## **SECTION II - SCOPE OF SERVICES**

### 1. Background

The City of Ann Arbor purchases a portion of their natural gas in a deregulated wholesale market within the parameters allowed by legislation. The City has historically employed a mixed purchasing approach involving locking-in a share of total anticipated consumption at a fixed price with the remaining portion of consumption being purchased at a variable rate based on the commodity market. As costs for the natural gas supply have been on a general downward trajectory, but with occasional significant price spikes due to short-term shortages and other variables, the City is looking to retain professional services to assist the City in balancing risk tolerance along with a desire for cost containment or reduction wherever possible.

The City has an annual natural gas usage of around 90,000 MCF of natural gas for municipal services across over 60 accounts, including water and wastewater treatment utilities.

### 2. Objective

The City is seeking consultant services to guide purchasing of natural gas, focused on strategies to maximize cost savings to achieve a return on investment of consulting services. Work efforts of the Consultant are outlined below and shall include the following areas of service:

#### **Knowledge of Energy Markets and Regulations:**

The Consultant shall provide recommendations on energy management of the natural gas supply market, including:

- (i) Relevant Federal and State of Michigan legislation associated with natural gas
- (ii) Natural gas supply market pricing, conditions, and recent activity in national as well as Michigan markets. Recommendations from the Consultant to the City will include but are not limited to, bid timing and pricing strategies, hedging and forward market purchases, as well as presenting other cost saving measures
- (iii) Respondents should be highly familiar and/or involved with natural gas market procurement and versed on trends and futures forecasts for prices as well as be versed on information relating to potential natural gas suppliers on both a national and state level
- (iv) Analyze City natural gas bills and possible recommendations on how the City can save on energy cost (i.e., specific rate schedules, riders, and charges that should be considered or which may be pending)
- (v) Timing and related strategies to best position the City to obtain the most advantageous terms and prices in the procurement of natural gas for City

facilities. Suggest possible schedule and outline tasks needed to follow this schedule.

### **Load analysis methodology for natural gas facilities**

The City will provide load data and additional information as needed for the Consultant to provide the following:

- (i) Analysis of energy usage patterns, historical costs, tariffs, and market trends to help determine the best methods to lower natural gas costs for City Departments. The Consultant shall identify risk profiles, timeframes, and cost targets.

### **Best practices and innovative short- and long-term procurement methodologies for natural gas**

The City will provide load data and additional information as needed for the Consultant to provide the following:

- (i) Identification and communication of buying options on an ongoing basis resulting in a report and discussion with the City about various options for bidding natural gas commodity services (fixed price \$/ccf, NYMEX + Basis, block purchases, hedging or future purchases, possible renewable options, or combinations of these for different City Departments, etc.). Requested information includes:
  - a. Cost information as well as methodology needed to administer each of these options.
  - b. Typical contract duration and ideal execution date for each bidding option described.
  - c. Bidding recommendations based on City goals of economic pricing, environmental impact, service reliability, and advantages using current and forecasted market conditions to ensure offerings are objectively sound and competitive.
  - d. A report and formal present findings to Department representatives.

Differentiation between recommendations among City Departments, between different rate class, or some other combination of factors.

- (ii) Establish recommendations for strategies and knowledge the City can deploy on a self-sustaining basis after the terms of services.

- (i) Kickoff meeting to transfer consumption trends, historical purchasing and determine the current risk tolerance and assumptions in current budgets

- (iii) Annual performance reports on a fiscal year basis with the potential for future reports

- B. The Contractor shall retain the right to pledge payment(s) due and payable under this Agreement to third parties.

**XI. TERMINATION OF AGREEMENT**

- A. If either party is in breach of this Agreement for a period of fifteen (15) days following receipt of notice from the non-breaching party with respect to a breach, the non-breaching party may pursue any remedies available to it against the breaching party under applicable law, including but not limited to, the right to terminate this Agreement without further notice. The waiver of any breach by any party to this Agreement shall not waive any subsequent breach by any party.

If funds to enable the City to effect continued payment under this Agreement are not appropriated or otherwise made available, the City shall have the right to terminate this Agreement without penalty at the end of the last period for which funds have been appropriated or otherwise made available by giving written notice of termination to Contractor. The Contract Administrator shall give Contractor written notice of such non-appropriation within thirty (30) days after it receives notice of such non-appropriation.
- D. The provisions of Articles VI and VIII shall survive the expiration or earlier termination of this Agreement for any reason. The expiration or termination of this Agreement, for any reason, shall not release either party from any obligation or liability to the other party, including any payment obligation that has already accrued and Contractor's obligation to deliver all Deliverables due as of the date of termination of the Agreement.

**XII. REMEDIES**

- A. This Agreement does not, and is not intended to, impair, divest, delegate or contravene any constitutional, statutory and/or other legal right, privilege, power, obligation, duty or immunity of the Parties.

- B. All rights and remedies provided in this Agreement are cumulative and not exclusive, and the exercise by either party of any right or remedy does not preclude the exercise of any other rights or remedies that may now or subsequently be available at law, in equity, by statute, in any agreement between the parties or otherwise.
- C. Absent a written waiver, no act, failure, or delay by a Party to pursue or enforce any rights or remedies under this Agreement shall constitute a waiver of those rights with regard to any existing or subsequent breach of this Agreement. No waiver of any term, condition, or provision of this Agreement, whether by conduct or otherwise, in one or more instances, shall be deemed or construed as a continuing waiver of any term, condition, or provision of this Agreement. Each matter will be reviewed on a case by case basis.
