

Civic Commons

- Max green open
- Green for public health, economic viability
- 0 housing
- Remove concrete from surface parking
- Yes public building – indoor commons
- Liberty Plaza green
- Don't replicate another pocket park on parking Indoor walking – multi level
- Child are
- No dog park
- Health wellness
- Social services
- Fountain and ice
- Open green space not building
- Use Noble House as Civic Building
- Only public uses. Don't revisit vote!
- Green – maximize
- Wait on building with so many unknowns on block (Library – 1st Martin)
- Commons building functions can do happen in library
- Band shell and restrooms
- Coffee, café, Gallup Park
- Food truck – ice cream
- Covered open space
- Hoop house (2)
- Community engagement
- Ecclesia gathering space
- Public bank
- 1 story building
- Rest rooms – water fountains

Liberty Plaza

- An integrated Park needs to happen with Liberty Plaza!
- Make it an amphitheater
- Connect local social service organizations with park norms and behavior standards!
- Uplift Liberty Plaza NOW to make the community feel better – and positive for direction COC
- Perhaps a piazza, not much room for grass
- 1st Martin has potential with redevelopment to activate!
- Success of “New” Liberty Plaza is dependent on what happens nearby (1st Martin)
- Bigger tree park!
- Environmental design for security
- Integrate Liberty Plaza in phases over 10-20 years (with entire block)

- Liberty Plaza and Kempf are currently treasures!
- More “eyes on the park” with retail in 1st martin Building.
- Need to have different concept for Liberty Plaza and Library surface area – create connectivity!
- Social services connection
- Restrooms
- Integrated Park with whole block.
- Exhibit to share with entire community
- Hot dog/vendor cart that has consistent hours.
- Flyer posting pole
- Café/bar
- Patrons/owners become stakeholders in this base
- All beautiful pocket park (already) but keep cleaned and maintained!
- Active connections!
- Police kiosk – more security
