

Biodigester Feasibility Study

RFP #889

Addendum #2

3-10-14

- 1) Please provide City's landfill/transportation costs:
 - a. \$12.62/ton transfer; \$13.28/ton landfill disposal
- 2) Please provide City's preferred data sources for food waste volumes
 - a. The City does not have a preferred data source. The City is looking for the consultant to provide a recommendation.
- 3) What does the City consider the Ann Arbor business community?
 - a. Ann Arbor currently provides refuse hauling to all business in Ann Arbor, except those that are exempt from the City commercial refuse hauling franchise. (Exemptions can be granted to national or regional accounts that had contracts in place before 2009). We have not made a determination on whether this program would be voluntary or mandatory. We believe that as part of the RFP, the contractor should make their best estimate of what's out there, perhaps with upper and lower bounds, and include what information the City would need to gather (if needed) as a next step after this RFP is complete.
