCOUNTING POLICIES (continued)

**C. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS**

The basic financial statements include both government-wide (based on the City as a whole) and fund financial statements. While the previous financial reporting model emphasized fund types (the total of all funds of a particular type), in the new financial reporting model the focus is on either the City as a whole, or major individual funds (within the fund financial statements). Both the government-wide and fund financial statements (within the basic financial statements) categorize primary activities as either governmental or business-type. In the government-wide Statement of Net Assets, both the governmental and business-type activities columns (a) are presented on a consolidated basis by column, (b) and are reflected, on a full accrual basis, using the economic resource measurement focus, which incorporates long-term assets and receivables as well as long-term debt and obligations.

The government-wide Statement of Activities reflects both the gross and net costs per functional category (Police, Fire, Public Services, etc.), which are otherwise being supported by general government revenues (property taxes, certain intergovernmental revenues, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. The program revenues must be directly associated with the function (Police, Fire, Public Services, etc.) or a business-type activity. The operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants. Amounts reported as program revenue include 1) charges for services, 2) federal and state operating grants, and 3) special assessments.

The net cost (by function or business-type activity) is normally covered by general revenue (property taxes, intergovernmental revenues, interest income, etc.). Historically, the previous financial reporting model did not summarize or present net cost by function or activity.

The City does not currently employ an indirect cost allocation system. An administrative service fee is charged by the General Fund to the other operating funds, that is eliminated like a reimbursement (reducing the revenue and expense in the General Fund), to address administrative services (finance, personnel, purchasing, legal, etc.) provided.

This government-wide focus is more on the sustainability of the City as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. The fund financial statements are, in substance, very similar to the financial statements presented in the previous financial reporting model. Emphasis here is on the major funds in either the governmental or business-type categories. Non-major funds (by category) are summarized into a single column.

The major governmental funds in the fund financial statements are presented on a current financial resource and modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. This presentation is deemed most appropriate to (a) demonstrate legal and covenant compliance, (b) demonstrate the source and use of liquid resources, and (c) demonstrate how the City's actual experience conforms to the budget fiscal plan. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental activities column, a reconciliation is presented on the page following each statement, which briefly explains the adjustment necessary to transform the fund based financial statements into the governmental activities column of the government-wide presentation.

## NOTES TO FINANCIAL STATEMENTS (Continued)

## 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

**C. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (concluded)**

Internal service funds of the City (which provide services primarily to other funds of the City) are presented, in summary form, as part of the proprietary fund financial statement. Since the principal users of the internal services are the City's governmental activities, financial statements of internal service funds are consolidated into the governmental activities column when presented at the government-wide level. The costs of these services are allocated to the appropriate functional activity (Police, Fire, Public Services, etc.).

When appropriate, surplus or deficits in the Internal Service funds may be allocated back to customers at the entity-wide Statement of Activities.

The City's fiduciary funds (which have been redefined and narrowed in scope) are presented in the fund financial statements by type (pension and agency). Since, by definition, these assets are being held for the benefit of a third party (other legal governments, private parties, pension participants, etc.) and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

The focus of the Statement #34 model is on the City as a whole and the fund financial statements. The focus of the Fund Financial Statements is on the major individual funds of the governmental and business-type categories, as well as the fiduciary presentation, and the statements provide valuable information that can be analyzed and compared (between years and between governments) to enhance the usefulness of the information.

**D. BASIS OF ACCOUNTING**

The modified accrual basis of accounting is used by all governmental fund types. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e. when they become both measurable and available). *Measurable* means the amount of the transaction can be determined and *available* means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Major sources of revenue considered susceptible to accrual are community development grants, state shared revenues and grants, delinquent property taxes collected during the fiscal year or within a period of 60 days thereafter, and interest on investments.

Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt are recorded as fund liabilities when due or when amounts have been accumulated in the debt service fund for payments to be made early in the following year. The government-wide financial statements and the proprietary, fiduciary and component unit financial statements are presented on an accrual basis of accounting. The governmental funds in the fund financial statements are presented on a modified accrual basis.

In applying the "susceptible to accrual" concept to intergovernmental revenues pursuant to GASB Statement #33 (the City may act as either provider or recipient), the provider should recognize liabilities and expenses and the recipient should recognize receivables and revenue when the applicable eligibility requirements including time requirements, are met. Resources transmitted before the eligibility requirements are met, should, under most circumstances, be reported as advances by the provider and deferred revenue by the recipient.

## NOTES TO FINANCIAL STATEMENTS (Continued)

## 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

**D. BASIS OF ACCOUNTING (concluded)**

The City reports deferred revenue on its balance sheet. Deferred revenues arise when a potential revenue does not meet both the *measurable* and *available* criteria for recognition in the current period. Deferred revenues also arise when resources are received by the government before it has a legal claim to them, as when grant monies are received before qualifying expenditures are incurred. In subsequent periods, when both revenue recognition criteria are met, or when the City has a legal claim to the resources, the liability for deferred revenue is removed from the balance sheet and revenue is recognized.

The measurement focus of the governmental funds is based on determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than net income determination.

The Enterprise and Fiduciary Funds are maintained on the accrual basis. These Funds' revenues are recognized when earned, and expenses recorded when incurred. Unbilled Water and Sewer Fund utility service provided is recorded as receivables and revenue at year-end. The measurement focus for enterprise funds is based on cost of service and maintenance of capital. Enterprise funds follow Generally Accepted Accounting Principles (GAAP) prescribed by the Governmental Accounting Standards Board (GASB) and all Financial Accounting Standards Board standards issued prior to November 30, 1989. The City also has the option of following subsequent private-sector guidance for business-type activities and enterprise funds to the extent that the guidance does not contradict guidance of the GASB. The City has elected not to follow subsequent private-sector guidance.

**E. ADDITIONAL INFORMATION**

**Budgetary Accounting Controls.** The City Administrator is required by City Charter to prepare and submit an annual budget to City Council. A budget is prepared for the General Fund, Debt Service Funds and Special Revenue Funds. These budgets are prepared on the modified accrual basis and are adopted by City Council as required by the State of Michigan. Budgetary control is maintained at the departmental level for the General Fund. The City Administrator is authorized to transfer budgeted amounts within the General Fund departments. Budgetary control for the Debt Service Funds and Special Revenue Funds is maintained at the fund level. Revisions to a department total of the General Fund or to the fund total of a Special Revenue Fund must be approved by City Council; some supplemental budgetary appropriations, of immaterial size, were necessary during the fiscal year. At the close of each year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations. Any outstanding encumbrances are carried forward to the succeeding fiscal year. Enterprise, Internal Service, and Pension Trust Funds also have legally adopted budgets. Three Special Revenue Funds, 350 S. Fifth Ave. Project, Senior Center Endowment, and Local Forfeiture funds, do not have a legally adopted budget as the new funds were required at the end of the fiscal year but no expenditures were anticipated until fiscal year 2009.

**Investments.** Investments are stated at fair value in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*.

**Receivables and Payables.** Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances". Interfund balances at year-end relate to items accrued after year-end related to interfund transfers. These items are repaid immediately in the new year.

## NOTES TO FINANCIAL STATEMENTS (Continued)

## 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

**E. ADDITIONAL INFORMATION (continued)**

**Inventories.** Inventories of materials and supplies are stated at cost using the first-in, first-out method. The cost is accounted for as an expenditure in governmental funds and an expense in the proprietary funds at the time inventories are used.

**Capital Assets.** Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., road, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$2,500 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities, if any, is included as part of the capitalized value of the assets constructed. No such interest expense was incurred during the current fiscal year.

Capital assets of the primary government are depreciated using the straight line method over the following estimated useful lives:

<u>Type</u>	<u>Years</u>
Structures and improvements	40-50
Improvements other than buildings	20-99
Machinery, equipment and vehicles	3-15
Infrastructure	15-25

**Encumbrances.** Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting (under which purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation) is utilized in the governmental funds. Encumbrances outstanding at year-end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be honored during the subsequent year.

**Interfund Transactions.** During the course of normal operations the City has numerous transactions between funds, including expenditures and transfers of resources to provide services, construct assets, and service debt. The basic financial statements generally record such transactions as operating transfers. Operating subsidies are also recorded as transfers. Internal Service Funds are used to record charges for services to all City service areas and funds as operating revenue for the services provided. All City funds record payments to the Internal Service Funds as operating expenditures.

Certain funds remit payments for municipal service charges in lieu of taxes to the General Fund based on a pro rata share of general administrative overhead of the City government. Payments are recorded as revenue in the General Fund and as operating expense in Enterprise Funds.

## NOTES TO FINANCIAL STATEMENTS (Continued)

## 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

**E. ADDITIONAL INFORMATION (continued))**

**Compensated Absences.** The City accrues vacation pay, compensatory time off, severance pay for sick leave, and any salary-related payments for these compensated absences in accordance with GASB Statement No. 16, *Accounting for Compensated Absences*. The current obligations of all funds and the long-term obligations of Proprietary Funds are recorded in the respective funds. City employees are granted vacation time based on length of service. Most employees have the option of receiving compensatory time off in lieu of pay for overtime worked up to 40 hours. Sick pay is earned at the rate of one day per month, and unused sick days may be accumulated without limitation. An employee is paid, in most cases, a maximum 960 unused sick hours and the total of any remaining accumulated hours upon retirement or death. City policy provides for payment of unused vacation and compensatory time off, but not unused sick hours, to terminated employees. Paid time off that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Paid time off is accrued when incurred in proprietary funds and reported as a liability. For governmental funds, the current portion of the liability for compensated absences reflects only the unpaid balance of reimbursable unused leave for employees that terminated by the fiscal year end. In accordance with GAAP, for the governmental funds, in the Fund Financial Statements, the non-current portion of the compensated absences are considered long-term and therefore, are not a fund liability and represents a reconciling item between the fund level and government-wide presentations. In addition to the Proprietary Funds, the General Fund, and several nonmajor special revenue funds have been used to liquidate the liability for compensated absences.

**Self Insurance.** The City is self-insured for property, casualty, and employee benefit coverage. Costs of actual claims and estimated incurred but not reported claims, less any excess insurance coverage, are expensed in the Insurance Internal Service Fund at the time the liability is estimated.

**Reserves and Designations.** In the fund financial statements, reserves indicate portions of fund equity not appropriable for expenditures and/or legally segregated for a specific future use. Designations indicate tentative plans for financial resource utilization in a future period. Such plans are subject to change, and may never be legally authorized or result in expenditures. When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

**Grants and Other Intergovernmental Revenues.** Federal grants and assistance awards made on the basis of entitlement periods are recorded as intergovernmental receivables and revenues when entitlement occurs. All other grants are recorded as intergovernmental receivables and revenues when the related expenditures are incurred.

**Statements of Cash Flows.** The City presents Statements of Cash Flows for all proprietary fund types. These statements, which have been prepared utilizing the *direct method*, analyze the net increase or decrease in cash/cash equivalents by source. For purposes of the statement of cash flows, the City considers all highly liquid investments purchased with an original maturity of three months or less and the deposits in the investment funds to be cash equivalents.

**Use of Estimates.** The preparation of financial statements in conformity with generally accepted accounting principles requires management to make significant estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

## NOTES TO FINANCIAL STATEMENTS (Continued)

## 1. SIGNIFICANT ACCOUNTING POLICIES (Concluded)

**E. ADDITIONAL INFORMATION (concluded)**

**Operating Revenues and Expenses.** Proprietary funds distinguish operating revenue and expenses from nonoperating revenue and expenses. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's ongoing operations. The principal operating revenues of the City's enterprise and internal service funds are charges for services. The City also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for the enterprise and internal service funds include the cost of sales and service, administrative expenses and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as nonoperating revenues and expenses.

**Property Taxes.** Property tax revenue is derived pursuant to a tax increment financing agreement between the SmartZone LDFA and various applicable taxing districts. Real and personal property taxes are levied and attach as an enforceable lien on properties located within the boundaries of the tax increment-financing district. The City of Ann Arbor bills and collects the taxes on behalf of the SmartZone LDFA. Delinquent taxes on ad valorem real property are purchased by the County of Washtenaw. Property tax revenue is recognized in the year it is levied in both the government-wide financial statements and in the fund financial statements.

## 2. EQUITY IN POOLED CASH AND INVESTMENTS

The City maintains an investment pool for all City funds. Each fund's portion of the investment pool is displayed on the balance sheet as "Equity in Pooled Cash and Investments." The Consolidated Investment Fund is eliminated for financial reporting purposes. In addition, the cash resources of the Pension Trust Fund and certain other funds are invested separately. The following is a reconciliation of deposit and investment balances (including both pooled cash and investments as well as pension trust fund balances) as of June 30, 2008:

	Cash and Cash with fiscal agents	Equity in pooled cash and investments	Investments
	<u>                    </u>	<u>                    </u>	<u>                    </u>
Governmental activities	\$5,371,250	\$109,094,042	\$11,429,908
Business-type activities	10,930,383	70,786,470	40,159,852
Component units	6,048,147	578,699	12,373,471
Fiduciary funds	1,870,018	937,940	471,906,035
Totals	<u>\$24,219,798</u>	<u>\$181,397,151</u>	<u>\$535,869,266</u>
Total Equity in Pooled Cash and Investments		<u>\$717,266,417</u>	

## NOTES TO FINANCIAL STATEMENTS (Continued)

## 2. EQUITY IN POOLED CASH AND INVESTMENTS (continued)

U. S. Government Agencies	\$183,637,411
U. S. Treasury Bonds & Notes	59,567,320
Corporate Bonds and Notes	57,797,693
Commercial Paper	21,155,838
Municipal Bonds	670,129
Repurchase Agreements	14,975,867
Guaranteed Investment Contracts	13,448,605
Real Estate Participation Interest	<u>48,882,267</u>
Total	<u>702,125,703</u>
Mutual Funds - unclassified as to risk	<u>15,140,714</u>
Total Investments	<u><u>\$717,266,417</u></u>

**Custodial Credit Risk for Deposits.** For deposits, custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to the government. At year end, the carrying amount of the City's deposits was \$25,963,015 and the bank balance was \$22,186,270. Of the bank balance, \$123,352 was covered by federal depository insurance. The remaining \$22,062,918 was exposed to custodial credit risk as it was uninsured and uncollateralized. The component units, Ann Arbor Housing Commission and Downtown Development Authority, are not included in these figures, nor are the 15<sup>th</sup> District Court funds as they provide this information in their separately audited financial statements.

The City's investment policy does not specifically address this risk, although the City believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all bank deposits. As a result, the City evaluates each financial institution with which it deposits City funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

**Investments.** Michigan statutes and City policy authorize the City to invest in U.S. Treasury Obligations, Federal Agency Securities, Federal Instrumentality Securities, Repurchase Agreements, Time Certificates of Deposit, Money Market Mutual Funds that limit assets of the fund to securities authorized in M.C.L. 129.91 as legal investments for a public corporation, Eligible Bankers Acceptances, Prime Commercial Paper, Obligations of the State of Michigan or any of its political subdivisions, Investment Pools, and Joint Interlocal Investment Ventures. Pension fund investment policy is governed by the Pension Trustees and makes additional allowances for investments in equities, long-term securities and other securities of relatively higher risk.

**Custodial Credit Risk for Investments.** For investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City's investment policy requires that investment securities be held in third-party safekeeping by a designated institution and that the safekeeping agent follow the procedure of delivery vs. payment. As of June 30, 2008, none of the City's investments, excluding the mutual funds which are not subject to custodial credit risk, were exposed to risk since the securities are held in the City's name by the counterparty.

## NOTES TO FINANCIAL STATEMENTS (Continued)

## 2. EQUITY IN POOLED CASH AND INVESTMENTS (continued)

**Credit Risk.** The City analyzes credit risk of banking institutions and issuers of securities prior to depositing or investing City funds. In addition to the restrictions placed on the City by Public Act 20 of 1943, the City's investment policy further requires that banks in which the City invests public funds must have maintained an average Highline Banking Data Services Rating of 30 or better for the four most recent reporting quarters. Securities purchased by the City always conform to the rating requirements set forth in Public Act 20. As of June 30, 2008, all of the City's investments in securities of U.S. agencies were rated AAA by Standard & Poor's and Aaa by Moody's. Investments in commercial paper were rated at least A-1 by Standard & Poor's and P1 by Moody's. The City also held investments in U.S. treasuries and money market mutual funds, which are not rated. All of the City's investments comply with its policy regarding the types of investments it may hold.

**Concentration of Credit Risk.** At June 30, 2008, the investment portfolio was concentrated as follows:

<u>Investment Type</u>	<u>Issuer</u>	<u>% of Portfolio</u>
U. S. Treasury Bonds & Notes		23.49%
U. S. Government Agencies	Federal Home Loan Bank	24.15%
	Federal Home Loan Mortgage Corporation	12.50%
	Federal National Mortgage Association	14.73%
	Federal Farm Credit Bank	16.82%
Commercial Paper	ING Funding	2.99%
Cash and Cash Equivalents		5.32%

The City's investment policy states that the amount of investments shall not exceed the following limits in each of the categories listed below as a percentage of the total portfolio.

- 50% in Prime Commercial Paper
- 30% in Eligible Bankers Acceptances
- 30% in Money Market Mutual Funds
- 20% in Time Certificates of Deposit
- 10% in Federal Agency Securities
- 10% in Obligations of the State of Michigan or any of its political subdivisions
- 10% in Investment Pools
- 10% in Joint Interlocal Investment Ventures

Tax funds collected on behalf of other taxing authorities and held pending disbursement are not subject to the diversification limits above. No more than 5% of the total portfolio shall be invested in any one issuer of commercial paper, eligible bankers acceptances or obligations of the State of Michigan or any of its political subdivisions.

## NOTES TO FINANCIAL STATEMENTS (Continued)

## 2. EQUITY IN POOLED CASH AND INVESTMENTS (continued)

**Interest Rate Risk.** As of June 30, 2008, maturities of the City's debt securities were as follows:

	City Investments	
	Fair Value	Weighted Average Maturity
U. S. Government Agencies	\$143,901,060	0.34 - 4.89 years
U. S. Treasury Bonds & Notes	46,557,524	0.09 - 2.78 years
Commercial Paper	21,155,838	0.02 - 0.31 years
Repurchase Agreements	14,975,867	N/A
Total	226,590,289	
Mutual Funds - unclassified as to risk	6,396,622	
Total Investments	\$232,986,911	

Of the above balances, \$92,523,135 of U.S. agencies securities were callable.

To the extent possible, the Treasurer shall match investments with anticipated cash flow requirements. The City will not invest in securities maturing more than seven years from the date of purchase, and the weighted average maturity of the portfolio shall not exceed 3.5 years.

**PENSION TRUST FUNDS**

The City of Ann Arbor's Employees' Retirement System trust funds (the "trust funds" or the "System") deposits and investments are maintained separately from the City's pooled cash and investments, and are subject to separate investment policies and state statutes. Accordingly, the required disclosures for the System's deposits and investments are presented separately.

**Deposits** - The System does not maintain any checking or other demand/time deposit accounts. Amounts reported as cash and cash equivalents in the statement of plan net assets are composed entirely of short-term investments in money market accounts.

**Investments** - The Michigan Public Employees Retirement Systems' Investment Act, Public Act 314 of 1965, as amended, authorizes the System to invest in stocks, government and corporate securities, mortgages, real estate, and various other investment instruments, subject to certain limitations. The Retirement Board has the responsibility and authority to oversee the investment portfolio. Various professional investment managers are contracted to assist in managing the System's assets. All investment decisions are subject to Michigan law and the investment policy established by the Retirement Board.

## NOTES TO FINANCIAL STATEMENTS (Continued)

## 2. EQUITY IN POOLED CASH AND INVESTMENTS (continued)

The System's investments are held in a bank-administered trust fund. Following is a summary of the System's investments as of June 30, 2008

U. S. Government Agencies	\$28,736,059
U. S. Treasury Bonds & Notes	13,009,796
Corporate Bonds and Notes	57,797,693
Municipal Bonds	670,129
Stocks - Common	301,990,573
Guaranteed Investment Contracts	13,448,605
Real Estate	48,882,267
	<hr/>
Total	464,535,122
	<hr/>
Mutual Funds - unclassified as to risk	7,370,913
	<hr/>
Total Investments	<u>\$471,906,035</u>

*Credit Risk.* The System's investment policy provides that its investments in fixed income securities be limited to those rated investment grade by a nationally recognized statistical rating organization. As of June 30, 2008 the System's investments in securities of U.S. agencies were all rated AAA by Standard & Poor's. The System's investments in corporate securities were rated by Standard & Poor's as follows:

**Pension Investments**

AAA	\$1,291,443
AA	4,207,976
A	15,126,027
BBB	6,391,073
BB	3,169,787
B	2,041,041
D	10,000
Not rated	4,562,956
	<hr/>
	<u>\$36,800,303</u>

## NOTES TO FINANCIAL STATEMENTS (Continued)

## 2. EQUITY IN POOLED CASH AND INVESTMENTS (continued)

*Custodial Credit Risk.* For investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, the System will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The System's investment policy requires that investment securities be held in trust by a third-party institution in the System's name. As such, although uninsured and unregistered, the System's investments are not exposed to custodial credit risk since the securities are held by the counterparty's trust department in the System's name. Short-term investments in money market funds are not subject to custodial credit risk.

*Concentration of Credit Risk.* The System's investment policy requires that the securities of any one company or government agency should not exceed 5% of the total fund and no more than 30% of the total fund should be invested in any one industry.

*Interest Rate Risk.* As of June 30, 2008, maturities of the System's debt securities were as follows:

	<u>Fair Value</u>	<u>Weighted Average Maturity (in years)</u>
U.S. treasuries	\$13,009,796	1.30
U.S. agencies	28,736,059	8.32
Municipal bonds	670,129	0.02
Corporate bonds	35,405,992	2.84
Domestic corporate securities	<u>1,394,311</u>	<u>0.49</u>
Total debt securities	<u>\$79,216,287</u>	
Portfolio weighted average maturity		12.97

**COMPONENT UNITS**

## Deposits and investments

*Custodial Credit Risk – Deposits.* Custodial credit risk is the risk that in the event of a bank failure, the DDA's deposits may not be returned. State law does not require and the DDA does not have a policy for deposit custodial credit risk. As of year end, \$492,427 of the DDA's bank balance of \$592,427 was exposed to custodial credit risk because it was uninsured and uncollateralized. For the deposits held at the City of Ann Arbor, it is impossible to determine custodial credit risk since the DDA's deposits are pooled with other City deposits.

## NOTES TO FINANCIAL STATEMENTS (Continued)

## 2. EQUITY IN POOLED CASH AND INVESTMENTS (continued)

*Custodial Credit Risk – Investment.* Following is a summary of the DDA's investments as of June 30, 2008:

U. S. Government Agencies	\$11,000,292
Uncategorized pooled investments	<u>3,777,714</u>
Total Investments	<u>\$14,778,006</u>

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the DDA will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. State law does not require and the DDA does not have a policy for investment custodial credit risk. \$3,777,714, of the investments listed above are unclassified as to custodial credit risk as the invested amount is part of an investment pool. \$11,000,292 of the investments above are uninsured and unregistered, with securities held by the agent in the Authority's name.

*Interest Rate Risk.* State law limits the allowable investments and the maturities of some of the allowable investments as identified in the list of investments above. The DDA does not have an investment policy that sets specific limits in excess of state law on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. For the U.S. Government Agencies investments, the total amount of \$11,000,292 has a maturity of one to seven years. None of the other investments are subject to investment rate risk.

*Credit Risk.* State law limits investments to specific government securities, certificates of deposits and bank accounts with qualified financial institutions, commercial paper with specific maximum maturities and ratings when purchased, bankers acceptances of specific financial institutions, qualified mutual funds and qualified external investment pools as identified in the list of authorized investments above. The DDA does not have an investment policy that sets specific limits in excess of state law on investment credit risk. As of June 30, 2008, all of the investments in U.S. Government Agencies were rated Aaa by Moody's.

*Concentration of Credit Risk.* State law limits allowable investments but does not limit concentration of credit risk as identified in the list of authorized investments above. The DDA does not have an investment policy that limits concentration of credit risk. All investments held at year- end are reported above. At June 30, 2008, 74% of the DDA's investments were concentrated in U.S. Government Agencies.

## 3. INTERFUND RECEIVABLES AND PAYABLES

	Due From Other Funds	Due To Other Funds
General Fund	<u>\$3,127,455</u>	<u>\$1,431,116</u>
Other Major Funds:		
Street Repair Millage	1,909,586	463,927
Open Space & Parkland Preservation	<u>56,622</u>	<u>13,020</u>
Total other major funds	<u>1,966,208</u>	<u>476,947</u>
Non Major Funds:		
Special Revenue Funds	724,307	1,053,872
Debt Service Funds	114,310	253,831
Capital Projects Funds	760	939
Permanent Fund	<u>897</u>	<u>5,046</u>
Total non major funds	<u>840,274</u>	<u>1,313,688</u>
Enterprise Funds:		
Water Supply System	187,148	738,836
Sewage Disposal System	171,981	1,471,403
Parking System	125	687,129
Market	6,521	2,277
Golf Courses	2,413	36,743
Airport	21,636	3,687
Stormwater Sewer System	27,945	650,319
Solid Waste	<u>361,172</u>	<u>201,976</u>
Total enterprise funds	<u>778,941</u>	<u>3,792,370</u>
Internal Service Funds	<u>1,353,733</u>	<u>1,052,490</u>
Total	<u>\$8,066,611</u>	<u>\$8,066,611</u>

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances". Interfund balances at year-end relate to items accrued after year-end related to interfund transfers. These items are repaid immediately in the new year.

## NOTES TO FINANCIAL STATEMENTS (Continued)

## 4. PROPERTY TAXES

Each July 1st the City property tax is levied and becomes a lien on the related property, the value of which is equalized by the State of Michigan and limited by Act 415 of 1994. The City's operating tax rate levied July 1, 2007, as controlled by the Headlee Amendment, Act 415 and City Charter, is 6.1682 mills. Other tax rates are as follows: Employee Benefits (2.0560), Refuse Collection (2.4670), Ann Arbor Transportation Authority (2.0560), Street Repair (1.9944), Parks Maintenance & Repair (1.0969), Open Space and Parkland Preservation Millage (0.4779), and Debt Service (0.4661). Real and personal property located in the City as of December 31, 2006 were assessed and equalized at \$6,145,712,020, representing 50% of estimated current value. Act 415 of 1994 limits annual increases in taxable value to 5% or the Consumer Price Index, whichever is less. The 2007 taxable value on February 29, 2008 was \$4,726,123,530. Property taxes are due July 31st of each year and any delinquent real property taxes are turned over to Washtenaw County for collection the following March 1st. The County pays municipalities from a revolving fund for delinquent real property taxes. Delinquent personal property taxes are negligible.

## 5. CHANGES IN CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2008 was as follows:

	Balance July 1, 2007	Additions	Retirements	Balance June 30, 2008
<b>Governmental Activities</b>				
Non-Depreciable Assets:

	<u>\$10,576,124</u>

## NOTES TO FINANCIAL STATEMENTS (Continued)

## 6. LEASES

**Operating Lease Obligations Payable.** The City is the lessee of various properties (primarily office and storage space, as well as parking facilities) under operating leases for periods through 2012. The expenses and related revenues in connection with the leases are recorded in the General, Special Revenue and Pension Trust Funds. The total rent expense for fiscal year 2008 was \$778,830. The following is a table of future minimum noncancellable lease payments by the City:

2009	\$823,318
2010	456,000
2011	456,000
2012	<u>228,000</u>
Total	<u>\$1,963,318</u>

The City as lessee has other lease arrangements, which have been appropriately accounted for as operating leases. Minimum lease payments payable on such leases are immaterial in amount.

**Operating Lease Obligations Receivable.** The City is the lessor of various parking, office and airport facilities under operating leases for periods through 2023. Revenues and the related expenses for these leases are recorded in the Enterprise Funds. The total rent revenue for fiscal year 2008 was \$331,495. The total revenue includes \$293,012 for cell towers, \$17,815 for office space, and \$20,668 for airport hangers. All related City assets are fully depreciated. The following is a table of future minimum noncancellable lease payments to the City:

2009	\$343,108
2010	342,728
2011	348,291
2012	270,949
2013	239,163
2014-2018	1,063,808
2019-2023	<u>214,561</u>
Total	<u>\$2,822,608</u>

The City as lessor has other lease arrangements which have been appropriately accounted for as operating leases. Minimum lease payments receivable on such leases are immaterial in amount.

## NOTES TO FINANCIAL STATEMENTS (Continued)

## 6. LEASES (Concluded)

**Capital Lease Obligations Payable.** The City has entered into certain lease agreements as lessee for financing the purchase of (primarily) various types of equipment, as well as several drain construction projects. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of the future minimum lease payments as of the date of their inception. The following is an analysis of the items recorded under capital leases as of June 30, 2008:

<u>Asset Type</u>	<u>Governmental Activities Assets</u>	<u>Enterprise Fund</u>
Equipment	\$457,600	\$195,977
Drains		3,016,913
	<u>457,600</u>	<u>3,212,890</u>
Less: Accumulated Depreciation		<u>(229,052)</u>
Net book value	<u>\$457,600</u>	<u>\$2,983,838</u>

The following is a schedule of the future minimum lease payments under these capital leases, and the present value of the net minimum lease payments at June 30, 2008:

<u>Year Ended June 30</u>	<u>Internal Service Fund</u>	<u>Enterprise Fund</u>
2009	\$424,480	\$352,485
2010		263,228
2011		256,802
2012		158,349
2013		159,912
2014-2018		678,202
2019-2023		510,340
2024-2028		303,201
Total minimum lease payments	<u>424,480</u>	<u>2,682,519</u>
Less: amount representing interest	<u>(13,640)</u>	<u>(349,723)</u>
Present value of future minimum lease payments	<u>\$410,840</u>	<u>\$2,332,796</u>

## NOTES TO FINANCIAL STATEMENTS (Continued)

## 7. TRANSFERS

A reconciliation of the interfund transfers is as follows:

	Transfers In	Transfers Out
General Fund	\$356,845	\$2,659,830
Street Repair Millage	2,708,646	147,577
Open Space & Parkland Preservation		1,189,817
Nonmajor governmental funds	5,814,417	3,336,865
Water Supply System	1,519,505	657,943
Sewage Disposal System	55,692	2,409,719
Golf Courses	1,647,137	
Airport		15,376
Stormwater System		946,474
Solid Waste	304,247	1,636,633
Internal Service Funds	1,441,023	847,278
	<u>13,847,512</u>	<u>13,847,512</u>
Total Transfers	<u>\$13,847,512</u>	<u>\$13,847,512</u>

Transfers are used to: (1) move unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations; (2) move revenues from the fund that is required to collect them to the fund that is required or allowed to expend them; and (3) move receipts restricted to or allowed for debt service from the funds collecting the receipts to the debt service funds as debt service payments become due.

## NOTES TO FINANCIAL STATEMENTS (Continued)

## 8. CONTINGENT LIABILITIES

**Litigation.** Various lawsuits are pending against the City, some of which are for substantial amounts. On the basis of opinions and information furnished by the City Attorney, it is the judgment of City management that the ultimate liability, if any, resulting from such lawsuits would not materially affect the financial position of the City.

**Landfill.** The City owns and maintains a closed landfill in full compliance with Michigan Department of Environmental Quality (MDEQ) requirements. The City had received approval for an onsite and (interim) offsite Remedial Action Plan (RAP) that has been implemented. This implementation included a slurry wall almost two miles in length enclosing most of the landfill. As part of these requirements, the City has posted a \$1,000,000 letter of credit to ensure compliance with the landfill cleanup regulations. The City is working on a final RAP and evaluating the feasibility of treating the collected landfill groundwater prior to discharge to the sanitary sewer. Treating the water onsite with discharge to surface or groundwater may reduce annual operating costs because of reduced payments for discharge to the sanitary system. Capital costs associated with the landfill cleanup are funded by a series of voter-approved bonds totaling \$28,000,000. Operating and maintenance costs for the closed landfill are funded out of the annual solid waste budget. Therefore, no liability has been accrued in the Statement of Net Assets. These costs will be funded through the City's earmarked solid waste (refuse collection) property tax levy. The projects to be accomplished are subject to major changes (both in the nature of the work to be accomplished and in the cost thereof) due to inflation, changes in technology or changes in regulatory requirements.

The City and DTE Energy have been working together on a methane gas project situated at the closed landfill. DTE Energy and/or its subsidiary has owned and operated the methane gas facility. The landfill gas is captured and delivered to a third party and utilized to generate electricity that is then sold to DTE Energy. Under the terms of the contract, after about ten years of operations, DTE Energy is opting out of the contract. The facility became the City's to own and operate on January 1, 2008.

**Grants.** Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, primarily the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the City expects such amounts to be immaterial.

## NOTES TO FINANCIAL STATEMENTS (Continued)

## 9. LONG-TERM OBLIGATIONS

The following is a summary of the governmental activities long-term debt obligations (including accrued compensated absences) for the year ended June 30, 2008:

	Governmental Activities					Total Principal	Governmental Activities Accrued Compensated Absences	Total Governmental Activities Debt
	Capital Projects Bonds	General Obligation Portion of Special Assessment Bonds	General Obligation Portion of Special Revenue Bonds	Special Assessment Bonds	Other Long-term Debt			
Bonds and other debt payable at July 1, 2007	\$32,954,947	\$616,813	\$23,266,875	\$800,753	\$3,500,000	\$61,139,388	\$14,186,299	\$75,325,687
Debt issued and other increases:								
Debt issued/accrued					451,200	451,200	5,801,279	6,252,479
Amortization of bond discounts	3,825	304	4,379	521		9,029		9,029
Debt retired and other decreases:								
Decrease in accrued compensated absences							(4,864,290)	(4,864,290)
Bond discounts								
Debt retired	(2,500,000)	(75,000)	(475,000)	(125,000)	(40,360)	(3,215,360)		(3,215,360)
Bonds and other debt payable at June 30, 2008	\$30,458,772	\$542,117	\$22,796,254	\$676,274	\$3,910,840	\$58,384,257	\$15,123,288	\$73,507,545

(Continued)

## NOTES TO FINANCIAL STATEMENTS (Continued)

## 9. LONG-TERM OBLIGATIONS (Continued)

The following is a summary of the business-type long-term debt obligations (including accrued compensated absences) for the year ended June 30, 2008:

	Business-Type Activities					Total Proprietary Fund Type Debt	Component Unit
	Ann Arbor Building Authority Bonds	Revenue Bonds	Other Long-Term Debt	Other Bonds	Accrued Compensated Absences		Downtown Development Authority Bonds
Bonds and other debt payable at July 1, 2007	\$24,710,000	\$62,040,000	\$5,734,180	\$4,962,110	\$3,269,644	\$100,715,934	\$4,192,890
Debt issued and other increases:							
Debt issued/accrued		47,925,000	1,122,485		723,952	49,771,437	
Debt retired and other decreases:							
Decrease in accrued compensated absences					(1,016,864)	(1,016,864)	
Debt refunded							
Debt retired	(1,810,000)	(4,805,000)	(426,129)	(352,054)		(7,393,183)	(1,157,946)
Bonds and other debt payable at June 30, 2008	\$22,900,000	\$105,160,000	\$6,430,536	\$4,610,056	\$2,976,732	\$142,077,324	\$3,034,944
Balance due within one year	\$1,710,000	\$5,305,000	\$514,909	\$505,056		\$8,034,965	\$1,199,944

(Continued)

## NOTES TO FINANCIAL STATEMENTS (Continued)

## 9. LONG-TERM OBLIGATIONS (Continued)

General Obligation Bonds are collateralized by the full faith and credit of the City; Other Long-Term Debt is collateralized by the revenues of the related funds or the full faith and credit of the City or General Fund appropriations. General Obligation Bonds' requirements will be met primarily through the debt service property tax levy. Special Assessment Bonds are serviced by the underlying special assessments. The Special Assessment Bonds are backed by the full faith and credit of the City to the extent that liens foreclosed against property involved in the special assessment districts are insufficient to retire the outstanding bonds.

Other obligations are as follows: Revenue Bonds are serviced by the Water Supply System (\$51,290,000) in bond principal at June 30, 2008; Sewage Disposal System (\$53,725,000) and Stormwater Disposal System (\$145,000). Other Long-Term Debt includes various long-term obligations (notes and contracts) paid from general operations and other sources. During fiscal year 2008, the City did not receive additional funds from the Michigan Municipal Bond Authority (MMBA) from the Drinking Water Revolving Fund. At June 30, 2008, the outstanding balance was \$382,891. During fiscal year 2008, the City received an additional \$1,122,485 from the MMBA from the Strategic Water Quality Initiatives Fund. At June 30, 2008, the outstanding balance was \$3,714,849. Revenue bonds are collateralized by the revenues of the related funds.

Other Bonds will be serviced from the revenues of the Downtown Development Authority for the Parking System (\$4,610,056). Various limitations and restrictions are contained in the various bond indentures. The City is in compliance with all significant limitations and restrictions.

Additionally, the City issued \$13,305,000 in refunding bonds to partially advance refund \$6,550,000 of the 1999 Ann Arbor Building Authority Bonds and \$6,700,000 of the 2000 Ann Arbor Building Authority Bonds. The net proceeds were used to purchase U.S. Government securities, which were deposited in an irrevocable trust with an escrow agent to provide for future debt service payments. As a result, the bonds are considered defeased and the liability for the bonds has been removed from the balance sheet. The City advance refunded the bonds to reduce its total debt service payments by \$812,682 over the next fourteen years and to obtain an economic gain (difference between the present value for the debt service payments on the old and new debt) of \$662,859. In accordance with GASB #23, *Accounting and Financial Reporting for Refunding of Debt Reported by Proprietary Activities*, the loss on bond refunding has been amortized over the life of the old debt or the new debt, whichever is shorter. As the old and new debt was still outstanding at the end of the fiscal year, the City has deferred the entire loss of \$949,794 in the Parking System Enterprise Fund.

In fiscal years 2005 and 2006, the City defeased certain revenue bonds by placing the proceeds of the new bonds in an irrevocable trust to provide for all future debt service payments on the defeased bonds. This advance refunding met the requirements of an in-substance debt defeasance. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the City's financial statements. The balances of the defeased bonds outstanding at June 30, 2008 are as follows:

1999 Ann Arbor Building Authority Bonds	\$6,550,000
2000 Ann Arbor Building Authority Bonds	\$6,700,000
Water Supply System Revenue Bonds Series U	\$1,825,000
Water Supply System Revenue Bonds Series V	\$3,000,000

## 10. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 1969, the City established an Insurance Fund (an Internal Service Fund) to account for and finance its uninsured risk of loss. Under this program, the Insurance Fund currently provides coverage for up to a maximum of \$500,000 for each general liability claim, \$50,000 for each property damage claim, and Blue Cross Blue Shield health insurance claims. The City purchases (where coverage is available and properly priced) commercial insurance for claims in excess of coverage provided by the Fund. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

All funds of the City participate in the insurance program and make payments to the Insurance Fund based on estimates of the amounts needed to pay prior and current-year claims and to establish a reserve for Incurred But Not Reported (IBNR) losses. The IBNR reserve was \$2,484,501 at June 30, 2008 and is included in Estimated Claims Payable. The total Estimated Claims Payable of \$3,186,217 is reflected in the Insurance fund at June 30, 2008. A liability for claims must be reported if information prior to the issuance of the financial statements indicates it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. Changes in the fund's claim liability amount in fiscal years 2006, 2007, and 2008 are summarized below:

	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	Balance at Fiscal Year End
2006	\$5,644,433	\$9,721,423	(\$12,730,800)	\$2,635,056
2007	2,635,056	13,576,536	(13,867,137)	2,344,455
2008	2,344,455	16,198,553	(15,356,791)	3,186,217

## 11. DEFERRED COMPENSATION PLAN

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all permanent City employees, permits each to defer a portion of their salary until future years. The deferred compensation is not available for distribution to employees until termination, retirement, death, or unforeseeable emergency.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights, are held in trust, with the City serving as trustee, for the exclusive benefit of the plan participants and their beneficiaries. The assets shall not be diverted to any other purpose. All provisions of the plan, and the trust, are in conformance with Internal Revenue Code Section 457.

The plan's funds are excluded from the financial statements in conformance with the reporting and disclosure requirements in GASB Statement Number 32, *Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans*.

## NOTES TO FINANCIAL STATEMENTS (Continued)

## 12. POST EMPLOYMENT BENEFITS

**Plan Description.** The City of Ann Arbor Retiree Health Care Benefits Plan is a single-employer defined benefit healthcare plan administered by the City of Ann Arbor Employees' Retirement System. The plan provides certain health care and life insurance benefits for eligible retired employees and their dependents in accordance with Ann Arbor City Code Chapter 21. Substantially all the City's employees may become eligible for these benefits if they retire directly from City employment. These and similar benefits for active employees are provided by various insurance companies. Health insurance benefits' are provided through an administrative service contract under which the City reimburses the administrator for claims paid plus an administration fee. The City of Ann Arbor Employees' Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to City of Ann Arbor Employees' Retirement System, 532 S. Maple Rd., Ann Arbor, Michigan, 48103 or by calling 877-994-4590.

**Funding Policy.** The contribution requirements of plan members and the City are established and may be amended by the City Council. The required contribution is based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits as determined annually by the actuary. For fiscal year 2008, the City contributed \$12,360,028 to the plan, including \$7,737,424 for current premiums (approximately 51 percent of total premiums) and an additional \$4,622,604 to prefund benefits. Plan members receiving benefits contributed \$10,368, or approximately .13 percent of the total premiums through required contributions. Plan members contributions are based on the year of retirement, union affiliation, and the premium requirement at that time. Currently only employees from the Salaried group and Teamster union pay premiums. Below are the tables for the premium requirements, based on the employee group and time of retirement, and the number of employees required to contribute at the end of the fiscal year.

**SALARIED MEMBERS**

Year of Retirement	Monthly Required Premium					
	Retiree Only		Retiree & Spouse		Family Coverage	
	# of Employees	Premium	# of Employees	Premium	# of Employees	Premium
FY 2005	0	\$20	3	\$40	2	\$80
FY 2006	2	20	2	40	2	80
FY 2007	0	20	1	40	1	80
FY 2008	0	34	0	75	1	84

**TEAMSTER MEMBERS**

Year of Retirement	Monthly Required Premium					
	Retiree Only		Retiree & Spouse		Family Coverage	
	# of Employees	Premium	# of Employees	Premium	# of Employees	Premium
FY 2008	0	\$42	0	\$89	1	\$100

## NOTES TO FINANCIAL STATEMENTS (Continued)

## 12. POST EMPLOYMENT BENEFITS (continued):

**Annual OPEB Cost and Net OPEB Obligation.** The City's annual other postemployment benefit OPEB cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the City's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the City's net OPEB obligation (dollar amounts in thousands):

Annual required contribution (ARC)	\$12,360
Interest on net OPEB obligation	0
Adjustment to annual required contribution	0
Annual OPEB cost (expense)	<u>12,360</u>
Contributions made	<u>12,360</u>
Increase in net OPEB obligation	0
Net OPEB obligation - beginning of year	<u>0</u>
Net OPEB obligation - end of year	<u><u>\$0</u></u>

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the new OPEB obligation for 2008 were as follows (dollar amounts in thousands):

Year Ended June 30	Annual OPEB Cost	Percentage of OPEB Cost Contributed	Net OPEB Obligation
2008	\$12,360	100%	\$0

**Funded Status and Funding Progress.** As of June 30, 2007, the most recent actuarial valuation date, the plan was 27.8 percent funded. The actuarial accrued liability for benefits was \$215 million, and the actuarial value of assets was \$60 million, resulting in an unfunded actuarial accrued liability (UAAL) of \$155 million. The covered payroll (annual payroll of active employees covered by the plan) was \$49.6 million, and the ratio of the UAAL to the covered payroll was 23 percent.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information on page 91, following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

**Actuarial Methods and Assumptions.** Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility and actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

## NOTES TO FINANCIAL STATEMENTS (Continued)

## 12. POST EMPLOYMENT BENEFITS (concluded):

In the June 30, 2007, actuarial valuation, the entry age actuarial cost method was used. The actuarial assumptions included a 7 percent investment rate of return (net of administrative expenses), which is the expected long-term investment returns on plan assets calculated based on the funded level of the plan at the valuation date, and an annual healthcare cost trend rate of 9.5 percent initially, reduced by decrements to an ultimate rate of 3.5 percent after ten years. Both rates include a 3.5 percent inflation assumption. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period. The UAAL is being amortized as a level percentage of projected payroll on an open basis over 30 years.

## 13. RETIREMENT COMMITMENTS

Plan Description. The City of Ann Arbor Employees' Retirement Plan is a single-employer defined benefit plan administered by the City of Ann Arbor Employees' Retirement System (CAAERS). CAAERS provides retirement, disability and death benefits to plan members and beneficiaries. Cost of living adjustments are provided to members and beneficiaries per the Ann Arbor City Code Section 1:573 of Chapter 18. Chapter 17.1 of the Ann Arbor City Charter assigns the authority to establish and amend benefit provisions to City Council. CAAERS issues a publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to City of Ann Arbor Employees' Retirement System, 532 S. Maple Rd., Ann Arbor, Michigan, 48103 or by calling 877-994-4590.

**Summary of Significant Accounting Policies**

Basis of Accounting. CAAERS' financial statements are prepared using the accrual basis of accounting. Plan member and employer contributions are recognized in the period in which the contributions are due. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Method Used to Value Investments. Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments that do not have an established market price are reported at estimated fair value. There are no concentrations where investments are five percent or more of the net plan assets.

Funding Policy. The contribution requirements of plan members are established and may be amended by the City Council. Plan members are required to contribute 5% of annual compensation. The City is required to contribute at an actuarially determined rate; the rate for the most current actuarial report, was 14.14% of annual covered payroll. Administrative costs of CAAERS are financed through investment earnings.

Annual Pension Cost and Net Pension Obligation. The City's annual pension cost and net pension obligation to CAAERS for the current year were as follows (dollar amounts in thousands):

Annual required contribution (ARC)	\$7,517
Interest on net pension obligation	0
Adjustment to annual required contribution	0
Annual pension cost (expense)	<u>7,517</u>
Contributions made	<u>7,517</u>
Increase in net pension obligation	0
Net pension obligation - beginning of year	<u>0</u>
Net pension obligation - end of year	<u><u>\$0</u></u>

## NOTES TO FINANCIAL STATEMENTS (Continued)

## 13. RETIREMENT COMMITMENTS (concluded):

<b>Three-Year Trend Information</b> (Dollar amounts in thousands)			
Fiscal Year Ending <u>June 30</u>	Annual Pension Cost (APC)	Percentage of APC <u>Contributed</u>	Net Pension <u>Obligation</u>
2008	7,517	100.0%	-
2007	5,103	100.0%	-
2006	2,897	100.0%	-

**Actuarial Methods & Assumptions.** The annual required contribution for the current year was determined as part of the June 30, 2008, actuarial valuation using the entry age actuarial cost method. The actuarial assumptions included (a) 7.0% rate of return (net of administrative expenses) and (b) projected salary increases of .4% to 6.0% per year. Both (a) and (b) included an inflation component of 3.5%. The assumptions did not include postretirement benefit increases which are funded as a pay-as-you-go basis through City Council appropriation. Unfunded actuarial accrued liabilities were amortized as a level percent-of-payroll over an open 15-year period for the shortfall of gains and losses and over a closed 16-year period for the early retirement window. The single equivalent period for the amortization of all unfunded actuarial accrued liabilities was 29 years. The employer contributions consisted of \$7,101,986 for normal cost and \$415,038 for amortization of the unfunded actuarial accrued liability.

**Funded Status and Funding Progress.** As of June 30, 2008, the most recent actuarial valuation date, the plan was 99.6 percent funded. The actuarial accrued liability for benefits was \$430.4 million, and the actuarial value of assets was \$428.7 million, resulting in an unfunded actuarial accrued liability (UAAL) of \$1.7 million. The covered payroll (annual payroll of active employees covered by the plan) was \$51.3 million, and the ratio of the UAAL to the covered payroll was 3.4 percent.

The schedule of funding progress, presented as RSI following the notes to the financial statements on page 91, presents multiyear trend information about whether the actuarial value of plan assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

## 14. ENDOWMENT FUNDS

In 1964, the City became the recipient of an endowment from Elizabeth Dean which is recorded as a permanent trust fund. The corpus of the trust is to remain invested and may not be liquidated in order to generate investment income. This investment income is to be used for the purchase and maintenance of trees in the City of Ann Arbor. Net appreciation on investments is not considered investment income until realized. The amount in the Elizabeth Dean fund is shown as restricted for endowment on the Statement of Net Assets. The corpus of the trust is and shall remain \$1,984,000. Fund balance at June 30, 2008 was \$2,221,480, representing the corpus of the trust and appreciation of investments from prior years. This amount is reflected in cash, equity in pooled cash, investments and accrued interest. The corpus of the trust is restricted to the limitations established by the trust. The entire amount exceeding the corpus, \$1,984,000, is also restricted to the limitations established by the trust, but is available for expenditure.

## NOTES TO FINANCIAL STATEMENTS (Continued)

## 15. SIGNIFICANT COMMITMENTS

As of June 30, 2008, the City had \$9,764,314 in construction commitments for various projects including resurfacing of streets, bridge reconstruction and other road improvements.

## 16. SUBSEQUENT EVENTS

Subsequent to year-end, the City sold a bond issue, the 2008 Court and Police Facilities Capital Improvement Bonds in the amount of \$27,660,000, to cover the construction of the new Police and Court facility. Pursuant to this bond sale the City of Ann Arbor bond ratings increased. Moody's rating increased from a rating Aa3 to Aa2 and Standard & Poor's rating increased from AA- to AA+.

Additionally, effective 1998, the City and the VEBA Board of Trustees entered into a funding agreement for the allocation of Retirement System annual excess earnings (if any) to payment of City retiree health benefit costs thereby allowing the City to allocate the equivalent budgetary amount to prefund the City's VEBA. This agreement and all transfers were executed in compliance with Michigan Public Act 28 (PA 28). It has come to the City's attention that the Pension System's transfer to the VEBA may not have fully complied with Section 420 of the Internal Revenue Code with respect to the transfers to the VEBA. The City has committed to compliance with both State and Federal law (as applicable).

Since last year's audit, the City has filed the application through the Internal Revenue Service Voluntary Correction Program suggesting a resolution that required no repayment of funds and received an initial response from the IRS. Although the City requested that no restoration of funds to the retirement system be required, the IRS decided that \$21.6 million dollars of plan assets, incorrectly distributed from the plan, should be returned to the plan, adjusted for income. The IRS is willing to accept corrective amounts being provided on an installment basis and is currently reviewing the City's proposal. This proposal, which the City believes should comply with the IRS demands set forth in its initial response, is consistent with IRS procedures governing its correction program by (A) taking credit for previous and future pension funding that exceeded contributions that would have been required had the excess transfers not occurred, (B) additional pension funding of approximately \$3.5 million per year for five years starting in fiscal year 2009; and (C) interest on these items. While the City has sufficient monies to fund the future years actuarial required contribution (ARC) for both the pension and VEBA systems, the repayment to the pension system described above will result in reduced funding of the VEBA ARC in a like amount during the period of the pension repayment. This will necessitate an OPEB liability in the City's financial statements during the repayment period per GASB 45; however, the pension system will have an equal and offsetting OPEB asset. The OPEB assets and liabilities will be amortized over a closed 15 year period per the pension and VEBA board actions in the October meeting. The City is awaiting final approval of its proposal at this time. The City expects that any compliance matters which may need to be addressed will not adversely affect the tax qualified status of the Plan.

## NOTES TO FINANCIAL STATEMENTS (Continued)

## 17. EXTERNALLY RESTRICTED NET ASSETS

A portion of the City's net assets are presented as restricted, due to external requirements either by the source of the funding (i.e., state or federal funding) or by the nature of the funding (i.e. millage funding) to indicate they are not available to meet the City's ongoing needs. The purpose of these restrictions is evident from the Statement of Net Assets except for the following:

Highways and Streets:	
Major Streets	\$7,833,175
Local Streets	2,922,203
Street Repair Millage	22,725,480
Metro Expansion	<u>858,994</u>
Total restricted for highways and streets	<u>34,339,852</u>
Culture and Recreation:	
Parks Repair & Restoration Millage	784,960
Parks Rehab & Development Millage	3,496,878
Parks Maint & Capital Imp Millage	1,625,720
Open Space and Parkland Preservation	17,633,154
Open Space Endowment	<u>121,080</u>
Total restricted for culture and recreation	<u>23,661,792</u>
Other purposes:	
Community Television Network	2,937,033
Michigan Justice Training	101,898
Court Facilities	1,357,406
Federal Equitable Sharing Forfeiture	153,788
Police and Fire Relief	<u>678,763</u>
Total restricted for other purposes	<u>5,228,888</u>
Grand total restricted	<u><u>\$63,230,532</u></u>

OTHER REQUIRED  
SUPPLEMENTAL  
INFORMATION

## REQUIRED SUPPLEMENTARY INFORMATION

### GENERAL FUND

To account for resources traditionally associated with governments which are not required to be accounted for in another fund.

### SPECIAL REVENUE FUNDS

Street Repair Millage – to account for the proceeds of a special millage to repair streets.

Open Space and Parkland Preservation Millage - to account for funds derived from property tax millage and bond proceeds earmarked for parks acquisition and development rights for open space.

CITY OF ANN ARBOR  
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

1. BUDGETS AND BUDGETARY ACCOUNTING

The City follows these procedures in establishing the budgetary data reflected in the basic financial statements:

1. The City uses the "Target Based" budgeting technique. Under this system, the City Administrator determines funding levels for each department by matching funding needs with available revenue. Targets are established based on anticipated revenues and growth in expenditures.
2. In late November, each department is given a "bottom line" amount for operations. The department then determines the best way to allocate funds among expenses to remain within the target while meeting the assigned goals.
3. Department budget requests are then submitted with expenditures outlined and areas of concern identified so that adjustments can be made as needed. By allowing the departments to determine how funds are spent within the department, the operating departments have a greater ownership in how they provide services.
4. The City Administrator's recommended budget is submitted to City Council at the second meeting in April. The City Council, with at least seven affirmative votes, must adopt the budget no later than the end of its second meeting in May. According to City Charter, should the City Council not adopt an amended Budget, the City Administrator's recommended budget will automatically take effect as submitted.
5. After the budget has been adopted, City Council may amend the budget by a concurring vote of not fewer than eight members of City Council.

Formal budgetary integration is employed as a management control device during the year. The City presents a comparison of annual budgets to actual results for all major governmental funds. Budgeted revenue amounts represent the original budget modified by Council-authorized adjustments during the year which were contingent upon new or additional revenue sources. Budgeted expenditure amounts represent original appropriations adjusted for supplemental appropriations during the year. Supplemental appropriations in the amount of \$4,817,854 were made in fiscal 2008. Budgets are prepared in accordance with Generally Accepted Accounting Principles using the modified-accrual basis of accounting.

The City Administrator is authorized to transfer appropriated funds between major expenditure categories within departments. However, any revisions which alter the total appropriations of any department must be approved by City Council. For budgeting purposes, the General Fund is composed of several departments. Expenditures may not legally exceed appropriations at the department level.

The City utilizes an encumbrance system as a management control technique to assist in controlling expenditures. Under this procedure, encumbrances representing purchase orders, contracts and other commitments are reported as reservations of fund balances at year-end. All appropriations lapse at the end of the fiscal year, except for certain capital projects which are approved without regard to fiscal year. For any of these projects which are under construction at year-end, the appropriations are allowed to carry forward with the amount being adopted for the current budget year.

CITY OF ANN ARBOR  
 NOTES TO REQUIRED SUPPLEMENTARY INFORMATION  
 (Concluded)

2. EXPENDITURES IN EXCESS OF APPROPRIATIONS

For fiscal year 2008, there were three funds in excess of budget appropriation as follows:

	<u>Modified Budget</u>	<u>Actual</u>	<u>Negative Variance</u>	<u>Explanation</u>
<b>Special Revenue Funds:</b>				
Michigan Justice Training	\$24,800	\$42,991	(\$18,191)	This fund had training costs allocated to it but the budget amendment was not sent to Council. This oversight will be remedied in the future years.
Police and Fire Relief	\$0	\$680	(\$680)	This fund is an expendable trust fund for death benefits for fallen firefighters and police officers. There were some expenditures remaining for a fundraiser for a fallen firefighter that were not paid in the prior year.
<b>Debt Service Funds:</b>				
Special Assessment- Debt Service	\$163,647	\$163,848	(\$201)	This fund had higher than anticipated paying agent costs due to increased bank fees.

(a) GASB 45 is effective for the year ended June 30, 2008.

## NONMAJOR SPECIAL REVENUE FUNDS

Major Streets - to account for repairs, maintenance and construction on the City's major streets. The revenues consist primarily of State-shared gasoline and weight tax collections.

Local Streets - to account for repairs, maintenance and construction on the City's local streets. The revenues consist primarily of State-shared gasoline and weight tax collections.

Community Development - to account for funds received from the federal government for the City's Community Development Block grant program.

HOME Program - to account for funds received from the federal government for the City's Community Development HOME grant program.

Affordable Housing - to account for funding of selected affordable housing projects with the General Fund and federal funds.

Community Television Network - to account for the costs of running the City's community access channels on the local cable television system. Revenues are derived primarily from franchise fees.

Homeland Security - to account for federal Office of Homeland Security grant money.

Construction Code – to account for the costs of planning and development activities related to construction. Revenues are derived primarily from licenses and permits.

Alternative Transportation - to account for funding set aside for the City's alternative transportation program.

Tree Removal & Disposal – to account for the costs associated with the removal and disposal of dead and dying trees due to the Emerald Ash borer infestation.

350 S. Fifth Ave. Project – to account for the funding set aside for the 350 S. Fifth Ave project.

Senior Center Endowment – used to account for funds donated to the Senior Center.

Drug Enforcement - to account for confiscated property and money related to drug law enforcement activity and provide funds for future enforcement activity.

Metro Expansion - to account for the monies passed through from telecom companies for the purpose of maintaining the roadway (above, below, and adjacent to) right of ways.

Michigan Justice Training - to account for State funds used for law enforcement training.

Art In Public Places – to account for funds provided by capital improvements projects for public art equal to one percent of the construction costs, with a maximum of \$250,000 per project.

Parks Repair and Restoration Millage - to account for funds derived from property tax millage earmarked for parks' repair and restoration.

## NONMAJOR SPECIAL REVENUE FUNDS (continued)

Parks Rehabilitation and Development Millage - to account for funds derived from property tax millage earmarked for parks' improvements.

Parks Maintenance and Capital Improvements - to account for funds derived from property tax millage earmarked for parks maintenance and capital improvements of the parks system.

Open Space Endowment - to account for funds allotted for the perpetual care of lands purchased with the City's Open Space and Parkland Preservation Millage

Special Assistance - to account for funds provided by a utility bill checkoff to provide assistance to needy citizens.

Parks Memorial and Contributions - to account for the proceeds of various contributions to the Parks System to erect memorials or finance special parks improvement projects.

Court Facilities - to account for a court fee to pay for facility improvements for the district court.

Local Law Enforcement Block Grant - to account for federal grant monies received for fingerprinting equipment.

Major Grants - to account for various grant monies other than community development.

Federal Equitable Sharing Forfeitures - to account for monies received as a result of joint operations with federal law enforcement. These monies are restricted for use in future law enforcement activities.

Bandemer - to account for rental income used to maintain and operate Bandemer Park.

Economic Development - to account for funds set aside to promote economic development in the City.

Cemetery Perpetual Care - to account for the receipt and expenditures of fees paid for the perpetual care of gravesites at the City-owned Fairview Cemetery.

Local Forfeiture - to account for monies received as a result of police seizures from non-federal investigations. These monies are restricted for use in future law enforcement activities.

Police and Fire Relief - to account for the receipt of investment earnings on previously transferred General fund monies. These earnings are used to subsidize the incomes of certain beneficiaries of deceased police officers and firefighters.

Energy Projects - to account for funding of City Energy Consumption Improvement projects.

Sidewalk Improvement - to account for funds related to the City's sidewalk improvement efforts.

#### NONMAJOR DEBT SERVICE FUNDS

General Debt Service - to accumulate tax revenues and transfers in for payment of principal and interest on non-bonded debt and general obligation bonds sold for various capital purposes.

Special Assessment Bonds-Debt Service - to accumulate revenues for payment of principal and interest on general obligation bonds sold to finance various special assessment projects. The primary sources of revenues are special assessments and related revenues (including interest and penalties).

#### NONMAJOR CAPITAL PROJECTS FUNDS

1991/1992/1993 Environmental Bonds - to account for bond proceeds and related revenues expended for improvements to the City's landfill.

General Capital Improvements - to account for capital project expenditures for various non-bonded improvements to certain City-owned facilities.

Special Assessments – to account for bond proceeds and related revenues expended for various public improvements financed in part by assessments against benefited properties.

Municipal Center- to account for revenues expended for the construction of a new City facility for Police and District Courts.

Maintenance Facility – to account for revenues and expenditures related to the construction of the new maintenance facility.

#### NONMAJOR PERMANENT FUND

Elizabeth R. Dean Trust Fund - to account for monies provided by a private bequest to finance tree planting and maintenance. The principal amount of the bequest is to remain intact and invested. Investment earnings are used for the above stated purposes.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON  
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS  
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable Mayor and  
Members of the City Council  
City of Ann Arbor  
Ann Arbor, Michigan

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, the aggregate discretely presented component units, and the aggregate remaining fund information of the City of Ann Arbor, Michigan as of and for the year ended June 30, 2008, and have issued our report thereon dated December 10, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City of Ann Arbor's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Ann Arbor's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City of Ann Arbor's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the City of Ann Arbor's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the City of Ann Arbor's financial statements that is more than inconsequential will not be prevented or detected by the City of Ann Arbor's internal control over financial reporting.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the City of Ann Arbor's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and, accordingly, would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

## Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Ann Arbor's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters, which are described below.

### 2006-1 USE OF CITY CREDIT CARDS

Criteria: Compliance with City administrative policy. City administrative policy #512 provides (among other things) that documentation be maintained for all purchases, that purchases be made only for official City business, and that use of the City credit card does not exempt the user from compliance with Federal or State regulations as well as City ordinances, policies and procedures.

Condition: During our testing of transactions related to the use of purchasing cards it was determined that the City did not comply with established administrative policy and financial management procedures. A similar condition was noted and reported in our audit comments last year. It was noted that:

- Several of the transactions sampled contained no explanation that would allow a user to determine that the purchase was made for official City business.
- Several of the transactions sampled were not properly supported with an invoice, receipt, or other appropriate documentation.

Effect: The City is not in compliance with administrative policy #512.

Recommendation: We recommend the City take steps to ensure that proper supporting documentation be obtained for all purchases and that the business purpose of all charges be clearly indicated.

Corrective Action Response: We agree with the recommendation and have made several improvements to the purchasing card program and policy during the last fiscal year. We are addressing issues with individuals to ensure full compliance in the future.

### 2008-1 PURCHASE OF TELEVISIONS FOR MAINTENANCE FACILITY

Criteria: Appropriate use of public funds, also compliance with City administrative policy #208 and #512.

Purchasing policy #208 calls for the following:

- All purchases over \$3,000 require the issuance of a purchase order and the approval of the Service Area Administrator.
- For "sole source" purchases, written documentation that a specified item cannot be obtained from any other source must be submitted.
- Purchases over \$10,000 require living wage and civil rights certifications.

Credit Card Policy #512 calls for the following:

- Applicable requirements of policy #208 must be followed.
- Purchases must not be split to circumvent procurement procedures

## 2008-1 PURCHASE OF TELEVISIONS FOR MAINTENANCE FACILITY - CONTINUED

Condition: During the performance of our audit procedures and inquiries related to purchasing card use, it came to our attention that certain employees at the City maintenance facility had purchased eleven (11) flat-screen televisions for use at the facility. Also purchased were several DVD players, HDMI cables, and custom installation services. These purchases were not approved in advance by the Service Area Administrator. The purchases were made using the City credit cards of several employees and arranged in such a way that they would not exceed applicable credit limits on the cards.

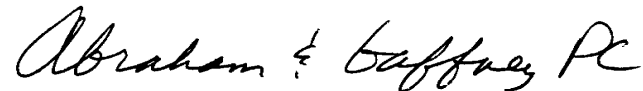

Effect: These purchases appear to be an inappropriate use of public funds. Also, the City is not in compliance with administrative policies #208 and #512.

Recommendation: We recommend that all such purchases be discontinued in the future. We recommend City evaluate the ongoing need for and business purpose satisfied by these items.

Corrective Action Response: Management understands the auditors' concerns and wants to reiterate our commitment to complying with all policies. We have re-educated staff and clearly communicated to the involved employees the importance of adhering to financial policies, as they are a key component in our effort for transparency in government. Management believes we have appropriately addressed this issue and it will not occur in the future.

The City of Ann Arbor's responses to the findings identified in our audit are described above. We did not audit the City of Ann Arbor's responses and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of management, the audit committee, the Mayor, others within the organization, the members of the City Council of the City of Ann Arbor, the federal awarding agencies, and pass-through entities and is not intended to be, and should not be, used by anyone other than these specified parties.

ABRAHAM & GAFFNEY, P.C.  
Certified Public Accountants

December 10, 2008

## STATISTICAL SECTION

This part of the City of Ann Arbor’s comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government’s overall financial health.

<b>Contents</b>	<b>Page</b>
<p>Financial Trends</p> <p style="padding-left: 40px;">These schedules contain trend information to help the reader understand how the government’s financial performance and well-being have changed over time.</p>	128

## Notes:

- (1) Taxable property in the City is assessed by the City Assessor and is subject to review by the County Board of Equalization. Tax levies on property in Michigan are applied against the taxable value of all property. Current statutes require assessments to be 50% of the true cash value of both personal and real property for equalization purposes.
- (2) In accordance with Act 409, Public Acts of Michigan, 1965, and Article 9, Section 2 of the Michigan Constitution, as amended by Joint Resolution S on March 15, 1994, state equalized value shall not exceed 50% of the true cash value. With the passage of Proposal "A", another value is required on each property. The new value is termed "taxable value". Increases in taxable value are limited to 5%, the Consumer Price Index, or State Equalized Value, whichever is less.
- (3) For the Industrial Facilities tax roll, the millage rate is 50% of the normal millage rate.
- (4) As Tax Exempt Property has a zero dollar value, no value is listed.

\* Represents millage collected for Ann Arbor Transportation Authority.

\*\* Includes Washtenaw Intermediate School Ann Arbor District millage of 3.9970 mills and State Education Tax of 6.0 mills on both Principal Residence and Non-Principal Residence properties. On Non-Principal Residence properties, an additional 12.3461 mills is included for School Operating Tax.

\*\*\* Ann Arbor District Library is now a separate taxing unit, beginning with 1996 tax, and previously was included in Ann Arbor Public Schools millage.

The City has enjoyed a stable property tax rate in all taxing jurisdictions due to annual increases in valuations as a result of economic growth.

Ad valorem taxes are levied July 1st annually, and are due July 31st. Delinquent real property taxes are turned over to the County for collection the following March 1st. The County pays all its municipalities from a revolving fund for delinquent real property taxes. Delinquent personal property taxes are negligible.
