#	RESPONSES	DATE
1	Taking care of the poison ivy would be great	8/5/2021 8:19 AM
2	Remove poison ivy near swings and bench, but leave the trees. We play in the area of trees and near the fallen logs pretty often.	8/2/2021 7:49 PM
3	Cleaned out so it is more visible and safe	7/31/2021 11:16 AM
4	Remove poison ivy and the low brush to make it useable for kids	7/31/2021 10:47 AM
5	add a pool 😊	7/29/2021 8:36 PM
6	Decreased weeds, poison ivy.	7/29/2021 7:35 PM
7	It is becoming overgrown	7/29/2021 5:54 PM
8	It is a bit crowded and filled with debris. It would be nice to have a more open space	7/29/2021 1:08 PM
9	Hopefully the park will look cleaner and the poison ivy will be taken care of for the season. I have had great concern about this ivy spreading.	7/29/2021 10:41 AM
10	Looking at the previous improvements in other areas, it is a great idea to provide a healthier place for people visiting the park.	7/29/2021 10:09 AM
11	It would be great to have a short path that goes through the wooded space. Kids already play	7/29/2021 9:11 AM

Proposed Project: Goats at Burr Oak Park

in the space, but the path could encourage further exploration.

12	Get rid of poison ivy. An ice rink in the winter time	7/28/2021 7:22 PM
13	Get rid of the poison ivy!	7/28/2021 7:21 PM
14	Removal of poison ivy and buckthorn overgrowth. Opening it up a bit.	7/28/2021 4:46 PM
15	Add a pool	7/28/2021 2:13 PM
16	The overgrowth needs to be cleared and the poison ivy addressed. Opening up the area a bit would make it safer for children and easier to keep an eye on things in case there is a problem.	7/28/2021 11:59 AM
17	Leaving some areas for "natural flowers and life", put sands on the volleyball place, be able to have your dog going in the wooded space without risks, and avoid the many mosquitos stuck in this area.	7/28/2021 11:02 AM
18	It is too overgrown to use.	7/28/2021 10:06 AM
19	More defined borders/ trails would really help designate walking areas	7/28/2021 7:43 AM
20	Clearing it out and removing poison ivy would be great. I'm always afraid my dogs will rub up against it when we are walking along the path.	7/28/2021 6:28 AM
21	Remove all of the brush and buckthorn, leave major trees.	7/27/2021 9:53 PM
22	Remove poison ivy and buckthorn. Make the wooded spaces look cleaner and more accessible for playing.	7/27/2021 8:40 PM
23	It would be great to see the space being opened up, and to get rid of the buckthorn and poison ivy.	7/27/2021 4:33 PM
24	We walk by the space regularly but usually don't enter it.	7/27/2021 7:35 AM
25	More accessible	7/26/2021 8:24 PM
26	More open	7/26/2021 2:25 PM
27	The area would be used much more if the poison ivy was gone. Bring on the goats!!	7/26/2021 1:27 PM
28	keep cut low enough so you can see through the brush	7/26/2021 12:17 PM
29	Climbing structures for kids The field needs more work	7/26/2021 10:29 AM
30	Trimming and controlling invasive species is essential to our ability to use the park; there are so many young children in the neighborhood, the poison ivy in particular is a major issue that needs to be addressed, preferably without the use of harmful chemicals. Many homes have easements on their property, and during rainy periods groundwater can easily seep into basements (and garden beds). We highly support the usage of goats both to beautify the park and keep it safe for our kids and guests!	7/26/2021 10:06 AM
31	I like the idea of it being more open and of having native plants. It might also be good to think about plants that are good for the animals and insects (bees and butterflies) that live in our neighborhood, like ground covering plants for burrowing animals and flowering ones for pollinators.	7/26/2021 9:53 AM
32	My child enjoys exploring the wooded area— there are some natural clearings that are fun for imaginative play. A few ideas: Clear paths into the area or add tree stumps for jumping or creating a sitting/play space. Improve visibility into wooded area so people can walk or sit, but still be seen from park (especially important for kids and pets).	7/26/2021 9:01 AM
33	It is fine as is!!! Do not disturb!!	7/26/2021 8:54 AM
34	It's fine the way it is.	7/26/2021 8:21 AM
35	Thinning would be useful.	7/26/2021 7:59 AM
36	mitigate invasive species (poison ivy) and clear paths/trail through shrubbery	7/26/2021 7:53 AM
37	Removal of plants that are risks to health, other invasives, and thick undergrowth in general.	7/26/2021 7:39 AM
38	Removal of buckthorn, honeysuckle, wild grape, poison ivy, English ivy. Pushing back the vegetative edge (It impinges on the swings and walkway.)	7/26/2021 7:10 AM

Proposed Project: Goats at Burr Oak Park

39	It's a magical spot for kids, but could be improved by a little maintenance and poison ivy removal.	7/26/2021 6:32 AM
40	More aggressive efforts to overgrown 'scrub' growth.	7/26/2021 6:12 AM
41	Make it safe to play in by opening it up and clearing invasive species.	7/26/2021 6:10 AM
42	We live on [REDACTED] and I have little kids who like to venture into the wooded area while we are playing at the little park. I cannot see them while in there and wish I could!	7/26/2021 5:41 AM
43	I really dislike poison ivy. So, any plan to get rid of it - I'm in for of. I think the idea of using goats is innovative and awesome. I'm strongly in favor of it.	7/25/2021 11:46 PM
44	Opened	7/25/2021 11:21 PM
45	We would love the space to be more approachable and help to keep the invasive growth down.	7/25/2021 10:52 PM
46	It could be cleaned of poison Ivy and buckthorn.	7/25/2021 10:49 PM
47	Bigger paths for adults to easily walk, killing the poison ivy!	7/25/2021 10:02 PM
48	My kids like to explore in the wooded area and it would be great if this project could cut down the presence of poison ivy so that it is safe for kids.	7/25/2021 10:00 PM

Q3 Do you have concerns about the goats visiting Burr Oak Park to help with management?

Answered: 76 Skipped: 0

ANSWER CHOICES	RESPONSES
Yes	7.89% 6
No	92.11% 70
TOTAL	76

#	IF YES, PLEASE EXPLAIN.	DATE
1	Only concern is that the wooded area will mostly go away and be over pruned. It would be fun for the kids to see the goats eating though.	8/2/2021 7:49 PM
2	Goat poop. Goat noise. Goats interfering with children playing. I can't send my kids to play unsupervised if there are goats in the park. Why pay to import goats to clear vegetation, oversee the goats, have insurance should the goats bite a child or pet, clear the goat poop, and catch one if it gets loose? This is a children's and neighborhood playground. It is not a golf course. This plan is not a good idea.	7/30/2021 3:23 PM

Proposed Project: Goats at Burr Oak Park

3	I have read about the use of goats in parks around our country. There has been great success in this project. I am concerned about how the goat poop and how that will be managed. Also, how long will the process take? The live near the park and it appears that it is used everyday. Other than this, I think that it is a good idea.	7/29/2021 10:41 AM
4	Only small ones: I haven't seen anything about managing the excrement from the goats. How is that handled? Otherwise I love the idea of invasive management without chemicals.	7/29/2021 9:11 AM
5	I think this is a fantastic idea! As long as any questions/concerns of those who live adjacent to the park are addressed, I am enthusiastically on board.	7/28/2021 4:46 PM
6	No we will be very glad to have them!	7/28/2021 11:02 AM
7	I'm so excited to see them at work!	7/27/2021 8:40 PM
8	I would look forward to watching the goats at work.	7/27/2021 7:35 AM
9	In other for the goat to achieve your wishes, they also incur a place for them that to me will be less attractive. The park like the homes are 35+ years old and we are asking for more problems if we entertain caring for goats or a goat period!!	7/26/2021 8:54 AM
10	Goat poop.	7/26/2021 8:21 AM

Q4 Are you interested in volunteering to help with these improvements to the wooded space in Burr Oak Park?
