

Sugarbush Park

This featured walk offers both natural trails through a wooded area, as well as some paved portions of the path through the mowed park area. You'll love this beautiful neighborhood park located in the northeast part of our city.

Total trail length: 1.14 (total miles of trails)

Topography: Flat

Trail type: Paved paths, dirt footpaths

Easy: Well-maintained trail; little to no elevation gain.

Visit the [park webpage](#) for additional park details including parking information. Check out [GIVE365](#) for [Visit Every Park](#) information or to track your walks and earn prizes.

[Winter in the parks](#) - while paved portions of the path are scheduled for snow clearing, always watch your step and consider weather conditions as paths may be slick or icy. Consider walking with sticks/poles for stability. Please remember nature areas are not cleared or salted so walk at your own risk.
