**RE: Addendum to the Request for Proposal for the Water Treatment Plant
West High Service Elevated Storage Tank Project
RFP No. 913**

Attached is a copy of Addendum Number One for the Water Treatment Plant West High Service Elevated Storage Tank Project. This Addendum supersedes and updates the Request for Proposal information for RFP No. 913. All Proposers shall acknowledge receipt and acceptance of this Addendum Number One by so indicating on their Proposals. Proposals submitted without acknowledgment of receipt of this Addendum will be considered informal. If you have any questions regarding the Request for Proposal or this Addendum, please contact Glen Wiczorek, PE, Project Manager by email at gwiczorek@a2gov.org.

Sincerely,

Brian Steglitz, P.E.
Sr. Utilities Engineer
City of Ann Arbor Water Treatment Plant

**ADDENDUM NO. 1
TO
REQUEST FOR PROPOSAL
FOR
WATER TREATMENT PLANT
WEST HIGH SERVICE ELEVATED
STORAGE TANK PROJECT
FOR THE
CITY OF ANN ARBOR, MICHIGAN**

The following changes, additions, and/or deletions shall be made to the Request for Proposal for the Water Treatment Plant West High Service Elevated Storage Tank Project for the City of Ann Arbor, Michigan, RFP No. 913 on which bids are to be received, on or before, 2:00 P.M. Tuesday, October 21, 2014.

The information contained herein shall take precedence over the original documents and all previous addenda, and is appended thereto.

All Proposers shall acknowledge receipt and acceptance of this Addendum No. 1, including any attachments, by so indicating on their proposals. Proposals submitted without acknowledgement of receipt of this addendum will be considered informal.

QUESTIONS AND ANSWERS

- Q. Is the existing InfoWater model a single model that includes all pressure districts in the City, or are all pressure districts modeled separately?
- A. **The existing model is a single model that includes all pressure districts in the City.**
- Q. How many nodes are in the model?
- A. **There are approximately 2,500 nodes in the West High Service pressure district. There are approximately 10,400 nodes in the complete City model.**
- Q. Will the project be funded through the State of Michigan Drinking Water Revolving Fund?
- A. **No.**
