# **SPECIFICATIONS**

## **Description of Work**

The City of Ann Arbor, Michigan, is requesting proposals from licensed and insured overhead door installation firms in order to replace two (2) existing overhead rolling steel doors and operators at the City of Ann Arbor's Solid Waste Transfer Station.

The services required include: removing the two existing rolling steel doors and operators (and hauling them away), installing two new overhead rolling steel doors (dimensions need to be verified by Contractor, but the doors are estimated to be 16-18 feet wide and 26-28 feet high), installing two new 2 HP 208v 3-Phase heavy industrial duty gear reduced hoist operators (with right handed chain hoist), installing new heavy duty vertical tracks and c-channel, and any other necessary tasks required to make sure that the overhead rolling steel doors/operators are fully functional and structurally sound. The replacement doors should match the color of the current doors. The existing operator for the doors is a Manaras OGH 2HP 208v 3-Phase. The Contractor is to verify proper operation of all door components including all electrical switches, connections, keypads, electric motors, chain hoists, belts, and safety items. Contractor to provide all labor, materials, and equipment necessary for installation of this overhead rolling steel door (including a Skytrak and/or Scissor Lift). A fire watch is to be put in place, and the area where the work is done must be taped off and coned for safety purposes. Once the doors and operators have been properly installed, Contractor is to remove all debris associated with this project and clean the work area.

**Due to the safety concerns of the Transfer Station's sub-contractor operator regarding completing this overhead door installation project on a routine operations day with a normal amount of incoming truck traffic, weekend installation has been requested. Therefore, the City is requiring that all proposals include weekend labor costs.**

The contract will become effective when all parties have signed it, and the contract will terminate upon completion of the project and final inspection by City staff to ensure that the overhead rolling steel doors and operators are fully functional.

The City anticipates that this will be at least a two (2) day project. All bids must include an estimated timeline for completing the project. The City reserves the right to use other contractors for this work if the City deems it necessary. The Contractor's fee proposal must include a detailed breakdown of each expense.

## **Requirements**

1. Ability to work effectively with the City's Public Works Unit staff with respect to any of the services required by the City.
2. Ability to work effectively with other City units and regulatory agencies.
4. Contractor shall be available to perform the designated services within forty-five (45) days of the execution of the contract. If Contractor is unable to perform the above designated services within this time period, then Contractor will need to notify the City in writing of the reason(s) for the delay in performance.

5. Contractor must be insured and provide valid proof of insurance along with their bid.
6. Contractor must include detailed warranty information (parts and labor) for the overhead rolling steel doors and motorized operators to be installed.

### **General Safety Requirements**

The Contractor shall be responsible for ensuring compliance with the most stringent provisions of the applicable statutes and regulations of the Michigan Occupational Safety and Health Act 154 of 1974, the Occupational Safety and Health Act of 1970, and all City of Ann Arbor safety policies. The Contractor shall supply all these requirements to any subcontractor performing work under the contract. Should charges of violation of any of the above be issued to the Contractor in the course of the work, a copy of each charge shall be immediately forwarded to the City along with a plan to correct the violation.

Upon the failure of the Contractor to comply with any of these requirements, the City's Representative shall have the authority to stop any and all operations of the Contractor affected by such failure until such failure is remedied. No part of the time lost due to any such stop orders shall be made subject to a claim or extension of time or increase in compensation.

All materials, equipment, and supplies used for projects under this contract with the City of Ann Arbor must comply fully with all safety requirements as set forth by the Michigan Occupational Safety and Health Act 154 of 1974 and all applicable OSHA Standards.
